JAAR

In 1962 Sud Aviation, builder of the Caravelle planes based at Trignac in the Loire-Atlantique region, decided to diversify by building motorhomes.

A design office with designers who were extensively experienced in aeronautics launched the first Caravelair motorhomes, which combined creativity and originality. Sixty years later, after an uninterrupted series of innovations, Caravelair has become the French market leader in motorhomes and continues developing its expertise by marketing high-quality motorhomes, designed and built for you.

*subject to an annual inspection

➔ MADE IN FRANCE
with french expertise

Our caravans are designed and manufactured in **TOURNON-SUR-RHÔNE** in Ardèche (France).

One of the largest manufacturing sites in Europe with a surface area equivalent to **33 FOOTBALL PITCHES** and producing more than **5000 CARAVANS** per year.

Our chassis, our cushions, our mattresses, and our furniture all come from specialist factories in France.

➔ EXCLUSIVE IRP TECHNOLOGY

Our caravans are produced by means of an exclusive process, referred to as IRP.

IRP offers enhanced **Insulation**, improved **Resistance** and increased **Protection**.

- ▶ XPS insulation, an extra-firm and stable hydrophobic foam offering excellent sound and heat insulation.
- ▶ An effective combination of wood/composite which strengthens the framework of internal walls and floors, combining the durability of composite with the outstanding resistance of solid wood.
- ▶ Protection provided by a polyester* skin, offering enhanced resistance to scratches, small impacts, loose chippings, hydrocarbons, UV light and general bad weather: salt, hail, etc.

* Except ALBA side walls: in hammered sheet aluminium on the standard version

➔ WHY

choose Caravelair ?

We offer different mattress thicknesses, depending on our ranges:
12 cm, 15 cm, 17cm.

Our comfort mattresses.

- ▶ 100% Polyester.
- ▶ Thermo-regulated mattress.
- ▶ 300 g ticking.
- ▶ Anti-dust mite.
- ▶ Made in France.
- ▶ Consists of foam that is not harmful to either our health or the environment.
- ▶ Oeko-tex class 1: for a mattress cover with no harmful substances.

XL FREEZE Refrigerator

At first glance, its difficult to imagine that this large drawer is, in face, a refrigerator with a surprising amount of space:

- ▶ Very cold fridge offering XL efficiency!
- ▶ Enjoy the same performance levels as those offered by domestic models.
- ▶ Guaranteed autonomy, even during stops.
- ▶ A unique, practical design.
- ▶ Perfectly integrated, the XL FREEZE provides 150 L of storage space including 15 L of freezer space and a modular design.

*An efficient heating system**

- ▶ **GAS HEATING:** continuous and precise temperature control.
- ▶ **FORCED AIR:** even heat distribution.
- ▶ **ULTRAHEAT:** dual hot air distribution and quick temperature increase.
- ▶ **UNDERFLOOR HEATING:** attractive, ergonomic and silent.
- ▶ **TRUMA I-NET & I-BOX** for smartphone .

** In option according to the model*
