REISEMOBILE AUS LEIDENSCHAFT

CREDO / CARVER / CHARISMA

INDIVIDUALITY **TIMES** THREE.

Experience the highest level of mobile travel fascination. Luxurious equipment and state-of-the-art vehicle technology, excellent quality and artisanal perfection – Credo, Carver and Charisma set new standards in their class. This is complemented by their concise style vocabulary with the progressive Concorde design. Of course they embody all values which Concorde has always stood for: Like all of our land yachts, the Credo, Carver and Charisma are absolute premium products full of innovation, precision and passion.

CREDO: A LOT OF SPACE, A *LOT OF LUXURY,* A LOT OF ENJOYMENT.

The advantages of a premium motorhome are found in the details. For example, with a large amount of headroom. Thanks to a roomy total height of 3.25 meters, an Alde hot water central heater for a perfect room temperature, the Concorde One Level Concept, a stepless, 350 mm-high double floor throughout the entire vehicle as well as high-quality wall and ceiling coverings for optimal insulation. It almost goes without saying that the new Credo has everything.

YOUR PERFECT **INTRODUCTION** **TO THE** *PREMIUM* *CLASS.*

Luxury is not a question of size. The Credo has proven this all along: It offers all properties which also characterise the large Concorde Liner. For example, this applies to the outer design with the impressive front mask and rear section as well as a basic chassis with a particularly high vehicle load capacity. Added to this are a series of technical innovations and the well-known high-quality equipment. Typical Credo, typical Concorde.

The background image shows the interior of a motorhome. On the left, there is a brown leather-upholstered bench seat with a white table in front of it. The table has a small vase with a red rose and some salt and pepper shakers. Above the seat is a large window showing a sunset or sunrise over a body of water. The ceiling has recessed lighting. On the right, there is a brown leather-upholstered seat with a black control panel. The floor is made of wood-look planks.

MORE ENJOYABLE TRAVELS, MORE COMFORTABLE LIVING.

THE LIVING SPACE.

The clever interior concept of the Credo has the perfect balance of functionality and comfort. The ergonomic sitting area is available with classic upholstery or the Redonda foam look. As standard, the lightweight furniture comes in the high-quality Noce look with high-gloss overhead locker furniture front panels with a cream white colour in the living area. Optionally, the furniture is also available in Atlas Cedar with overhead locker furniture front panels in Atlas Cedar with handle bars in stainless steel look or in Morettini Pear with overhead cabinet furniture front panels in high-gloss Morettini Pear. There is also an alternative to these three designs, namely overhead locker furniture front panels in high-gloss Senosan cream white. For a maximum in walking comfort, the floor coverings are available as standard in a ship's deck look or optionally in a slate look or in yacht-style.

TASTEFUL AND WELL- THOUGHT-OUT.

THE KITCHEN.

The new Credo kitchen is a clear statement of quality and function. Pull-out pantries, drawers with Servo-Soft compartment, a clever waste disposal system and the mineral composite kitchen worktop with moulded stainless steel sink set new standards in this class when it comes to use of space, design and operability. And they create the ideal space conditions for preparing even multiple-course meals.

The background image shows a modern bathroom interior. On the left, a white shower area is visible with a glass door and a silver showerhead. The walls and ceiling are finished with dark wood paneling. A silver shower handle is mounted on the wall. In the foreground, a dark wood vanity or countertop is visible, featuring a silver faucet and a silver handle. A small, colorful fish-shaped decoration hangs from the ceiling. The overall atmosphere is clean and contemporary.

FOR RESTFUL AND **RELAXED** MOMENTS.

THE BATHROOM.

The well-thought-out design of the bathroom area creates an enormous sense of space, be it the spacious bathroom (floor plan 791 L, 841 L and 841 M) or the premium bathroom (floor plan 840 L). Pumps and pipe systems in every bathroom version ensure water pressure which promises a shower experience just like at home. The large wardrobe and a separate changing area round out the bathroom.

A SPACIOUS DREAM.

THE SLEEPING SPACE.

Perfect relaxation is what the sleeping space, separated from the living area by a door, promises. There are various bed alternatives with large bed surfaces. Depending on the floor plan, you have the choice between two single beds and a queen-size bed as well as an optional lift bed. What they all have in common is the Concorde Comfort Plus bed system, a perfect combination of slat frame and cold-foam mattress for particularly restful sleep. Countless LED spots and indirect lighting make for pleasant (reading) light. - Sweet dreams!

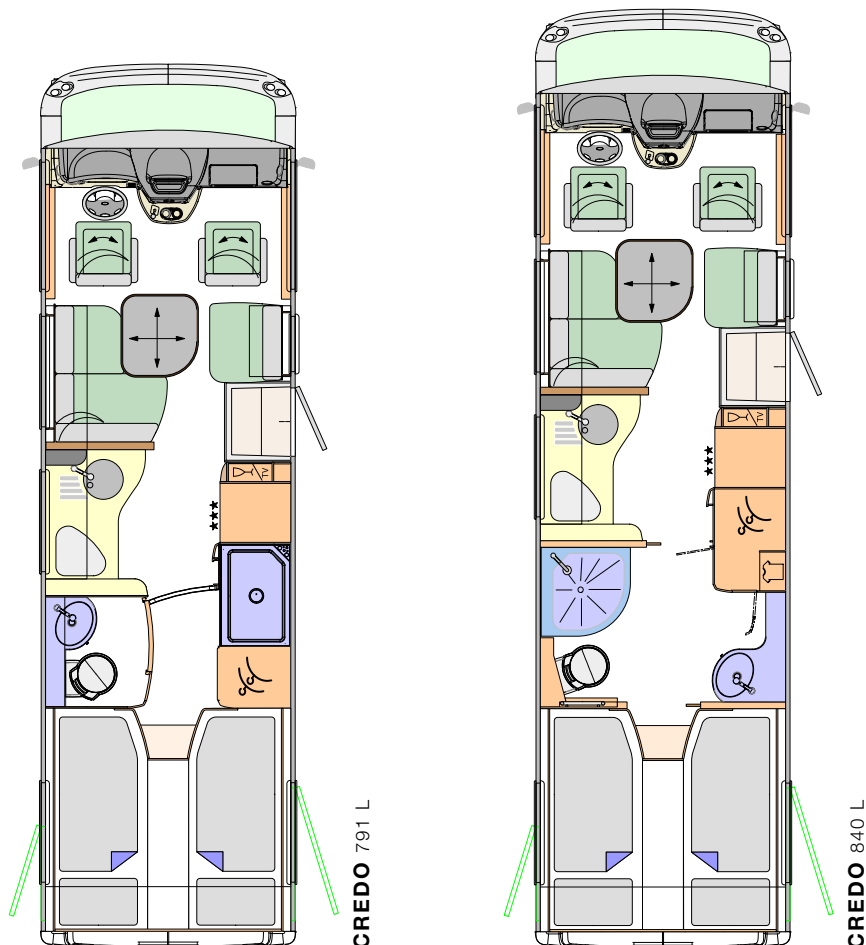

FOUR WINNERS.

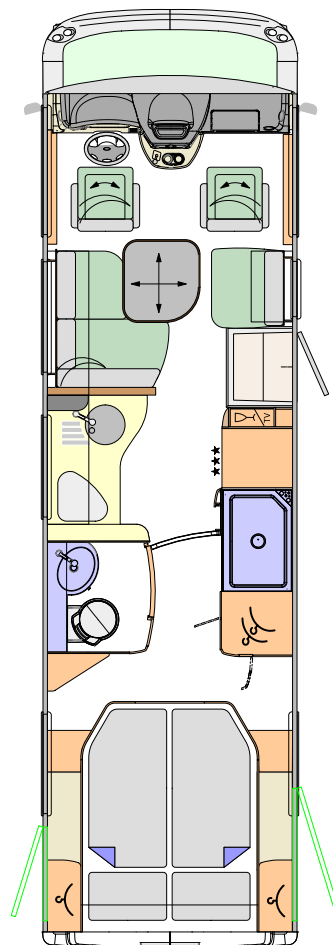

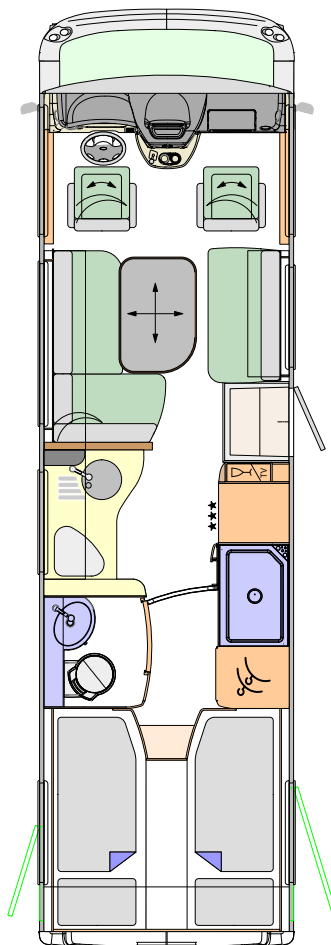

THE FLOOR PLANS.

Four versions with lengths between 7.99 and 8.49 metres:
The floor plan of the Credo has been thought out down to the last detail and combines a generous spatial impression with a functionality perfected down to the last detail. For comfortable travel with a sublime form.

"Our customers have dreams and we create the right spaces to make them come true."

Robin Schwarze, employee floor plan planning

INNER VALUES: **TECHNOLOGY** *AND OTHER FEATURES.*

FRESH WATER AND WASTEWATER VALVES.

A simply well-thought-solution: The fresh water and wastewater valves are optimally positioned in the heated double floor. They can be operated easily with a quick-lock coupling. The fresh water and wastewater tanks can be easily cleaned through the openings at the top.

INSULATING FRONT ROLLER BLINDS.

The insulated front roller blinds are rolled down electrically without steps and optimally insulate the windscreen from heat and cold.

JEHNERT SOUND SYSTEM.

The optional high-end components ensure a rich sound in the motorhome thanks to optimal adjustment to the installation site and floor plan. The 2-way speaker system in the driver's cabin, the broadband speakers including centre speaker in the living area and a sub-woofer create an impressive music and TV experience.

BATTERY MANAGEMENT SYSTEM.

The Mastervolt battery management system monitors the battery charging cycles, ensures perfect utilisation of the storage capacity and prevents deep discharge. The Mastervolt system supports the shore power if the mains connection is weak. It can be controlled by a well-organised operating unit with battery monitor and is available for all Concorde land yachts.

BATTERY MANAGEMENT SYSTEM

ENGINE COMPARTMENT

DOUBLE FLOOR STORAGE AREA

FULLY-INSULATED FRONT WALL

ALDE HOT WATER GAS CENTRAL HEATER

ENGINE COMPARTMENT.

Nice and tidy: The most important elements are very easily accessible in the engine compartment. Wash water and oil, for example, can be easily checked and refilled.

DOUBLE FLOOR STORAGE AREA.

The side flaps of the Concorde land yachts make for optimal access to the false floor. This makes loading and unloading this cross-cut storage area much easier, even with blocky objects such as camping furniture.

FULLY-INSULATED FRONT WALL.

Sometimes exclusivity begins where no-one sees it: Concorde has replaced the original separating wall installed between the engine compartment and the driver's cabin with a full sandwich wall. This protects the vehicle interior from engine noise and provides optimal insulation (high winter performance).

ALDE HOT WATER GAS CENTRAL HEATER.

The Alde hot water gas central heater uniformly heats the vehicle, maintaining the natural air humidity. The temperature can be controlled as desired with the thermostat and a timer. Dust swirls – common with conventional fan heaters – do not occur. The boiler is equipped with electronic cartridges which can be inserted separately or together with the liquid gas. The Alde system features a non-return valve and an integrated hot water boiler which supplies all tapping points. It is part of the series equipment of all Concorde land yachts.

CARVER: *DISCOVER* *THE NEW LIGHTNESS.*

The high-quality interior design of the new floor plan is elegant, linear and light. Lightness also characterises its design: Clever use of materials considerably minimises the weight of the Carver. It goes without saying that it is also top of the line when it comes to technology, functionality and winter performance.

AN ALL-ROUND IMPRESSIVE SIGHT.

Sporty, attractive, weightless: The Carver will win you over with its especially modern line layout. Its chassis with the striking front and rear sections shows the unmistakable signature of a new generation.

The background image shows the interior of a motorhome. A large flat-screen TV is mounted on the wall, displaying a white motorhome parked in front of a bridge. Below the TV is a window with a view of a red interior. To the right, there are shelves with various items, including a blue bag and a striped bag. The overall atmosphere is modern and luxurious.

HIGH-QUALITY AND AMBITIOUS.

THE LIVING SPACE.

A feel-good space for the highest demands. The sophisticated concept for the interior of the Carver makes for the perfect combination of functionality and comfort. The ergonomic sitting area is available with classic upholstery or the Redonda foam look. As standard, the lightweight furniture comes in the high-quality Noce look with high-gloss overhead locker furniture front panels with a cream white colour in the living area. Optionally, the furniture is also available in Atlas Cedar with overhead locker furniture front panels in Atlas Cedar with handle bars in stainless steel look or in Morettini Pear with overhead cabinet furniture front panels in high-gloss Morettini Pear. There is also an alternative to these three designs, namely overhead locker furniture front panels in high-gloss Senosan cream white. For a maximum in walking comfort, the floor coverings are available as standard in a ship's deck look or optionally in a slate look or in yacht-style.

COOKING *MADE EASY.*

THE KITCHEN.

The high-quality and spacious kitchen of the Carver is thought-out down to the last detail. The mineral composite kitchen worktop with stainless steel hob and sunken stainless steel sink make this very clear. Exclusive design, perfect equipment, exemplary ergonomics and lots of storage space provide optimal working conditions for even ambitious chefs and make cooking a real pleasure.

CULTIVATED **APPEARANCE.**

THE BATHROOM.

Pure enjoyment in the spa area of the Carver: Start the day fresh and lively in the newly-designed spacious Concorde bathroom with a separate shower, optional towel heater and large mirrors. The washstand with perfectly fitted sink is equipped with a single-lever mixed tap. Countless storage compartments offer plenty of space for toiletries.

MORE THAN “JUST” A REST AREA.

THE SLEEPING SPACE.

It's sometimes good to have more. For example, when it comes to sleeping comfort: You can rest and relax in the rear beds equipped with spring bases in the newly developed sleeping area. All Carver models are equipped with comfortable cold-foam mattresses. In addition, the rear beds are provided with comfortable headrests as standard. If desired, a roomy lift bed (791 RL and 890 RRL series) is available as an additional sleeping area.

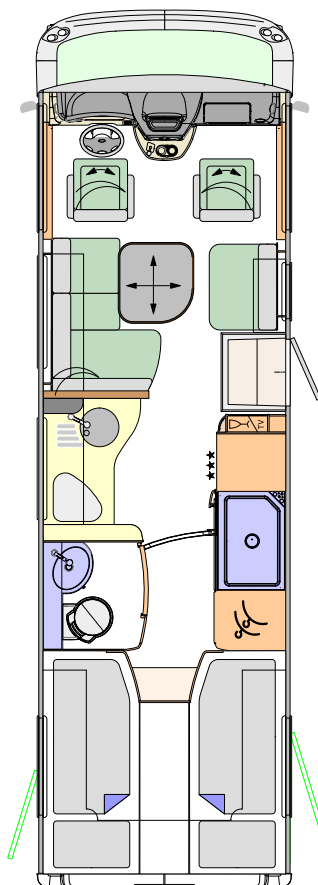

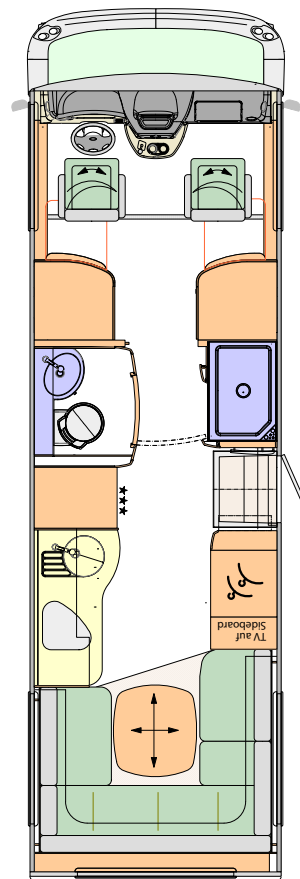

VERSATILITY **THAT** IMPRESSES.

THE FLOOR PLANS.

The floor plan of the Credo models has been thought out down to the last detail. It combines an amazing spatial impression with a functionality perfected down to the last detail. For comfortable travel with a sublime form.

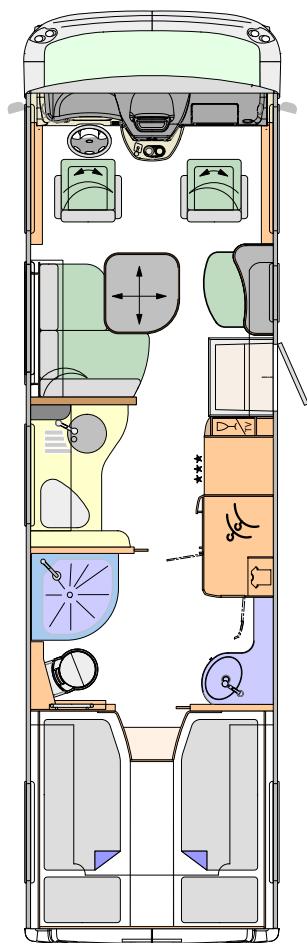

CARVER 791 L

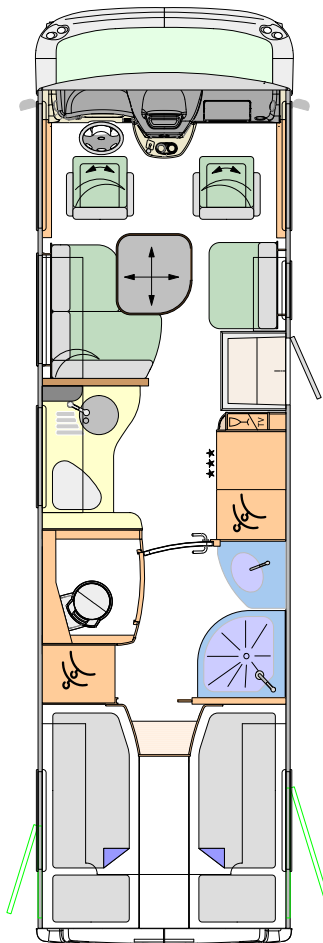

CARVER 791 RL

"It is a perfectly thought-out floor plan that really makes a room a feel-good space."

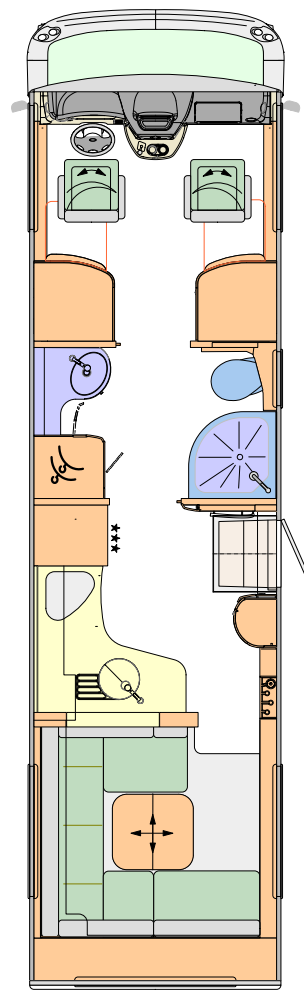

Philipp Steinmeier, employee floor plan planning

CARVER 840 L

CARVER 844 L

CARVER 890 RRL

INNER VALUES: **TECHNOLOGY** **AND *OTHER FEATURES.***

JEHNERT SOUND SYSTEM.

The "made in Germany" hi-fi components are optionally available and perfectly integrated into the Carver environment. The system consists of a 3-way speaker in the driver's cabin, 2-way speaker in the living area, double-bass reflex sub-woofer, sound processor as well as vehicle-specific crossover network.

MINERAL COMPOSITE WORKTOP.

The high-quality mineral kitchen worktop combined with the hygienic stainless steel sink is truly neat and clean. Well-thought-out details such as drip and water drainage troughs make housework easier. Clever idea: A support for the two-part sink cover turns it into an additional worktop.

OPTIMAL SEATING POSITION.

The Concorde dashboard was developed for optimal use in the motorhome and has many advantages. The offset seating position makes for more living space between the seats and offers an imposing panoramic view. Being able to see the road just in front of the vehicle makes driving safer and creates a good driving experience.

LEATHER DASHBOARD.

The leather BiColor dashboard unites the technical advantages of an independent construction with the cosiness of the living area upholstery. Thanks to the selection of three textile-leather combinations, the dashboard is a harmonic match to the seating area.

OPTIMAL SEATING POSITION

LEATHER DASHBOARD

STABILITY

SUPPORTING CONSTRUCTION

SINE WAVE INVERTER 600 W

DRIVER'S CABIN PLATFORM

STABILITY.

Great forces emerge when using the motorhome windscreen wiper system. That is why the strong engine and the mechanical drive for the windscreen wipers are assembled on their own frame, decoupled from the front mask and fastened to the front wall.

SUPPORTING CONSTRUCTION.

Two aluminium frames in the double floor ensure an extremely stable "basement static equilibrium" by connecting the chassis with the living area floor, creating a solid box. This clever construction means that furniture and wall constructions remain firmly connected in the long run.

SINE WAVE INVERTER 600 W.

The sine wave inverter continuously supplies small consumers such as chargers and ventilators with power. The mains priority circuit automatically turns the inverter voltage to shore power. The inverter is switched off and vehicle battery is conserved as soon as your motorhome receives shore power.

DRIVER'S CABIN PLATFORM.

The Concorde driver's cabin platform is optimised according to the FEM (Finite Element Method) process with regard to stability and weight. The room frame version is designed to absorb the arising forces. The galvanised frame guarantees a high degree of safety even when used for long periods of time.

CHARISMA: *MOBILE TRAVEL* *IN ITS MOST* **MODERN FORM.**

Experience the highest level of mobile travel fascination. Luxurious equipment and state-of-the-art vehicle technology, excellent quality and artisanal perfection. The Charisma sets new standards in its class. This is complemented by its concise style vocabulary with the progressive Concorde design. Of course it embodies all values which Concorde has always stood for: Like all of our land yachts, the Charisma is an absolute premium product full of innovation, precision and passion.

ALREADY **A CLASSIC.**

The third generation of the Charisma marks another milestone in the development history of the luxury motorhome. Its progressive design, clever technology and uncompromising comfort have made it a pioneer in the premium class. Choose your personal favorite Charisma version from six floor plans. Or just go for the Charisma 905 L with the especially impressive spacious bathroom.

The background image shows the interior of a motorhome. It features cream-colored leather seating, including a sofa and a large swivel chair. The ceiling and upper walls are finished with wood paneling and have recessed lighting. A window with horizontal blinds is visible in the background. The overall atmosphere is bright and modern.

CREATE **FREE** SPACE.

THE LIVING SPACE.

A living environment typical for a Concorde premium motorhome: Generously dimensioned, high-quality equipment, unbelievable comfortable. The sitting area is available with a bar area or with a fifth lounge seat, depending on the model. The driver's and passenger's seats can be perfectly integrated into the living area for even more free space when travelling. The generous spatial impression is supported by the Concorde One Level Concept with a continuous stepless level from the driver's cabin to the sleeping space.

COOKING **FOR** PROS.

THE KITCHEN.

This makes cooking fun: You can serve up delicious multiple-course meals. There is plenty of storage space thanks to the extendable pull-out pantries. The kitchen devices, high-quality without exception, are integrated so as to be optimised when it comes to ergonomics. A stainless steel sink with a splashguard, the voluminous refrigerator and the mineral composite kitchen worktop with a neatly sunken stainless steel sink might not make everyone a gourmet chef, but at least you will be cooking in a gourmet-class kitchen.

A close-up photograph of a modern bathroom interior. The focus is on a white, rectangular sink with a chrome faucet. The background features a wooden wall paneling and a mirror reflecting the interior. The lighting is warm and ambient.

TURN YOUR TRIP INTO A SPA EXPERIENCE.

THE BATHROOM.

Start every day in a spa oasis! The stylishly equipped bathroom stretches across the entire width of the Charisma and creates a new sense of space. Enjoy the high-quality equipment with stainless steel fixtures from Hansgrohe as well as surfaces, sink and shower basin made of fine artificial stone. Furthermore, you can be independent of an external water supply for long periods of time thanks to the 380 litre water tank equipped as standard. In the large shower, you can not only shower comfortably, but you can also take your time to enjoy it.

The image shows the interior of a motorhome bedroom. A large bed with a grey quilted coverlet is the central feature. Behind the bed are two white headboard panels. To the right, a red pillow and a blue book are on the bed. Above the bed, there are wooden cabinets and a shelf with books and a red bag. A window with white curtains is on the left. The ceiling has recessed lighting.

HERE IS WHERE **DREAMS COME TRUE.**

THE SLEEPING SPACE.

Welcome to the fabulously comfortable sleeping area! The high-quality Concorde sleeping system with deluxe mattress and stable spring base is so comfortable that you won't want to get out of bed. A breathtaking generosity of space is also notable here – be it for storage areas or bed dimensions. We guarantee it's not a dream: You will feel like you're in a five-star suite in your motorhome.

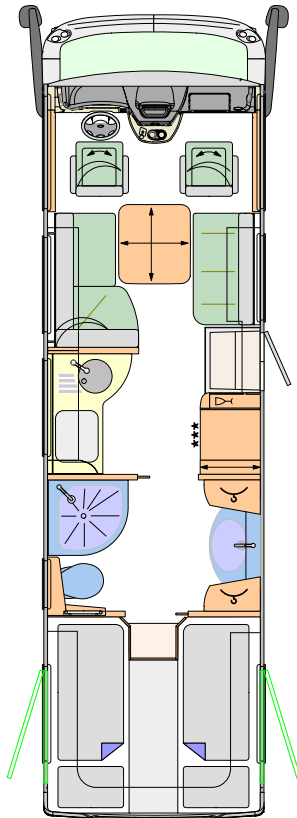

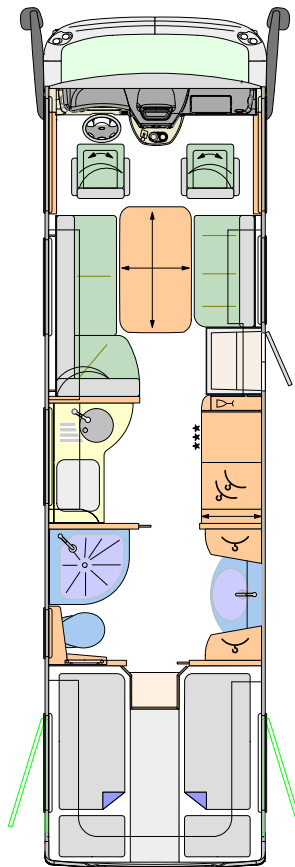

AS FLEXIBLE AS YOU.

THE FLOOR PLANS.

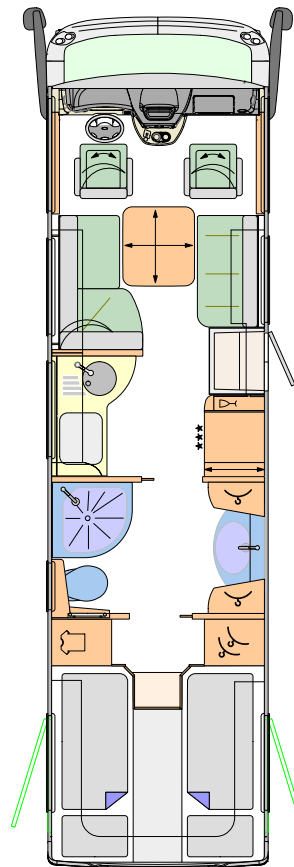

Choose a room set-up which best suits your needs. Six floor plans with single beds or a queen-size bed in the rear area are currently available. Always included: A huge amount of free space for your ideas.

INNER VALUES: **TECHNOLOGY** *AND OTHER FEATURES.*

JEHNERT SOUND SYSTEM.

The "made in Germany" hi-fi components are optionally available and perfectly integrated into the Charisma environment. The system consists of a 3-way speaker in the driver's cabin, 2-way speaker in the living area, double-bass reflex sub-woofer, sound processor as well as vehicle-specific crossover network.

REAR BED WITH SPRING BASE.

In this modern sleeping concept, a sophisticated spring base replaces the slat frame used up to now. A high-quality cold foam mattress and the adjustable headpiece ensure a particularly high level of sleeping comfort. The rear bed with spring base is part of the series equipment of the Charisma. A similar spring base is available as an option for the Carver.

UV RADIATION-REDUCING WINDSCREEN.

The panorama multilayer glass windscreen consists of two panes of glass stuck together with a film. A PVB film is used as standard in the Charisma and as an option in the Carver. It filters out UV radiation and reduces sunshine (reduction from 51% of the TSHT (Total Solar Heat Transfer)). Two heatable areas in the windscreen prevent the windscreen wipers from freezing on one hand, and ensure a clear field of vision in the event of unfavourable weather conditions on the other.

BATTERY MANAGEMENT SYSTEM.

The Mastervolt battery management system monitors the battery charging cycles, ensures perfect utilisation of the storage capacity and prevents deep discharge. The Mastervolt system supports the shore power if the mains connection is weak. It can be controlled by a well-organised operating unit with battery monitor and is available for all Concorde land yachts.

DOUBLE FLOOR STORAGE AREA.

The side flaps of the Concorde land yachts make for optimal access to the false floor. This makes loading and unloading this cross-cut storage area much easier, even with blocky objects such as camping furniture.

FULLY-INSULATED FRONT WALL.

Sometimes exclusivity begins where no-one sees it: Concorde has replaced the original separating wall installed between the engine compartment and the driver's cabin with a full sandwich wall. This protects the vehicle interior from engine noise and provides optimal insulation (high winter performance).

ALDE HOT WATER GAS CENTRAL HEATER.

The Alde hot water gas central heater uniformly heats the vehicle, maintaining the natural air humidity. The temperature can be controlled as desired with the thermostat and a timer. Dust swirls – common with conventional fan heaters – do not occur. The boiler is equipped with electronic cartridges which can be inserted separately or together with the liquid gas. The Alde system features a non-return valve and an integrated hot water boiler which supplies all tapping points. It is part of the series equipment of all Concorde land yachts.

STYLISHLY **BALANCED.**

A Concorde is the perfect interplay of many individually customisable components. All models are characterised by intelligent details. The best materials and the best craftsmanship result in something that makes every one of our land yachts one-of-a-kind. Experience the extraordinary! No matter if you are on the road or have thrown down the anchor at your favourite spot.

SIMPLY **INGENIOUS.** **INGENIOUSLY** SIMPLE.

THE DRIVER'S CABIN OF THE CREDO, THE CARVER AND THE CHARISMA. User-friendly operation is the decisive factor in modern and functional driver's areas. The ergonomic position of the gear changing and the radio navigation system is customised to the driver. The Bicolor dashboard (optionally covered in leather) is a real eye-catcher. The automotive integration into the driver's cabin and the newly-designed transition into the living area create a harmonic unit.

THREE VEHICLES, THREE TYPES OF WOOD, THREE PERSONALITIES.

THE DESIGN CONCEPTS.

Three different design concepts create amazing spatial experiences in all three vehicles. As standard, the Credo, Carver and Charisma are available in the exquisite Noce look with glossy cream white overhead locker furniture front panels in the living area. The modern Atlas Cedar or the classic Morettini Pear looks are also available as options. For Atlas Cedar furniture, the Atlas Cedar overhead locker furniture front panels are equipped with handle bars in stainless steel look. Furniture versions in Morettini Pear follow classically elegant lines, the furniture front panels are delivered in a high-gloss Morettini Pear. The overhead locker furniture front panels are also available in high-gloss Senosan cream white for all three furniture lines. For a maximum in walking comfort, the floor coverings in a ship's deck look, slate look or yacht style are perfectly matched to the respective furniture.

STANDARD DESIGN VARIATION:

ROOF CABINET FRONT: GLOSSY CREAM WHITE (ONLY LIVING ROOM)

BODY OF THE FURNITURE: NOCE

RECOMMENDED FLOOR COVERING: YACHT OPTIC

OPTIONAL FURNITURE FRONT PANELS:

“HIGH GLOSS” SENOSAN CREAM WHITE (LIVING AND SLEEPING AREA)

CREATE YOUR OWN PERSONAL CONCORDE.

EXPRESSIVE AND PERFECTLY COORDINATED.

LEATHER AND FABRICS.

We offer a large selection of different full leather and microfibre covers; you can see some examples on the right side. All materials are finished with care in selected workshops in accordance with the strictest Concorde quality requirements. They are subjected to an innovative impregnating process so that they maintain their typical properties for as long as possible: Our microfibre fabrics are treated with ConLotus, our leather with Antisoiling Aquaderm X-Shield. Dirt does not stick, liquids roll right off, the look and smoothness stay the same. In addition, you can get the sitting area with the Redonda seat and back upholstery developed by Concorde on request: It ensures optimum hold, relaxes the spine and protects the lumbar region.

MOBILE TRAVEL **OUT OF *PASSION.***

THE ESSENCE OF MOBILE TRAVEL.

Concorde is committed to thinking like a manufacturer. We produce motorhomes of the highest quality for the highest demands. Every vehicle is a unique specimen, every vehicle is a masterpiece, produced in a traditional Franconian company with classic hand-work, with joy, enthusiasm and inspiration which never diminishes. Because it is the passion for motorhomes which unites the people at Concorde. And it is what connects us to you.

"Producing luxury motorhomes with high precision and in the finest quality as we would expect for ourselves is our aim we only want to send our customers out on a journey when we have achieved this."

»»

Björn Auer, Head of Production

«« *"Quality is something you must see and feel. For us, it means ever-new challenges. Quality assurance is like running a marathon; every step counts! We can only reach our goal when everyone does their part."*

Patrick Murphy, Head of Quality Management
