FRANKIA PLATIN PLUS

You'll find the FRANKIA Platin Plus convincing not just because of its elegant appearance. The intrinsic values of this special model from the house of FRANKIA are what turn it into a unique motor home.

Simply the best - you shouldn't be satisfied with less. With its extensive BÜTTNER ELEKTRONIK technology package, EFOY fuel cell preparation, as well as the integration of the alphatronics LED flat screen as standard, the FRANKIA Platin Plus leaves no wish unfulfilled.

Giving you the best chance of true Motorhome self sufficiency in the market today.

FRANKIA
THE MOBILE HOME MANUFACTURER

TECHNOLOGY TO EXCITE YOU

a BÜTTNER ELEKTRONIK – comprehensive technology package **b** 72-cell solar module **c** Dometic Freshlight – roof air conditioning and skylights in one

FURTHER TECHNOLOGICAL HIGHLIGHTS

- + 22" (55 cm) LED TV by alphatronics
 - + Oyster Vision III 85 TV Twin-Skew HDTV satellite system
 - + Dolby surround speakers
- and much more.

THE INTERIOR OF YOUR DREAMS

d Appealing and spacious living area **e** High-quality bathroom **f** High-quality kitchen equipment

HIGHLIGHTS OF THE PLATIN PLUS

- + Elegant kitchen with large hob, gas oven and grill compartment
- + Solid surfaces in the kitchen and bathroom
- + Alde hot water heating and heat exchanger for on the Road driving heating of the entire motorhome and double floor
- + Generous wardrobes and variable storage space

+ 2 x 45 A charge booster

+ 4 x 90 Wp high performance solar system

+ 3 x 120 Ah AGM power batteries

+ CAC - automatic computer battery charger

+ 1,700 watt "K" sine wave inverter

IDEAL LINES MEET IDEAL EQUIPMENT

PLATIN PLUS

+ Battery computer/
solar remote display

+ Hybrid electronic control
prepared for optional fuel cell

INCLUDES TECHNOLOGY PACKAGE BY BÜTTNER ELEKTRONIK

FRANKIA and BÜTTNER ELEKTRONIK.

Two companies permanently striving to be “SIMPLY THE BEST” and offer innovative technology - well thought-out and reliable even down to the detail.

Because experienced motor home drivers know: when you're on the road, you have to be able to rely on your technology. And the individual components must be perfectly matched to each other.

“No compromises” - that was the idea behind the Platin Plus. With this claim in mind, everything you need for a carefree journey has been integrated into this model - for that wonderful feeling that you're always one step ahead of the future...

MOBILE **MT** TECHNOLOGY

**The Platin Plus - now including
a comprehensive BÜTTNER ELEKTRONIK technology package**

INNOVATIVE TECHNOLOGY WITHOUT COMPROMISE

+ 3 x AGM power batteries 120 Ah

- Total capacity: 360 Ah
- High storage capacity for power supply on the road
- State-of-the-art technology

+ 2 x 45 A charge booster

- with IUoU charging characteristics
- for optimal on-board battery charging even on short stretches

+ High performance solar unit

- 72 cells with 4 x 90 Wp
- High performance even in poor weather conditions

+ 1,700 watt "K" sine wave inverter

- 230 volt appliances can be operated easily anywhere
- Roof air conditioner can be used while travelling
- Integrated mains priority circuit

+ CAC - automatic computer battery charger

- 20 A charging power from the mains
- For full charging of the high-quality on-board AGM batteries

+ Battery computer

Everything at a glance: "How much electricity is used?", "How much is left in the battery?", "How much energy has my Solar generated?" and much more

- Prepared for hybrid control (if an EFOY fuel cell is also installed)

+ Hybrid electronic control

Perfectly prepared: an EFOY fuel cell can also be installed as required to integrate seamlessly with the on board computer controlled charging systems

Luxury equipment for integrated components	Standard on Platin Plus	2-layer special metallic paint	Standard on Platin Plus
Auxiliary heating	Standard on Platin Plus	Thermo Guard Plus	Standard on Platin Plus
220 Ah enhanced alternator	Standard on Platin Plus		

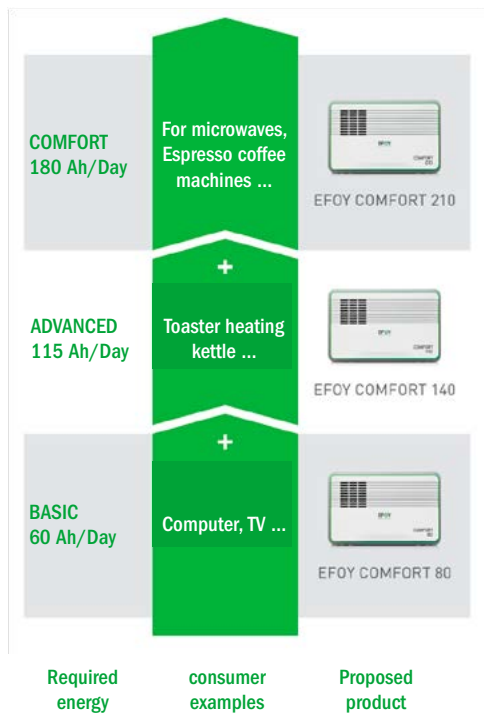

The basic equipment configuration can be taken from the FRANKIA 2016 price list, Definition Luxury 7900/8400.

The FRANKIA 2016 price list is valid for further options.

Your FRANKIA dealer will be happy to advise you.

FUEL CELL PREPARATION

MAXIMISE YOUR COMFORT

How EFOY COMFORT works:

The EFOY COMFORT permanently monitors the battery charge status. If it drops below 12.3 V, the EFOY COMFORT switches on automatically and recharges the battery. When the battery is full, the EFOY COMFORT also switches automatically to standby mode.

The EFOY COMFORT in the Frankia Platin Plus is controlled using the Büttner hybrid solar charge controller. The electronic control system decides when it is appropriate to run the EFOY fuel cell. The solar system always takes priority. If there is insufficient solar power due to the weather conditions, the EFOY COMFORT turns on automatically to ensure the battery is fully charged by the end of the day.

+ For use all year round

Under a shady tree, in any weather, in any season. Even in freezing temperatures!

+ Super quiet

With proper installation you won't even hear your EFOY COMFORT. Enjoy the silence!

+ Fully automatic and maintenance-free

All you have to do is occasionally change the fuel cartridge. No cleaning or other maintenance required!

+ Environmentally friendly

The EFOY COMFORT works economically and free of annoying emissions.

ALPHATRONICS S-LINIE

Top of the range in mobile TVs.

alphatronics Triple Tuner (DVB-S2, DVB-T, DVB-C with CI+ slot) for high resolution TV (HDTV), DVD player, USB port, HD recorder, and the highlight: the integrated Bluetooth module – characteristics of the new S-line, which guarantee perfect entertainment.

Experience a TV that already stands out with its design. Clean lines and high-quality workmanship in a unique “glossy basalt” colour. The S-line is a real eye-catcher in the FRANKIA Platin Plus motor home.

alphatronics

MERCEDES CHASSIS FOR THE FRANKIA PLATIN PLUS

Welcome home. No matter where you are.

Choose exotic destinations with peace of mind: no matter where you're going or how long the journey, with a Sprinter motor home chassis by Mercedes you can be confident in your safety, even in critical or unusual driving situations. This means that, on each of your trips, you can focus your attention on the roads and locations outside your window.

Enjoy a pleasant environment, the best possible driving comfort and ease of use, lots of space, ergonomic equipment and many practical details.

In terms of reliability, quality, safety, flexibility, sustainability and service, we are continuously developing the Mercedes-Benz motor home chassis.

With the 7G-TRONIC PLUS 7-speed automatic transmission and state-of-the-art engine, the latest generation of motor home chassis meets our high standards in all areas and presents itself once again as a pioneer.

OUTSTANDING TECHNOLOGY

For the best Sprinter of all time.

Excellent quality standards and a high resale value also contribute to the Sprinter's overall profitability, in addition to its advanced engine: With the progressive and sovereign V6 CDI OM642 diesel engine, the Sprinter sets new standards in terms of being fuel efficient and future-proof.

The new BlueTEC engine for the new Sprinter provides an economically and environmentally compelling solution:

Thanks to its SCR diesel technology, the Sprinter complies with the Euro VI standard. This not only contributes to the cost-effectiveness of the vehicle, but also reduces exhaust emissions, such as nitrogen oxides, and overall consumption.
