### General information

The "mass in running order" (MIRO) according to VO (EU) 1230/2012 is the mass of the unladen vehicle including the driver (75 kg) and full tank of fuel (90%) as well as the basic equipment: Fresh water tank with reduced volume (20 kg), gas bottle (15 kg) and cable drum (4 kg). The maximum technical permissible laden mass (MTPLM) as well as the maximum axle loads should not be exceeded by personal belongings, number of passengers or optional equipment. The maximum user payload and permitted number of persons will reduce accordingly to optional equipment. The information regarding delivery, appearance, performance, dimensions and weight of the vehicles correspond to the existing knowledge at the date of

printing and to the European homologation regulations. These may change by the time the vehicle is purchased or delivered. Variations within the factory tolerances (+/- 5 % max.) are possible and permitted. Price list Sunlight Camper Vans 06/2017, valid from 01.08.2017. With the issue of this price list all previous price lists are no longer valid. Throughout Europe there might be different Euro prices.
