ONLY FRANKIA HAS IT LIKE THIS: M-LINE FEATURES AT A GLANCE

FRANKIA + MERCEDES-BENZ = A SUCCESS STORY FOR THE FUTURE

For over 45 years FRANKIA has been making the (Mercedes) Star shine bright like never before with new vehicle concepts and innovative solutions that are always in touch with the latest trends – and 2020 is no exception.

UNMATCHED VARIETY ON A MERCEDES-BENZ SPRINTER PLATFORM

A-Class or Low-Profile, from lightweight 3.5 t vehicle to luxury liner – choose between 18 floor plans!

NEW

2020: EVEN MORE DRIVING COMFORT ON A MERCEDES-BENZ PLATFORM

Powerful front wheel drive (M-Line NEO) or rear-wheel drive with great traction, optional 190 hp EURO VI BlueTec engine, 7-speed automatic, new Frequency Selective Damping (FSD) technology and state-of-the-art assistance systems

NEW

M-LINE NEO: THE STAR SHINES IN A NEW LIGHT(NESS)

Top new line: FRANKIA MT 7 GD NEO – The new series with a total weight of only 3.5 tonnes

NEW

UNIQUE: ROUND SEATING GROUP MEETS MERCEDES-BENZ

Only from FRANKIA: I 7400 PLUS and now with a NEW round seating group in two floor plans as FRANKIA PLATIN

LIKE NO OTHER: THE UNBELIEVABLY SPACIOUS M-LINE T 7400

The unique top-selling M-Line T 7400 has been optimised and now includes Crosswind Assist standard

NEW

HIGH-CLASS LIVING SPACE, DELUXE STORAGE SPACE

New FRANKIA spa-like bathroom, even more comfort in all seating areas, completely stepless double floor and interior, PLUS rear storage compartments with unique FRANKIA Easy Bike System (optional)

M = MORE SMART DETAILS FOR MAXIMUM COMFORT

Practical central supply system with self-retracting cable, up to 270-litre fresh water tank, new TecTower standard in many FRANKIA motorhomes, over 2 m of headroom and much more

ONLY FRANKIA HAS IT LIKE THIS: F-LINE FEATURES AT A GLANCE

NEW +

FRANKIA + FIAT DUCATO = VARIETY, FLEXIBILITY, POWER

For over 30 years FRANKIA has been offering fascinating configuration options that are only possible on a Fiat Ducato with an AL-KO low-frame – and now they come with the latest generation of Fiat engines under the hood

+

DUCATO OFFERS THE MOST FREEDOM OF CHOICE

A-Class or Coachbuilt, from custom compact to luxury liner – choose between 30 floor plans in six lengths and with eight different bedroom layouts

+

YOUR PLUS: FRANKIA ROUND SEATING GROUP IN EIGHT FLOOR PLANS

Whether Coachbuilt or A-Class: Choose from four round seating group shapes and lengths

+

MAXIMUM DOUBLE FLOOR, SUPERIOR LIVING COMFORT

Unbelievably spacious FRANKIA F-Line: Unique heated FRANKIA double floor with a continuous height of 35 cm; stepless interior with over 2 m of headroom

NEW +

NOW EVEN MORE EXCLUSIVE FRANKIA LIVING COMFORT

New FRANKIA spa-like bathroom, new seating group design and upholstery, new PLUS drop-down bed

NEW +

GIANT F-LINE: I 890 GD – NOW WITH BAR-STYLE SEATING

Large premium liner with a length of nearly 9 m, 2.10 m beds and multimedia workspace

+

COMPACT F-LINE: I 680 SG – WITH PLENTY OF STORAGE SPACE

Unique floor plan with large cabinets and extra-large rear storage compartment

NEW +

WE INVENTED IT: THE FRANKIA EASY BIKE SYSTEM

An innovative solution to transport bicycles – load two bikes up to 28" without disassembling or converting the rear storage compartment (optional)

SO INDEPENDENT, SO EXCLUSIVE: TITAN FEATURES

NEW +

THE NEW FIAT DUCATO – POWERFUL & ECO-FRIENDLY

160 hp engine, 9-speed automatic gearbox and AdBlue Technology:
Enjoy the ride in your FRANKIA TITAN and get great mileage

+

IT'S YOUR CHOICE: PURE LUXURY IN TEN FLOOR PLANS

The FRANKIA TITAN is available as a Coachbuilt or A-Class – with your choice of a queen-size bed, separate beds, power drop-down bed or optional rear drop-down bed

+

ALL-IN-ONE LUXURY: TECHNOLOGY THAT MAKES YOU INDEPENDENT

Only FRANKIA has it like this: “Worry-free equipment package” standard in combination with a unique technology package including a 110 Ah LiFePO4 battery

NEW +

MOTORHOME? PREMIUM SUITE!

360° of freedom, class, exclusivity: Now with the new FRANKIA spa-like bathroom, even more comfort in all seating areas, luxurious equipment, exceptionally spacious

+

EVERYTHING ON BOARD AT ALL TIMES: DELUXE STORAGE SPACE

Extra-large rear storage compartment with a height of 1.24 m, FRANKIA double floor with a continuous height of 35 cm and many clever storage solutions

+

EVERYTHING YOU NEED – EVEN ON LONG JOURNEYS

Pure comfort: XL 150 l fresh water tank (optionally up to 300 l) and FRANKIA central supply system with self-retracting cable

NEW +

FREEDOM AND INNOVATION MEET ROUND SEATING GROUP

Only the FRANKIA TITAN PLUS offers this: Technology that makes you independent + exclusive FRANKIA round seating group + innovative storage solutions like the new FRANKIA Easy Bike System (optional)

NEW +

ABSOLUTELY GIGANTIC! THE I 890 GD-B TITAN

Pure luxury with a length of nearly nine metres: Over 2 m of headroom, 2.10 m long XXL beds, 32 inch TV with power extension, pull-out bar table with multimedia workspace and much more

op2031910	ECO-Pack for 140 HP engine		1
op2031925	Assistance systems for cab chassis	including: emergency brake assistant, lane departure warning system, high-beam assist, traffic sign assist, light and rain sensor (for coachbuilt and low-profile)	5
op2031950	LED daytime running lights	(for coachbuilt and low-profile)	1
op2031970	Battery Booster	Standard equipment for F-Line	3
op2032000	Removable trailer hitch with electric socket		50
op2032100	Electrics for trailer hitch with socket		2
op2032150	Spare tyre with fastening	(not possible for PLUS layouts)	45
op2032200	Spare tyre and jack without fastening	(not installed)	39
op2032250	Hydraulic support system HY4 from Alko	The unique and space saving hydraulic support system for motorhomes up to 6.0 t. No more inclined angles, no more unsteady ground under the feet. With HY4, the new, innovative support system from AL-KO, you can level your motorhome quickly and easily in the desired park position.	75

CHASSIS MERCEDES-BENZ SPRINTER

op2032500	Mercedes Chassis - Right Hand Drive	(Attention: The cab door of A-Class models is always installed on the left hand side - installation on the right hand side is not possible!) Speedometer in miles (For New Zealand speedometer in km/h) Headlights with configuration for left-hand traffic	0
op2032380	Complete Chassis Pack for Low-profile Mercedes-Benz	Airbags for driver and passenger, 190 HP, Euro VI, Tempmatic air conditioning, cruise control, 93 l tank, auxiliary heating, 7-gear automatic transmission, alternator 220 Ah, leather steering wheel, spare tyre with fastening	167
op2032400	Complete Chassis Pack for A-class Mercedes-Benz	Airbags for driver and passenger, 190 HP, Euro VI, Tempmatic air conditioning, cruise control, 93 l tank, auxiliary heating, 7-gear automatic transmission, alternator 220 Ah, leather steering wheel, spare tyre with fastening (without fastening for 7400 Plus)	167
op2032550	Upgrade Mercedes to 5,5 t	with reinforced front and rear axle and tyres with higher load capacity - speed limiter max. 120 km/h - max. perm. mass of the combination 7000 kg	8
op2032600	Engine 190 HP with 7-gear automatic transmission	instead of 163 HP	60
op2032650	Automatic transmission 7-gear		22
op2032700	Diesel tank 93 l		27
op2032710	MBUX 10.25 inch touchscreen + DAB		2
op2032740	High performance LED headlights		1
op2032850	Mono-LED lamps for low-beam headlights	and fog lights (only for A-Class)	3
op2032855	Fog lights with turning lights		3

OPTIONAL EXTRAS

			Weight in kg
op2032860	High-beam Assist	Highbeam Assist eliminates the need to flip between high and low beams while also ensuring the path ahead is fully lit without ever straining the eyes of other drivers. (only possible for low-profile models)	0
op2032870	Attention Assist	Attention Assist is a system intended to help drivers recognise when they are drowsy or inattentive and to encourage them to take a break. (only possible for low-profile models)	0
op2032875	Active distance assist	maintains the desired distance from another vehicle in front and relieves the driver, especially on motorways or in stop-and-go traffic. (only possible in combination with MBUX)	5
op2032885	Active lane keeping assist	can intervene if there is a critical lane-keeping situation. If the driver unintentionally crosses a solid line on either side of the lane, a display in the instrument cluster warns the driver. If necessary, the system can even prevent the vehicle from crossing the line by brake impulses. (only possible in combination with MBUX)	0
op2032900	Trailer hitch Mercedes removable, incl. socket	trailer weight max. 1.950 kg	50
op2032950	Electrics for trailer hitch incl. socket		2
op2033000	M+S tyres (snow tyres)		0
op2033200	Aluminium rim set with wheel spacers	for MB Sprinter A-Class consisting of: 2 aluminium rims front axle 1x set wheel spacers 30 mm front axle (overall 60 mm track widening) 2 aluminium hubcaps rear axle 1x set wheel spacers 50 mm rear axle (overall 100 mm track widening)	25
op2033210	Aluminium rim set with wheel spacers	for MB Sprinter Low-profile models consisting of: 2 aluminium rims front axle 1x set wheel spacers 20 mm front axle (overall 60 mm track widening) 2 aluminium hubcaps rear axle 1x set wheel spacers 50 mm rear axle (overall 100 mm track widening)"	25
op2033220	Spare tyre with fastening	(not possible for Plus layouts)	45
op2033230	Spare tyre and jack without fastening	(not installed)	39
op2033250	HPC levelling system with Bluetooth	for MB, with 4 hydraulic jacks and automatic levelling (for vehicles up to 10 tons)	80
op2033300	Rear axle - full air suspension	only as initial equipment (From the driving position the chassis can be raised by approx. 80 mm and lowered by approx. 20 mm.) Without manual stabilizing legs	45
op2033310	FSD shock absorbers for front axle and rear axle full air suspension	Advantages of the VB Suspension Upgrade Kit for Motorhomes: suspension system does not drift as quickly, more comfortable driving characteristics, improved stability, vehicle does not sag, unevenness in the road surface not felt so distinctly in the vehicle, less vibration, less background noise	0
op2033320	FSD shock absorber kit for front + rear axle	Advantages of the VB Suspension Upgrade Kit for Motorhomes: suspension system does not drift as quickly, more comfortable driving characteristics, improved stability, vehicle does not sag, unevenness in the road surface not felt so distinctly in the vehicle, less vibration, less background noise (cannot be ordered in combination with rear axle full air suspension)	0

CHASSIS NEO

op2032270	Comfort chassis pack for NEO	414 CDI (143 HP), 6-speed manual transmission, semi-automatic air conditioning TEMPMAIK, cruise control with multi function buttons on steering wheel, reinforced front axle, ECO start/stop function, leather steering wheel, 16 inch black alloy wheels (Mercedes Benz original), insulated driver's cab, electric parking brake	20

op2043302	AL-KO safe for NEO	completely installed.	12
op2043330	Tightness warranty extension	from 7 to 11 years for Thermo Guard Plus (according to the warranty conditions)	0

SMALL BUT SIGNIFICANT ENOUGH

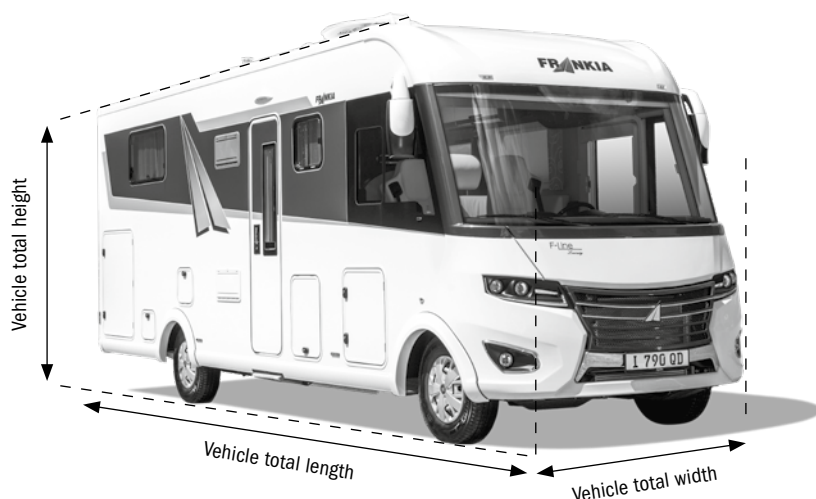

SIZE SPECIFICATIONS

The **total vehicle length** corresponds to the measurement between the outermost point of the front spoiler and the outermost point of the rear panel (without trailer coupling).

The **total vehicle width** corresponds to the measurement between the outer sides of the exterior walls on both the driver and passenger side without outer mirrors.

The **total vehicle height** may vary with installations and roof options (e.g. skylights, SAT or air conditioning system etc).

The **bed measurements** specified are external measurements. The measurements of the mattresses supplied may differ.

The accessories and original spare parts recommended by FRANKIA have been especially developed for your vehicle and approved by us. Your FRANKIA trading partner supplies these products; they have been informed about the permissible technical details and professionally carry out all necessary work.

Accessories, additions, alterations or fitted components not approved by FRANKIA can lead to damages on the vehicle and compromise road safety. Even if these parts have been approved by an expert, have a parts approval document or certificate, this by no means ensures that the product is of sufficient quality.

Please understand that no liability will be assumed for damages caused by products that have not been approved by FRANKIA, or indeed modifications that were not permitted.

Please note that the prescribed axle loads must be adhered to when fitting special rear attachments such as motorbike brackets, trailer couplings or loading of the rear garage (depending on layout plan).

The prices specified for the optional equipment only have validity as part of new series production. Retrofitting of special optional equipment is sometimes not possible or associated with substantial additional costs.

The total vehicle height may vary with installations and superstructures (e.g. skylights, SAT or air conditioning systems). The number of persons indicated is dependant on weight and axle load. This number can reduce if accessories and optional equipment are installed.

The number of persons specified refers to the weight of the vehicle in production configuration. The optionally selected number of persons is specified

in the registration certificate, which can, nevertheless, only be reached with a weight load increase depending on the model. The technically permissible total mass and the axle loads may not be exceeded. The payload capacity is primarily dependant on the unladen weight. It is reduced by the fitting of accessories and optional equipment. It also presupposes an axle load-dependent distribution of the payload.

The specified mass in running order is defined by Regulation (EU) 1230/2012. It includes, in addition to the mass of the standard equipment of the vehicle when equipped (basic vehicle configuration acc. Directive 2007/46/EC Annex IV or XI), the mass of up to 90 % of the fuel tank capacity (S), the driver (75 kg), tools (6.5 kg), as well as up to 100 % of the filled liquid tanks (fresh-water tank (120 l/150 l) and aluminium gas cylinder(s) (11 kg). Decisive for the mass of the fresh-water tank is its capacity as described in Appendix V, part A, para 2.6 Fn. (H) Reg (EU) 1230/2012, taking into consideration the movement limitation – if any – based on the amount in litres specified in this technical documentation.

Deviations no more than +/- 5 % in the mass in running order are permissible for production reasons.

In principle, the optional equipment and accessories increase the weight in its roadworthy condition and reduces the possible payload as well as the storage space depending on the model. The maximum permissible vehicle weight and axle loads must be observed when the capacity of the fuel and/or fresh water tank is increased. This applies particularly to optional equipment and accessories. The payload for tank systems modified against the standard design must be obtained by the vehicle owner themselves. The maximum towing capacity depends upon the total weight of the vehicle.

BED DIMENSIONS

SD -LAYOUT (I 640)

Drop-down front bed (L x W)

192 x 140 cm

(Option: Duo-bed 192 x 197 cm)
