MORELO
FIRST CLASS REISEMOBILE

WHAT IS AT THE CORE OF MORELO?

MORELO stands for first-class motorhomes that are among the best in the world. A MORELO is always a statement of wanderlust, excellent comfort and superior quality. A MORELO means the feeling of being at home anywhere in the world. Or, in short, a MORELO is something truly special – Made in Germany.

This philosophy has transformed us into one of the most successful luxury motorhome manufacturers in Europe in just a few years. The friendly atmosphere, lively individuality, our determination and, of course, our many years of experience strengthen the brand. And, while we may not have entirely expected this unbelievable success over such a short period back in 2010 when we headed out for the Caravan Salon trade fair with just a few prototypes, we did always had faith in our approach.

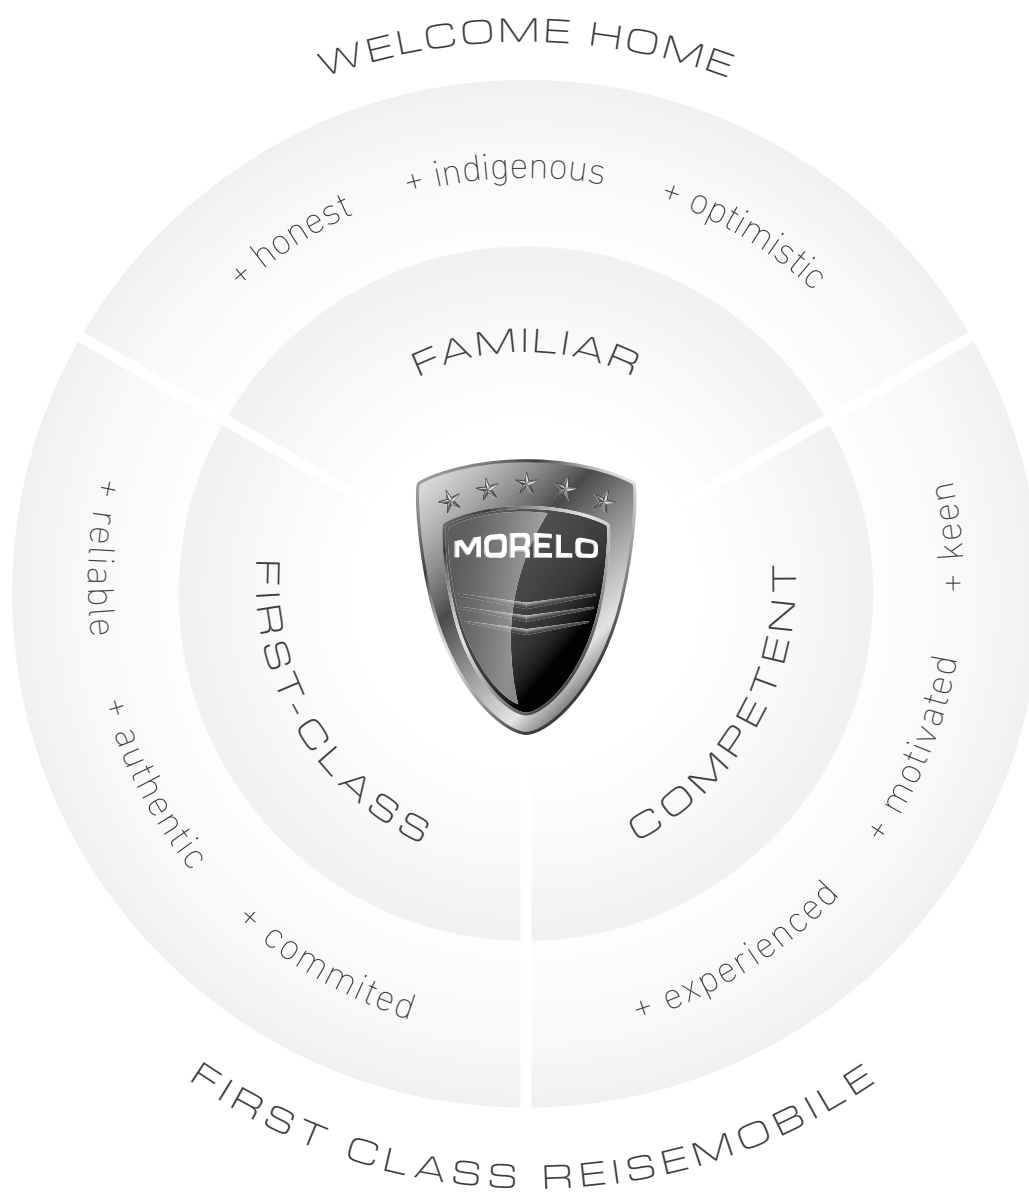

All of this together is what makes MORELO truly special. But do you know what else makes us unique? We did not start building our own motorhomes to get rich. We started doing this because there is nothing else we would rather do. Because there is nothing better than packing your belongings and getting away for a few days—or, even better, a few weeks—to travel through Scandinavia, discover southern Italy or drive to Portugal.

This love for motorhomes is within us and in every MORELO.

THREE MEN, ONE PASSION.

We have a very simple philosophy: Anything we do, we do out of conviction. This is why Jochen Reimann founded the company, why Reinhard Löhner works day in and day out refining the vehicles, and why Robert Crispens provides his support in turning our ideas into reality. He has been present since the company's very first steps and provides our glimpse into an even more successful future.

NEW CHALLENGES

The ice-cold weather caught up with us in Sweden at the Arctic Circle. But that is what we were hoping. Because we were not content with the weather we had seen so far. Because we are constantly looking for the best solutions. Under every condition. And they can get a little strenuous sometimes, like at the Arctic Circle. For us. But not the MORELO.

WINTER STAYS OUTSIDE

In a MORELO, you control the seasons, even when it's -36 degrees. It wouldn't be a true MORELO if it couldn't stay in peak form even in the Arctic Circle.

MINUS 36 DEGREES

Anyone can use a cold chamber. We prefer real testing conditions. This is why we sent Jochen Reimann and a film crew, and let a MORELO PALACE experience a deep freeze. The model didn't matter because excellent design quality and heat insulation come standard on every one of our first-class motorhomes.

Our Arctic Circle adventure. Take a moment and watch our videos. It's definitely worth it.

EXPERT ADVICE

FULLY AUTOMATED JACK SYSTEM

MAKE YOUR STAY IN YOUR MORELO AS COMFORTABLE AND EASY AS POSSIBLE

Our jack systems are precisely matched to your vehicle. The 4 hydraulic jacks level your vehicle in less than 2 minutes. Despite their low empty weight, each jack can lift 2 to 10 tonnes (depending on the model). During the retraction phase, an exceptionally high pressure is reached to ensure that all of the jacks are fully retracted.

OUR ADVICE

The E&P jack system is fully automated and works at the press of a button, but it can also be operated manually.

Automatic tilting also makes it easier to empty the tanks.

" MORELO GOT US ON BOARD "

Our stroke of luck: We were looking for a larger motorhome for our trips throughout Europe and we also wanted a mobile office space, but initially we couldn't find anything that met our expectations. Until we came across MORELO.

We were very taken with the state-of-the-art design from the very start. The company put serious effort into addressing our questions and requests, implementing them to our complete satisfaction based on the possibilities available. Our confidence in MORELO was certainly not misplaced.

Over the last three years, we have travelled more than 48,000 km and our MORELO has never let us down. Now we are devoted MORELO fans.

Our travels take us everywhere. Often to the north in summer. The coast of Scotland and the Highlands, covered with narrow roads and countless potholes, posed a significant challenge but one that our MORELO handled masterfully. Spending the night in our home on wheels while in a clearing surrounded by a herd of sheep—that's what we call "being home on the road".

" THE PERFECT OASIS OF COMFORT "

We will always remember the day of 6 June 2016. Picking up our MORELO let us fulfil one of our greatest dreams. The indescribable feeling during the pick-up and the first drive, coupled with the first night, were unique.

Starting with our first contact at the CMT Stuttgart, we felt right at home with MORELO. The idea behind the slogan "Welcome home" can be felt everywhere, from the management to every member of the staff. As the former owner of a service business, I appreciate a focus on the customer, reliability and a high level of quality. All of these characteristics can be found at MORELO.

We chose a "short" MORELO when we picked the LOFT 78 FX so that we could journey to beautifully located small spaces without any problems. The air suspension makes the driving characteristics optimal. The cockpit provides an excellent overview. The stowage space is more than generous and the living area with its spacious bathroom is simply marvellous. Our MORELO is the perfect oasis of comfort for any time of year for us.
