## WELCOME HOME

#### WHAT IS AT THE CORE OF MORELO?

**MORELO** stands for first-class motorhomes that are among the best in the world. A MORELO is always a statement of wanderlust, excellent comfort and superior quality. A MORELO means the feeling of being at home anywhere in the world. Or, in short, a MORELO is something truly special – Made in Germany.

This philosophy has helped us transform into one of the most successful luxury motorhome manufacturers in Europe in just a few short years. The friendly atmosphere, lively individuality, our determination, and our many years of experience all contribute to strengthening the brand. And while we may not have entirely expected this level of success in such a short time when we set out for the Caravan Salon trade fair in 2010 with just a few prototypes, we always had faith in our approach.

The combination of these factors is what makes MORELO truly special. But this alone is not what makes us unique. We did not set out to build motorhomes to get rich - we started doing this because there is nothing else we would rather do. After all, there is nothing better than to pack your belongings and get away for a few days - or, even better, a few weeks - and to travel through Scandinavia, discover southern Italy or take a trip to Portugal.

This love for motorhomes is within us and in every MORELO.

This overall picture describes what makes us unique.

#### THREE MEN, ONE PASSION.

We have a very simple philosophy at MORELO: Everything we do, we do out of conviction. This is why Jochen Reimann founded the company, why Reinhard Löhner works on refining the vehicles day in and day out, and also why Robert Crispens supports us in turning our ideas into reality. He has been with us since the company took its very first steps and provides a glimpse into an even more successful future.

#### OUR FIRST-CLASS **EMPLOYEES**

#### The people behind the brand.

An excellent motorhome cannot be created without an excellent team. From decal specialists to joiners, from construction engineers to mechatronics and design engineers, we are incredibly proud of our team of professionals and of each individual MORELO that rolls out of our plant.

# NOTHING UNDERNEATH?

#### **OUR ADVICE? DON'T SKIMP ON THE CHASSIS!**

Our many years of experience shows that when it comes to buying a new motorhome, many people tend to be frugal when it comes to technical equipment.

The disadvantages of this tactic will become apparent during your first holiday: While other motorhome owners float down the road on VB ActiveAir air suspension, wide front axles and air-suspended seats, frugal owners will be at their wits' end with even just small bumps affecting the ride quality and the quality of life.

Many retrofits can be realized only with additional effort and higher costs compared to the original equipment. Enjoy the full comfort of your MORELO right from the start, with chassis technology from Fahrzeugbau Meier!

## CARRY ON AT THE PUSH OF A BUTTON

#### **LOCKING DIFFERENTIAL** FOR MOTORHOMES.

Who has the biggest motorhome on the slippery camping site? And who will pull it out of trouble? The IVECO Daily does not need outside help as it is equipped with a locking differential. This piece of technology, which is usually an indispensable piece of equipment in proper off-road vehicles, is far more effective than wheel-selective braking systems often found in cars or SUVs. Each drive axle has a differential gear which allows both wheels to turn at different speeds in corners. However, if one wheel starts spinning in slippery conditions, the other wheel does not transfer any power. Activating the locking differential from the dashboard locks both wheels on the drive axle. Now, the spinning wheel no longer holds you up, but the wheel that has traction will keep you moving.

# » A MOTORHOME WORTHY OF THE NAMESCREEN.«

**Our dream is coming true for the third time.** When we saw the prototype at the Caravan Salon in Düsseldorf in 2010, we were so blown away by it that we immediately ordered one of the first MORELOs. We are now on our third First Class Motorhome - a MORELO PALACE 85L - and we still find it hard to believe that we own such an elegant and technologically advanced vehicle! We really do travel on a "PALACE on wheels".

And we were not only able to experience many wonderful things in our motorhome. From the very start, the familiar and inviting atmosphere at MORELO made Schlüsselfeld a second home for us. Every one of our wishes was met when it came to equipping our motorhome and the service is second to none! We will soon be heading off on our 24th trip to France, a country which is almost perfect for motorhome drivers. Even though time may be tight, we will make sure to see all our friends as we thoroughly enjoy seeing them all again. We are extremely grateful that our MORELO makes it possible for us to do all this.

Whether at the MORELO OPEN, during the comprehensive service in Schlüsselfeld, or on the road in our First Class Motorhome - MORELO always gives us the first class "Welcome Home" feeling.
