Fly-screen door
Silent and extendable,
can be retracted without
losing space in the door
frame (certain models
only)

Bench end drop hatch
Easily accessible for convenient
loading and unloading (certain
models only)

Bench partition
Improved loading, good
accommodation of large
quantities of luggage

Spring-core seat upholstery
(Diamant) In comfort quality

Smoke detector
High-quality design, optimal
position, warns of fire risk at
an early stage

Power outlets
Optimal position, easy to reach

LED lighting
Energy-saving LED technology,
arranged for harmonious and
atmospheric lighting effects

PVC flooring
Practical, durable,
easy to care for

**Hinged window that can be
operated with one hand**
and combined fly-screen/blackout
roller blind, double glazed and
tinted

WHERE WE ARE IS ON HOLIDAY – THE DIFFERENCE IS IN THE DETAILS

Upholstery

Quality moulded upholstery with high density
and elasticity that offers long-lasting comfort
when sitting and relaxing and has ergonomic
and comfortable back padding

Winter backrests

Increased ventilation during winter thanks to
additional wall aerators – prevents freezing on
cold windows

Fabrics

Quality fabrics made from flat
weaves with a very high resistance
to abrasion, low-maintenance and
robust

Air recirculation system with vent

Optimal air circulation, prevents
moisture build-up

Single-leg table, fully adjustable in height

Easier access to the round seating area, optimal
use of the longitudinal bench, more legroom in
the seating area, modern appearance
(certain models only)

Corner ventilation

For the perfect indoor climate, counteracts the
build-up of condensation without inconvenient
drafts

GOOD SLEEP – GOOD MOOD

Interior-sprung mattress
(Standard in Saphir, Bianco Selection, Bianco Activ)
Strengthened 5-turn Bonell spring core with elastic moulded upholstery and comfortable climate-control fleece on both sides

Hinged window
Well cooled in the summer, comfortably warm in the winter thanks to the double-glazed, tinted and insulated windows

LED reading spot lights
Partially tiltable with individual switches, they ensure precisely targeted, flicker-free bright light

7-zone comfort foam mattress
(Standard in Tendenza and Opal, available as an optional extra with all other series)
With excellent reclining properties thanks to the comfortable shoulder zone, lumbar support and a special ventilation system

Storage compartments with rear ventilation
and robust, high-quality hinges with a strong tilting and locking force; generous storage space, which also ensures good climate control

Winter back rests with spacing
Protects effectively against cold conditions in winter, prevents condensation, excellent circulation of warm air for an optimal indoor climate

QUALITY IN SERIES

Lift-O-Mat
gas-pressure dampers and a stable mechanism with hold function facilitate handling when opening and closing the bed frame

High-quality switch
Easily accessible, conveniently located

Additional ventilation
For perfect air circulation, prevents build-up of condensation and avoids cold spots

7-zone climate control foam mattress
(Standard in Diamant, available as an optional extra with all other series)
Excellent elasticity and breathability, special lumbar support and body temperature management with quilted elastic fibres with climate control

Slatted bed base
With a permanently elastic joint bridge and hardness adjustment, narrow slat spacing

Extendable slatted bed base and bed filler
Both together, as optional extras, maximise the bed surface, and the conversion is quick thanks to easy handling

Combi 4 E * or 6 E heating * (only available as an optional extra with Combi 4 and Combi 6 as standard)

Warm air flowing into the vehicle via four air outlets is evenly distributed, providing a perfect feel-good climate. Design includes integrated electric heating elements, also works with empty water tank, FrostControl drain valve installed, simple to operate via the CP plus iNet ready digital control panel or via the Truma App thanks to installation of the iNet Box as standard. Boost function for a quick supply of hot water and room heating

Air conditioning *

Impresses thanks to the individual setting options: outlets can be adjusted in a multitude of ways so that the cool air flows where it is needed. Excellent cooling performance and fast dehumidification, simple to control via "CP Plus" or via the Truma app (if iNet Box is standard)

REMOTE CONTROL FROM HOME OR ON THE GO

Convenient and easy.

iNET BOX in all models with C-heating. Additional control options via the Truma app (depending on the country).

- Control iNet-enabled devices via app from up to four smartphones
- Control iNet-enabled devices via Bluetooth at close range or via SMS on the go
- Automatic climate control in conjunction with the CP plus iNet ready digital control panel
- Query the status of the on-board equipment
- Query the operating status of the devices
- Display when a set temperature or on-board voltage is not met

"Sky" TV bracket * (as standard in the Diamant)

TV wall bracket, lockable, with twist and swivel options for comfortably watching TV in various positions

Fullstop mechanical anti-theft protection *

Simple and effective, this anti-theft device protects the caravan from unauthorised access. This engine immobiliser is quick and easy to install

Bicycle rack for the drawbar (Thule) *

Foldable, suitable for 2 bicycles or 2 e-bikes, loads up to 60 kg, equipped with a comfort locking device and a bicycle mount lock to protect against theft

External gas outlet *

Enables external gas-based appliances to be connected, such as gas grills or gas lamps

Universal awning outlet *

For supply of electricity outside the caravan (230 V/12 V and TV connection)

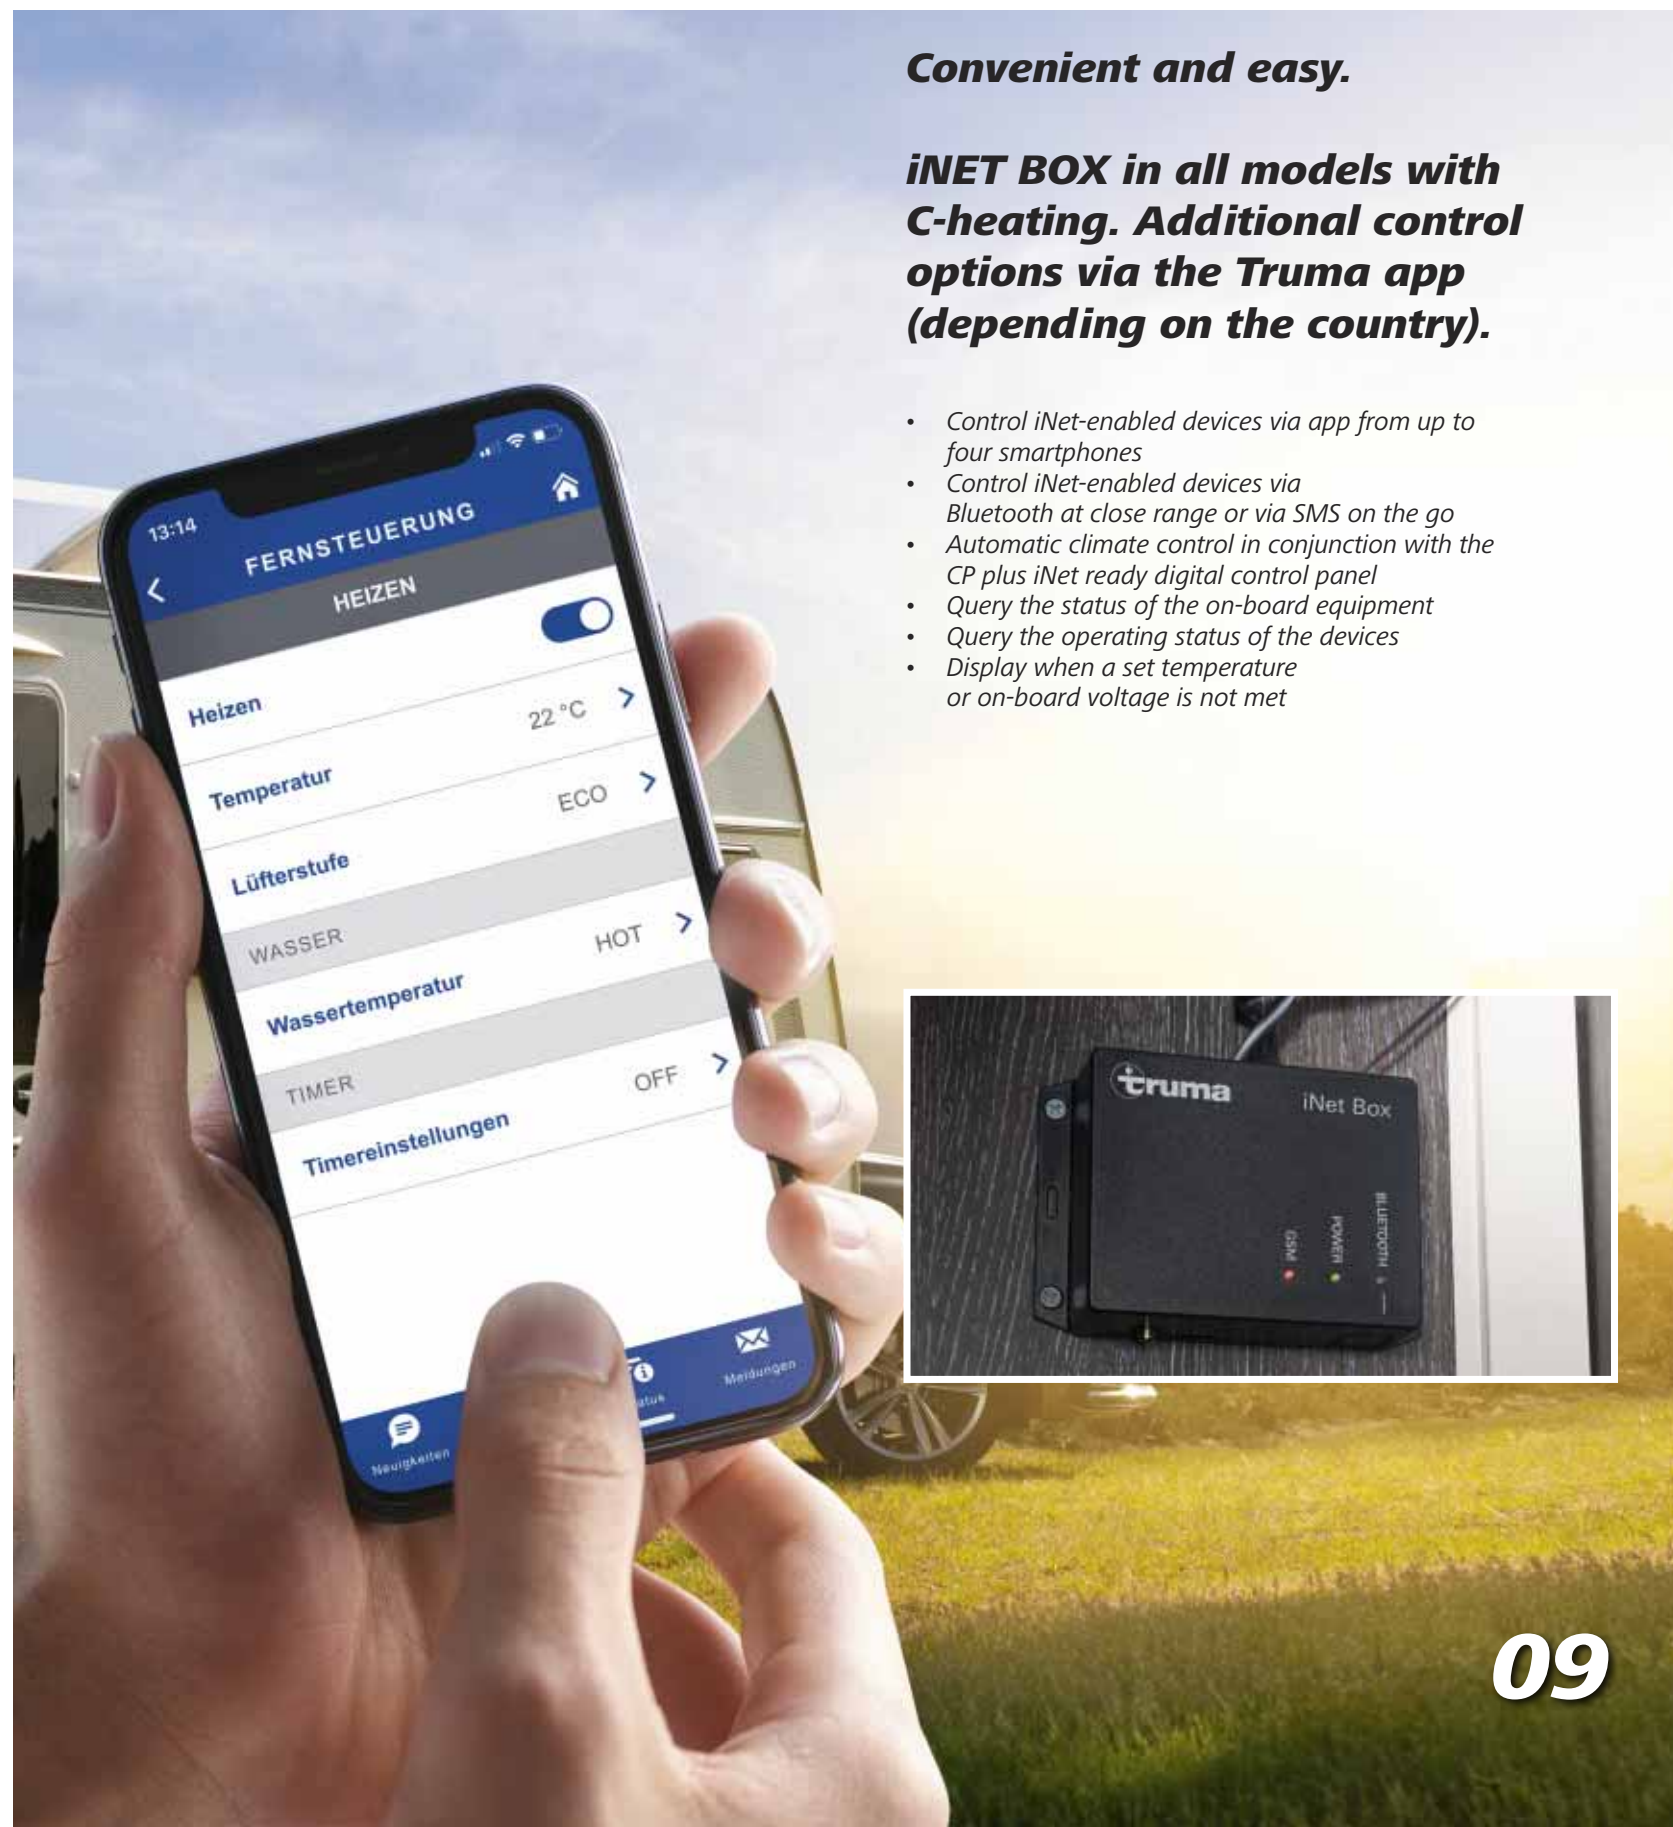

City water connection *

With pressure reduction and a 45-litre fresh water tank, for direct connection to the public water network

Self-sufficient packages * (not illustrated)

This way, the caravan can also function away from the campsite for short periods. Different variants with 55 Ah or 75 Ah batteries and a charging booster for charging while driving are available

INDIVIDUAL ACCESSORIES

* Additional equipment subject to a charge

- LED lighting
- Ceiling lamp (LED/12 V) with 2 circuits
- Decorative package (2 cushions/1 table runner)
- Single-leg lifting table in the round seating area *
- Folding sliding door *
- Fly-screen door in the entrance area
- Clothes rack in the sleeping area *
- Wooden sliding door *
- Indirect lighting (LED)
- Indirect lighting above the roof storage compartments
- Slatted bed base with fully flexible and permanently elastic joint bridges and hardness adjustment (single and French beds)
- Reading spotlights (12 V) in the round seating area
- Reading spotlights (12 V) in the sleeping area
- Lift-O-Mat (single and French beds) *
- Mattresses: comfort foam (7 zones) (single and French beds)
- MIDI roof hood (Dometic) with crank, forced ventilation, integrated blackout pleated blind and roller fly-screen
- PVC flooring, hard-wearing, easy to care for
- Ergonomically shaped back padding
- Quality comfort foam seating upholstery
- Ventilated storage compartments with indirect ceiling lighting (LED)
- Storage compartments with soft-close hinges
- Carpet in the door sill with the Fendt Caravan logo
- Carpeted floor, bound at the edge and loosely laid
- Winter backrests

Kitchen/bathroom

- Waste collector integrated into the entrance door
- Workplace lighting (LED)
- Bathroom lighting (LED/12 V)
- Cutlery inserts with a soft-touch surface
- Towel/clothes hooks and toilet paper holder
- Stove/sink combination with safety pilot, automatic ignition, split cast iron grate and split glass cover (3-burner)
- Comfort pleated roller blind on the kitchen window
- Kitchens with large drawers *
- Slim tower refrigerator (133 L), can be opened from both sides, with removable freezer compartment and interior lighting
- Brass kitchen mixer tap
- Central washrooms * with large wall units, generous shelves under the sink and an illuminated mirror
- Mirror cabinet in the open bathroom *
- Flush toilet with diode level indicator and holding tank (rollable)
- Kitchen and bathroom storage compartments with soft-close hinges
- Mineral composite washbasin with shelves, bathroom cabinet and illuminated mirror
- Washroom window, hinged, made of frosted glass with blackout and fly-screen roller blind

Water

- Mobile waste water tank (24 L)
- Fresh water (fixed tank 10^{d)}/25^{e)} litres) with external filling *
- Fresh water (fixed tank 10^{d)}/45^{e)} litres) with external filling *
- Fresh water level indicator

Multimedia

- TV cabling (230 V socket)

Technology/heating/air conditioning

- Truma Combi 4 (515) or Combi 6 (from 550) gas heater, each with CP plus iNET ready digital control panel with air circulation and integrated hot water boiler (10 L capacity)
- iNet Box for the additional option of heating control via the Truma app (depending on the country)
- Smoke detector
- Switch on the entrance door for the ceiling light and awning light
- Switching power supply 350 W
- Fuse box (230 V) with residual current device (safety switch)
- Spot light(s) (LED/12 V)
- 230 V sockets

Living room/sleeping area

- Furniture in "Rovero Castello" decor
- Upholstery "Medina" or "Salina" (pages 68-71), as well as leather upholstery "Zingst" (optional extra, page 70)
- Lighting in the wardrobe with motion sensor
- LED lighting
- Decorative package (2 cushions/1 table runner)
- Single-leg lifting table in the round seating area
- Folding sliding door *
- Fly-screen door in the entrance area
- Clothes rack in the sleeping area
- Wooden sliding door *
- Indirect lighting (LED)
- Headrests in the seating area, height adjustable
- Slatted bed base with fully flexible and permanently elastic joint bridges and hardness adjustment (single and French beds)
- Reading spotlights (12 V) in the round seating area
- Reading spotlights (12 V) in the sleeping area
- Lift-O-Mat (single and French beds)
- Mattresses: climate comfort foam (7 zones) (single/French beds)
- MIDI roof hood (Dometic) with crank, forced ventilation, integrated blackout pleated blind and roller fly-screen integrated into the Skylight panoramic roof hood
- Skylight panoramic roof hood with lighting (LED)
- PVC flooring, hard-wearing, easy to care for
- Ergonomically shaped back padding
- High density seat upholstery
- Seat upholstery with spring core in comfort quality
- Soft roller blinds with pleated fabric (blackout roller blind from below)
- Ventilated storage compartments with indirect ceiling lighting (LED)
- Storage compartments with soft-close hinges
- Carpet in the door sill with the Fendt Caravan logo
- Carpeted floor, bound at the edge and loosely laid
- Winter backrests

Kitchen/bathroom

- Waste collector integrated into the entrance door
- Workplace lighting (LED)
- Oven with grill (gas)
- Bathroom lighting (LED/12 V)
- Cutlery inserts with a soft-touch surface
- Shower cubicle **
- Towel/clothes hooks and toilet paper holder
- Stove with safety pilot and automatic ignition (3-burner)
- Comfort pleated roller blind on the kitchen window
- Kitchens with large drawers *
- Backlit kitchen rear wall panelling in a glass look
- Slim tower refrigerator (133 L), can be opened from both sides, with removable freezer compartment and interior lighting
- Central washrooms * with large wall units, generous shelves under the sink and an illuminated mirror
- Mirror cabinet in the open bathroom *
- Stainless steel sink with glass cover
- Flush toilet with diode level indicator and holding tank (rollable)
- Kitchen and bathroom storage compartments with soft-close hinges
- Mineral composite washbasin with shelves, bathroom cabinet and illuminated mirror
- Washroom window, hinged, made of frosted glass with blackout and fly-screen roller blind

Water

- Mobile waste water tank (24 L)
- Fresh water (fixed tank 10^d/45^e litres) with external filling
- Fresh water level indicator

Multimedia

- TV bracket with articulated arm
- TV cabling (230 V socket)

Technology/heating/air conditioning

- Electric floor temperature control (in the temperature-controlled area)
- Truma Combi 6 gas heater with CP plus iNET ready digital control panel with circulating air distribution and integrated hot water boiler (10 l capacity)
- iNet Box for the additional option of heating control via the Truma app (depending on the country)
- Smoke detector
- Switch on the entrance door for the ceiling light and awning light
- Switching power supply 350 W
- Fuse box (230 V) with residual current device (safety switch)
- Spot light(s) (LED/12 V)
- 230 V sockets
- TFT touch panel (central) in a glass look (CI-BUS on-board management)

* Certain models only ** for 650 SGD

QUALITY WITH CONVICTION

FENDT
CARAVAN

Quality: our trademark

Quality begins right from the start with the design, and the selection of materials and suppliers. In our company, after deciding on and testing the selected materials, we start with various internal and external test series of the respective products.

Each employee contributes to ensuring our quality standards through his or her own personal performance. That is why our employees continuously receive training and further training. It is only by working in this way that we have been able to convince customers of our products for what is now 50 years.

DIAMANT

SAPHIR / BIANCO / TENDENZA / OPAL

SAPHIR / BIANCO / TENDENZA / OPAL

SAPHIR / BIANCO / TENDENZA / OPAL

Front part partly with LFI technology

Optimal insulation, improved hail protection, 100% UV-resistant, consumer-friendly repair solution for scratches, low maintenance

Rounded edges and awnings

Optimised awning feeder, all side panels in silver with chrome piping (Saphir, Bianco Selection, Bianco Activ, Tendenza, Opal) or in white with chrome piping (Diamant). The decorative trim end pieces are fastened without visible screws

Double-glazed, tinted hinged windows that can be operated with one hand and combined fly-screen/blackout roller blind

Separate hanging rails and separate awning rails above the windows, awning feeder independent of the window, zinc die-cast rail ends

Insulated service flap/ external storage flap with rain protection lip and locking system

Conveniently located and easily accessible

5-hole aluminium rims

Silver (Opal, Tendenza) or black polished (Diamant)

High-quality brand tyres

Supports optimal handling even at full load

AAA brakes

Self-adjusting, with excellent braking effect

Optimised drawbar

Base of the bottle crate is completely self-supporting, which increases the free drawbar length; dynamic load of drawbar vibrations is not introduced into the body via the bottle crate

AKS anti-roll clutch

Compensates for emerging rolling and pitching motions right from the outset

Hard rubber high-quality support wheel

Easy control of the drawbar load due to the load indicator

**White AKS cover hood
White drawbar cover**

MiDi-HEKI operated by crank

Easy handling

Skylight panoramic roof hood with LED lighting (Diamant)

MIDI-HEKI integrated in the panoramic roof hood

Entrance door with integrated and insulated access (lowered)

With tinted and arched windows, as well as fitted, pleated blackout blind, security lock, waste collector and storage (certain models only), single-key system for all locks (robust metal lock), ample space for entry and exit (both in width and in height), reinforced door frame in the entrance area, entrance carpet

UNMISTAKABLE ON THE ROAD AND AT THE CAMPSITE: FENDT-CARAVAN

Stable-form corner steadies

The practical solution for a secure positioning without vibrations

Extended crank supports at the rear

Easier to use

Waste water tank in the gas box

Easy to use and neatly arranged

Aluminium chequer plate floor in the gas box

Sturdy and durable

Bottle case lid with parallelogram guide and gas pressure spring

Opens up fully, robust gas cylinder box lock

Legend:

- a) 100% filled aluminium gas cylinder (11 kg), fresh water tank with 10-litre "when-driving" fill level, 100% filled toilet flushing tank, 100% filled water heater
- b) The dead weight reflects the vehicle weight with standard fittings without water, gas or other accessories
- c) The mass in running order was determined according to Regulation (EU) No 1230/2012, taking into account the "when-driving" fill level of the fresh water tank, the 100% filled toilet flushing tank, the 100% filled water heater, and a 100% filled aluminium gas cylinder (11 kg)
- d) Fresh water tank capacity within the meaning of Annex V, part A, no.2.6 fn (h) of Regulation (EU) 1230/2012, taking into account the movement limitation (discharge nozzle on the fresh water tank) 10 l ("when driving" fill level)
- e) Capacity of the fresh water tank max. 25 litres or 45 litres, taking into account the discharge nozzle on the fresh water tank
- g) Additional weight variants are possible by installing a new chassis – your Fendt Caravan dealer will be happy to provide you with information
- h) Increased load capacity
- i) Alternative tyre sizes are permitted to the manufacturer
- n) For weight variant 1800 kg: awning circumference 1011 cm
- o) For weight variant 1800 kg: awning circumference 1021cm
- p) For weight variant 1900/2000 kg: awning circumference 987 cm
- r) For weight variant 1900/2000 kg: awning circumference 1013 cm
- s) For weight variant 1900/2000 kg: awning circumference 1032 cm
- t) For weight variant 2400/2500 kg: awning circumference 1183 cm
- u) For weight variant 2200/2400/2500 kg: awning circumference 1122 cm
- v) The specification of this circumference may not be sufficient to select the appropriate awning, under certain circumstances. The specified circumference only applies to awnings that are fully drawn into the existing keder strip of the caravan. The circumference may vary due to special equipment, tire size and load. We recommend measuring the caravan individually in each case in order to determine an exact circumference appropriate for the type of awning

Important information:

The catalogue and the price list reflect the status of the series at the time of printing. Despite the contents having been checked, printing errors cannot be ruled out. Over the course of the model year, we reserve the right to make changes to the equipment and fittings and product improvements. Differences in colour due to printing and photography cannot be completely ruled out. The models depicted in the catalogue and in the price list sometimes contain special fittings or decorations that are not part of the standard scope of delivery. Where weights are specified, deviations of up to +/- 5 percent are possible due to the processing of natural materials. When accessories are installed, the mass in running order is increased. Attachments to the vehicle may influence the drawbar load. All dimensions are non-binding and may be subject to minor changes. Information on masses and weights is given in accordance with Regulation (EU) 1230/2012, unless otherwise specified in the catalogue, including technical specifications and price list. Caution: Axle and drawbar loads must be observed, and the technically permissible overall mass be adhered to. Adherence to the permissible masses and loads is to be ensured by distributing the load throughout the vehicle. Fittings and equipment may influence the payload or vehicle load capacity by increasing/decreasing the dead weight. It should be noted that this can reduce the vehicle load capacity, depending on the fittings and equipment. The vehicle load capacity corresponds to the difference between the technically permissible total mass and the mass in running order. This value must take into account the masses for special accessories and personal equipment. The technically permissible total mass in the loaded state must never be exceeded. Please ask your Fendt Caravan dealer if necessary. We reserve the right to make changes to prices, constructional details and fittings.
