# STORIA / HISTORY

## Un pò su di noi... A little bit about us...

La ditta Benimar ha oltre 40 anni d'esperienza nella fabbricazione di veicoli per lo svago. Il nostro know-how e il nostro impegno ci hanno reso una marca di riferimento nel settore dell'autocaravan, posizionandoci come leader indiscusso del mercato spagnolo da oltre un decennio.

Nel 2002 Benimar è entrata a far parte della famiglia Trigano, uno dei gruppi di imprese più consolidate del settore. Questo ha cambiato a 180° la fabbricazione dei nostri autocaravan, passando da una produzione artigianale alla linea di produzione di serie che conosciamo oggi e che garantisce i massimi standard di qualità.

Il nostro impianto industriale si trova nella città mediterranea di Peñíscola, un territorio privilegiato dove disponiamo di oltre 130.000 m2 di strutture, qui disegniamo e fabbrichiamo tutti i nostri autocaravan.

La doppia certificazione ISO 9001 / 14001 dimostra la nostra ricerca dell'eccellenza sia nella qualità che nell'affidabilità dei nostri veicoli, e nell'impegno per una produzione sempre più attenta alla società e all'ambiente.

Con questa collezione cerchiamo di superarci e mantenere la promessa che segna la nostra ragione di essere, continuare a sorprendere i nostri clienti, garantendo sempre il massimo comfort e sicurezza a bordo di un Benimar, affinché tu sia orgoglioso di guidarlo come noi di produrlo.

The Benimar brand has more than 40 years' experience in the manufacture of leisure vehicles. Our know-how and effort have made us a benchmark brand in the motorhome sector, positioning us as the undisputed leader in the Spanish market for more than a decade.

In 2002, Benimar became part of the Trigano family, one of the most consolidated business groups in the sector. That meant a 180° change in the manufacturing of our motorhomes, going from being mainly handmade to the mass production line we know today, which guarantees the highest quality standards.

Our industrial plant is located in the Mediterranean city of Peñíscola, a privileged site where we have more than 130,000m2 of facilities where we design and manufacture all our motorhomes.

The dual ISO 9001 / 14001 certification demonstrates our pursuit of excellence both in the quality and reliability of our vehicles as well as our efforts to achieve a production that is increasingly committed to society and the environment.

With this collection we seek to surpass ourselves and keep the promise that marks our raison d'être, to continue surprising our customers, always guaranteeing maximum comfort and safety on board your Benimar, so that you will be as proud to drive it as we are to manufacture it.

Presenti in 28 paesi per essere sempre vicino a voi se necessita.  
Present in 28 countries to always be close if you need us.

Il compromesso con  
il pianeta fa parte  
del nostro DNA.  
Commitment to the  
planet is part  
of our DNA.

**Sostenibilità e innovazione**  
*Sustainability and innovation*

La certificazione ISO 14001 garantisce la sostenibilità del nostro processo produttivo e la costante revisione dei nostri processi per cercare di ridurre al massimo il nostro impatto sulle emissioni. / The ISO 14001 certification guarantees the sustainability of our production process and the constant review of our procedures seeks to reduce our carbon footprint as much as possible.

**Sfruttamento delle risorse**  
*Use of resources*

Minimizziamo l'impatto dei nostri veicoli nell'ambiente controllando i consumi, le emissioni di CO2 durante la fabbricazione e la selezione dei materiali. / We minimise the impact of our vehicles on the environment by controlling consumption, CO2 emissions during manufacture and the choice of materials.

**Scomettiamo sull'energia rinnovabile**  
*Commitment to renewable energy*

La maggior parte dell'energia utilizzata per la fabbricazione del tuo autocaravan Benimar proviene da fonti di energia sostenibile. / Most of the energy used to manufacture your Benimar motorhome comes from sustainable energy sources.

**Una seconda opportunità**  
*A second chance*

Il 50% degli scarti generati durante la produzione vengono riciclati e ci stiamo impegnando affinché tale percentuale sia sempre maggiore. / 50% of the waste generated in production is recycled and we are committed to increasing this percentage.

**L'importanza dell'acqua**  
*The importance of water*

Il nostro impianto industriale dispone di un proprio impianto di depurazione che consente di riutilizzare l'acqua necessaria nei controlli di prodotto senza sprecarla. / Our industrial plant has its own water treatment plant that allows us to reuse the water required for product control without wasting it.

**Fornitori locali**  
*Local suppliers*

Ogni anno ampliamo il numero di fornitori nazionali e locali per ridurre gli spostamenti e diminuire le emissioni. / Each year we expand the number of national and local suppliers to reduce travel and minimise emissions.

**Azione locale, risultato globale**  
*Local action, global result*

Ci sforziamo di ottimizzare al massimo i nostri veicoli affinché il consumo di carburante sia efficiente e responsabile. / We strive to optimise our vehicles as much as possible for efficient and responsible fuel consumption.

# Perché Benimar? Why Benimar?

Nostra esperienza, la nostra più grande forza.  
Our experience, our greatest strength.

Fabbricare veicoli di alte prestazioni, un design curato e anticipare le necessità dei nostri clienti, è stata sempre la nostra ispirazione per superarci con ogni gamma / Manufacturing vehicles with excellent features, careful design and anticipating our customers' needs, has always been our inspiration to excel with each range:

- Grande varietà di disposizioni. / Wide variety of layouts.
- Meccaniche Ford e Fiat. / Ford and Fiat chassis.
- Design moderno interno ed esterno. / Modern interior and exterior design.
- Selezione dei tessuti per gli ambienti interni con certificazione OEKO-TEX®. / Selection of interior environments with OEKO-TEX® certification.
- Disegn finalizzato ad ottenere la maggior luce naturale all'interno. / Design focused on getting the most natural light in the interior.
- Equipaggiamento premium di serie. / Premium equipment as standard.
- Finiture interne effetto legno resistente ai graffi. / Scratch-resistant wood-effect interior finishes.
- Efficienza energetica (Tecnología ISB - Isolation System Benimar) / Energy efficiency (ISB Technology - Isolation System Benimar)
- Completi pack optional. / Complete optional packs.
- Progettazione intelligente degli spazi per lo stivaggio. / Smart storage system.
- Ambienti unici ed esclusivi in ogni gamma. / Unique, exclusive environments in each range.

Tutti i dati tecnici includono (testo e fotografie) sono validi al momento della stampa (agosto 2022), ma possono essere soggetti a cambiamenti per sviluppo tecnico. BENIMAR si riserva il diritto di modificare in qualsiasi momento e senza preavviso, qualsiasi caratteristica dei veicoli che appaiono in questo catalogo. Gli autocaravan fotografati possono avere un equipaggiamento optional (con supplemento d'importo). Gli elementi di decorazione non sono inclusi per BENIMAR. Siccome gli autocaravan sono commercializzati in distinti paesi, le caratteristiche tecniche e l'equipaggiamento possono variare da un paese all'altro, come alcuni modelli possono non essere disponibili in alcuni paesi, per questo la invitiamo a consultare il vostro concessionario per informazioni più precise. Documento non contrattuale.

Gli equipaggiamenti opzionali "Gancio di traino e portamoto" possono modificare in alcuni casi il numero dei posti omologati nella carta di circolazione. Occorre informarsi dal proprio concessionario.

Peso in ordine di marcia: il peso in ordine di marcia include il peso del guidatore (75kg.), una riserva di acqua, il 90% del combustibile e il 100% di gas. Il peso in ordine di marcia indicato è costituito dal solo equipaggiamento di serie all'uscita dalla fabbrica. La regolamentazione Europea tollera una differenza del +/- 5% del peso in ordine di marcia. Il costruttore si riserva il diritto di modificare.

Gli accessori installati opzionali non sono inclusi nella determinazione del peso, per questo diminuiscono la carica utile. Alcuni accessori pesanti, come ad esempio tendalino di grandi dimensioni, o gruppi elettrogeni, possono trovarsi nel mercato. Il peso di questi accessori ridurrà il carico utile ed eventualmente potrà obbligare alla riduzione del numero dei posti omologati. Sempre s' dovrà verificare che il peso massimo per asse, così come il peso massimo autorizzato, non venga superato quando il veicolo sarà completamente carico.

La capacità del serbatoio di acqua pulita dei nostri mansardati/profilati/motorhome è stata omologata per una capacità di 1L, per essere in conformità con la regolamentazione del peso utile tecnicamente ammissibile dell'autocavan in circolazione. Corrisponde all'adattamento del carico e del numero di persone durante la circolazione in funzione del carico utile del veicolo. Per questo, durante la circolazione si può regolare la capacità del serbatoio di acqua pulita, per evitare una riduzione del numero di posti omologati.

Alcuni dei modelli illustrati in questo catalogo possono presentare un equipaggiamento opzionale. Le caratteristiche tecniche dei modelli fotografati possono variare da un paese all'altro. Nonostante l'attenzione con la quale si è realizzato questo catalogo, non può costituire un documento contrattuale. Benimar si riserva il diritto di realizzare modifiche sui modelli senza preavviso. Benimar non è responsabile delle modifiche che possono realizzare i fornitori, né per gli errori tipografici che possono essere presenti nella realizzazione di qualsiasi documento. Tutta la riproduzione del testo o del documento, anche se parziale è completamente proibita.

Il Suo concessionario è a Sua disposizione per qualsiasi informazione complementare.

Non dipendere nell'ambiente

Nel caso di una versione multilingue, la lingua inglese è quella che fa fede.

Le fotografie dei nostri veicoli in spazi naturali ed urbani sono state effettuate con le rispettive autorizzazioni, in ambienti controllati e per professionisti. BENIMAR si raccomanda sempre di rispettare le norme di Circolazione e Sicurezza Stradale e di rispettare l'Ecossistema.

All technical data included (text and photographs) are valid at the time of printing this catalogue (August 2022) but might be subject to change due to technical advances. BENIMAR reserves the right to modify at any time and without prior notice, any characteristics of the vehicles that appear in this catalogue. The motorhomes photographed may have optional equipment at extra cost. The decoration elements are not included by BENIMAR. Due to the motorhomes being marketed in different countries, their technical characteristics and equipment may differ from one country to another, some models may not be available in certain countries, so we invite you to consult your nearest dealer for more accurate information. Non- contractual document.

The optional equipment like "Tow bar", "Motorbike carrier".... can modify, in some cases, the number of passenger seats in the vehicle registration certificate. Find out more information at your distributor.

Mass in running order: the mass in running order includes the weight of the driver (75 kg.) as well as a maximum reserve of circulating water, 90% fuel and 100% gas. The indicated masses in running order have been considered only with the standard equipment when they leave the factory. The European regulation tolerates a difference of +/- 5% in the mass in running order. The manufacturer reserves the right to modify.

Some heavy accessories, such as large awnings or generators can be offered on the market. The mass of these accessories will be deducted from the payload and may, eventually, lead to reduce the actual number of passengers in the vehicle while driving. It must therefore be ensured that the maximum axle loads mass and the technically permissible load mass are not exceeded when the vehicle is fully loaded.

The capacity of the clean water tank of our low profile/Luton/A-class models is approved for a capacity of 1L in compliance with the regulations on the technically permissible maximum laden mass of the motorhome in circulation. It is up to the user to adapt the load and the number of people on board according to the vehicle's payload. To do this, the user can regulate the capacity of the clean water tank when driving to avoid a reduction in the number of passenger seats.

Benimar reserves the right to make modifications to its models without prior notice. Benimar is not responsible for the modifications that may be made by its suppliers, nor for the typographical errors that might occur in the edition of any document. Any reproduction of text or document, even partial, is completely forbidden.

Do not throw on public roads.

Our distributor network is at your service to solve any query or additional information.

In the case of a multilingual version, the English language is the one that attests.

The photographs of our vehicles in natural and urban spaces have been taken with professionals in controlled environments and with authorization. From BENIMAR, we urge you to always comply with the Traffic and Road Safety rules and to respect the Environment.

Please, find all the update information on our website [www.benimar.es](http://www.benimar.es)

Wszystkie zawarte dane techniczne (tekst i zdjęcia) są aktualne w momencie druku niniejszego katalogu (sierpień 2022), ale mogą ulec zmianie z względu na postęp techniczny. BENIMAR zastrzega sobie prawo do modyfikowania w dowolnym czasie i bez wcześniejszego powiadomienia wszelkich cech pojazdów, które pojawiają się w tym katalogu. Fotografiowane kampery mogą mieć opcjonalne wyposażenie za dodatkow opłat. Elementy dekoracyjne nie są objęte przez BENIMAR. Ze względu na to, że kampery są sprzedawane w różnych krajach, ich parametry techniczne i wyposażenie mogą się różnić w zależności od kraju, niektóre modele mogą być niedostępne w niektórych krajach, dlatego zachęcamy do konsultowania się z najbliższym dealerm w celu uzyskania dokładniejszych informacji. Dokument pozamowy.

Wyposażenie opcjonalne, takie jak „Hak holowniczy”, „Bagażnik na motocykl”.... może w niektórych przypadkach zmniejszyć miejsc pasażerskich w dowodzie rejestracyjnym pojazdu. Dowiedź się więcej u swojego dystrybutora.

Masa w stanie gotowym do jazdy: masa w stanie gotowym do jazdy obejmuje wagę kierowcy (75 kg) oraz maksymalny zapas wody obiegowej, 90% paliwa i 100% gazu. Podane masy w stanie gotowym do eksploatacji zostały uwzględnione tylko z wyposażeniem standardowym, w którym opuszczają fabrykę. Przepisy europejskie tolerują różnicę +/- 5% masy w stanie gotowym do jazdy. Producent zastrzega sobie prawo do modyfikacji.

Pojemność zbiornika czystej wody w naszych modelach niskoprofilowych/altowa/klasa A została zatwierdzona dla pojemności 1 l zgodnie z przepisami dotyczącymi technicznie dopuszczalnej maksymalnej masy całkowitej kampera w ruchu. Od użytkownika zależy dostosowanie ładunku i liczby osób na pokładzie do ładowności pojazdu. W tym celu użytkownik może zredukować pojemność zbiornika czystej wody podczas jazdy, aby uniknąć zmniejszenia liczby miejsc pasażerskich.

Niektóre modele fotografowane w tym katalogu mogą być pokazane z opcjonalnymi pakietami lub wyposażeniem. Charakterystyki techniczne modeli mogą się różnić w zależności od kraju. Katalog ten nie stanowi dokumentu umownego. Benimar zastrzega sobie prawo do wprowadzania zmian w swoich modelach bez wcześniejszego powiadomienia.

Zdjęcia naszych pojazdów w przestrzeni naturalnej i miejskiej zostały wykonane przez profesjonalistów w kontrolowanych środowiskach i za zgodą. W firmie BENIMAR nalegamy, aby zawsze przestrzegać przepisów ruchu drogowego i bezpieczeństwa ruchu drogowego oraz szanować środowisko.

Wszystkie aktualne informacje można znaleźć na naszej stronie internetowej [www.benimar.es](http://www.benimar.es)

Všetchna zahrnutá technická data (text a fotografie) jsou platná a době tisku tohoto katalogu (srpen 2022), ale mohou se změnov důvody technického pokroku změnit. BENIMAR si vyhrazuje právo kdykoli bez předchozího upozornění upravit jakékoliv vlastnosti vozidel, které se objevují v tomto katalogu. Fotografované obvozy mohou mít volitelné vybavení. BENIMAR neobsahuje dekorativní prvky. Vzhledem k tomu, že se obvozy prodávají v různých zemích, mohou se jejich technické vlastnosti a vybavení v jednotlivých zemích lišit. Některé modely nemusí být v některých zemích k dispozici, proto vás o přesnějších informacích požádáme u svého nejbližšího prodejce. Mimo smluvní dokument.

Doplňková vybavení jako „Tažná zařízení”, „Nosič motocykl”.... může v některých případech upravit počet sedadel v osvědčení o registraci vozidla. Zjistěte více informací u svého distributora.

Hmotnost v provozním stavu zahrnuje hmotnost řidiče (75 kg) a maximální rezervu cirkulující vody, 90% paliva a 100% plynu. Uvedené hmotnosti v provozním stavu byly zohledněny pouze se standardním vybavením, když opouští továrnu. Evropská regulace toleruje rozdíl +/- 5% hmotnosti v provozním stavu. Výrobce si vyhrazuje právo na změny.

V některých případech počet sedadel pro cestující v osvědčení o registraci vozidla. Zjistěte více informací u svého distributora.

Na trhu lze najít obout některé příslušenství, jako jsou velké markýzy nebo generátory. Hmotnost tohoto příslušenství se odečte z čistého zatížení a může nakonec vést ke snížení skutečného počtu cestujících ve vozidle za jízdy. Je proto třeba zjistit, aby při plnění zařízení vozidla nebyla překročena maximální hmotnost naložená na práva a technicky přípustná hmotnost nákladu. Kapacita nádrže na čistou vodu u našich nízkoprofilových /lutyonových / modelů třídy A je schválena pro kapacitu 1 l v souladu s předpisy o technicky přípustné maximální hmotnosti naloženého obvozného vozu. Je na uživateli, aby přizpůsobil náklad a počet osob na palubě podle užitého číselného zatížení vozidla. Za tímto účelem může uživatel regulovat kapacitu nádrže na čistou vodu při jízdě, aby se zabránilo snížení počtu sedadel spojujících.

Benimar si vyhrazuje právo provádět úpravy svých modelů bez předchozího upozornění. Společnost Benimar neodpovídá za úpravy, které mohou provést jeho dodavatelé, ani za typografické chyby, které by se mohly vyskytnout při vydání jakéhokoli dokumentu. Jakákoli reprodukce textu nebo dokumentu, i částečná, je zcela zakázána.

Nekazte je po veřejných komunikacích.

Siť našich distributorů je vám k dispozici při řešení jakýchkoli dotazů nebo dalších informací.

Fotografie našich vozidel v přírodních a městských prostorech byly pořízeny profesionály v kontrolovaném prostředí s autorizací. Od společnosti BENIMAR vás žádáme, abyste vždy dodržovali pravidla silničního provozu a bezpečnosti silničního provozu a respektovali životní prostředí.

Všechny aktuální informace najdete na našich webových stránkách [www.benimar.es](http://www.benimar.es).

Svičkujezi tehnčki podaci (tekst i fotografije) vrijede za vrijeme tiskanja ovog kataloga (kolovoz 2022.), ali mogu biti podložni promjenama zbog tehničkog napretka. BENIMAR zadržava pravo u bilo kojem trenutku i bez prethodne najave izmijeniti sve karakteristike vozila koje se pojavljuju u ovom katalogu. Fotografiрани kamperi mogu imati dodatno opremu u nadoplatu. BENIMAR ne uključuje dekorativne elemente. Obzirom da se vozila prodaju u različitim zemljama, njihove tehničke karakteristike i oprema mogu varirati od jedne zemlje do druge. Neki modeli možda neće biti dostupni u određenim zemljama, pa vas pozivamo da se obratite najbližem dobavljaču za točnije informacije.

Općepotreputnuvneke, nosača za motor.... Mogu u nekim slučajevima utjecati na broj putničkih sedjela u homologaciji vozila. Saznajte više informacija kod svog distributera.

Masa vozila u voznom stanju uključuje težinu vozača (75 kg), kao i rezervu svježe vode, 90% goriva i 100% plina. Navedene mase uzete su u obzir samo sa standardnom opremom kad napuste tvornicu. Europska uredba dopušta razliku u masi od +/- 5%. Proizvođač zadržava pravo izmjene.

Neki dodaci, poput tendeli generatora utječu na masu vozila te će se dužeti iz korisnog tereta i na kraju može dovesti do smanjenja stvarnog broja putnika u vozilu tijekom vožnje. Stoga se mora osigurati da maksimalna masa osovinskih opterećenja i tehnički dopuštena masa tereta ne budu prekoračene kada je vozilo potpuno opterećeno.

Kapacitet spremnika za svježu vodu kod naših modela odobren je za zapreminu od 1 l u skladu s propisima o tehnički dopuštenoj maksimalnoj masi opterećenog kampera u prometu. Na korisnik je da prilagodi teret broju ljudi u skladu s korisnim opterećenjem vozila. Da bi to učinio, korisnik može regulirati kapacitet spremnika čiste vode tijekom vožnje kako bi izbjegao smanjenje broja putničkih sedjela.

Benimar zadržava pravo izmjene svojih modela bez prethodne najave. Benimar nije odgovoran za izmjene koje mogu izvršiti dobavljači, a ni za tipografske pogreške koje bi se mogle pojaviti u izdanju bilo kojeg dokumenta. Svaka reprodukcija teksta ili dokumenta, čak i djelomična, potpuno je zabranjena.

(1) Masse remorchiabile:  
a. Ford automatico: 750 kg  
b. Ford manuale: 1550 kg  
c. Fiat MMA = 3500 kg: 2000 kg (Fiat MMA > 3500 kg: 1750 kg)

L'installazione di un gancio di traino comporta una riduzione di 75 kg del peso disponibile per altre opzioni.

(2) Senza possibilità di opzioni.

(3) Motore "Heavy Duty". Valori emissioni/consumo non disponibili.

(1) Towable mass:  
a. Ford automatic: 750kg  
b. Ford manual: 1550 kg  
c. Fiat MMA = 3500 kg: 2000 kg (Fiat MMA > 3500 kg: 1750 kg)

Installing a tow bar means a 75 kg reduction in the weight available for other options.

(2) Without possibility of optionals.

(3) "Heavy Duty" engine. Emission / fuel consumption values are not available.

MOLTO IMPORTANTE: il peso di eventuali accessori supplementari deve essere detratto dal carico utile del veicolo, in quanto può comportare la riduzione del numero di passeggeri. È conveniente assicurarsi di non oltrepassare i carichi massimi ammissibili negli assi e il peso tecnicamente ammissibile del veicolo a pieno carico.

La quantità d'acqua nel serbatoio d'acqua chiara deve essere conforme al peso massimo autorizzato del veicolo e al suo carico.

\* Posti massimi per dormire con cuscino comfort optional

ATTENTION: the weight of some accessories will reduce the payload and, eventually, the number of passengers. It is imperative to ensure that the maximum permitted weight as well as the maximum allowed weight on the axles are not exceeded when the vehicle is loaded.

The amount of water in the clean water tank must be according to the maximum authorized weight of the vehicle and its load.

\* Maximum berths with optional kit.

UWAGA: waga niektórych akcesoriów zmniejszy ładowność, a ostatecznie liczbę pasażerów. Uważając, że nie przekroczyć maksymalnego dopuszczalnego ciężaru.

Ilość wody w zbiorniku wody czystej musi mieścić się w maksymalnej dopuszczalnej masie pojazdu i ładunku.

\* Maksymalna liczba miejsc do spania w opcjach.

UPOZORNĚNÍ: hmotnost některých doplňků sniží užitečné zatížení a, případně, počet cestujících. Ujistěte se, že se nepřekročí maximální povolená hmotnost na nápravu maximální přípustná hmotnost, když je obytný vůz plně naložen.

Množství vody v nádrži čistou vodu musí být v souladu s maximální přípustnou hmotností vozidla a jeho zatížením.

\* Maximální počet míst s možností.

UPOZORENJE: Nužno je osigurati da najveća dopuštena masa kao i najveća dopuštena masa na osovinama ne budu prekoračene kada je vozilo opterećeno.

Količina vode u spremniku za čistu vodu mora odgovarati najvećoj dopuštenoj masi vozila i njegovom opterećenju.

\* Broj ležećih mjesta može ovisiti o dodatnim opcijama.

**MOLTO IMPORTANTE:** il peso di eventuali accessori supplementari deve essere detratto dal carico utile del veicolo, in quanto può comportare la riduzione del numero di passeggeri. È conveniente assicurarsi di non oltrepassare i carichi massimi ammissibili negli assi e il peso tecnicamente ammissibile del veicolo a pieno carico.

La quantità d'acqua nel serbatoio d'acqua chiara deve essere conforme al peso massimo autorizzato del veicolo e al suo carico.

- \* Posti massimi per dormire con cuscino comfort optional.
- \*\* I pesi rimorchiabili hanno le seguenti caratteristiche:
- Ford 130 CV: peso massimo remolcabile 1550 kg.
- Ford 170 CV: peso massimo remolcabile 1550 kg.
- Ford con cambio automatico indipendentemente dalla potenza: peso massimo rimorchiabile 750 kg.

**ATTENTION:** the weight of some accessories will reduce the payload and, eventually, the number of passengers. It is imperative to ensure that the maximum permitted weight as well as the maximum allowed weight on the axles are not exceeded when the vehicle is loaded.

The amount of water in the clean water tank must be according to the maximum authorized weight of the vehicle and its load.

- \* Maximum berths with optional kit.
- \*\* The towable weights are as follows:
  - Ford 130 HP: maximum towable weight 1550 kg.
  - Ford 170 HP: maximum towable weight 1550 kg.
  - Ford with automatic transmission regardless of power: maximum towable weight 750 kg.

**UWAGA:** waga niektórych akcesoriów zmniejsza ładowność, a ostatecznie liczbę pasażerów. Upewnij się, że nie przekroczysz maksymalnego dopuszczalnego ciężaru.

maksymalnej dopuszczalnej masie pojazdu i ładunku.

- \* Maksymalna liczba miejsc do spania w opcjach.
- \*\* Masa przyczepy :
  - Ford 130 HP: maksymalna waga przyczepy 1550 kg.
  - Ford 170 HP: maksymalna waga przyczepy 1550 kg.
  - Ford z automatyczną skrzynią biegów : maksymalna waga przyczepy 750 kg.

**UPOZORNĚNÍ:** hmotnost některých doplňků sniží užitečnou nosnou kapacitu vozidla a tím i počet cestujících. Ujistěte se, že součet hmotnosti všech doplňků nepřekračuje maximální povolenou hmotnost na nápravu a maximální přípustnou hmotnost, když je obytný vůz plně naložen.

Množství vody v nádrži s čistou vodou musí být v souladu

- **Maximální počet míst s možností.**
- **\*\* Tažné hmotnosti jsou následující:**
  - Ford 130 HP: maximální tažná hmotnost 1 550 kg.
  - Ford 170 HP: maximální tažná hmotnost 1 550 kg.
  - Ford s automatickou převodovkou bez ohledu na výkon:

**UPOZORENJE:** Nužno je osigurati da najveća dopuštena masa kao i najveća dopuštena masa na osovinama ne budu prekoračene kada je vozilo opterećeno.

Količina vode u spremniku za čistu vodu mora odgovarati najvećoj dopuštenoj masi vozila i njegovom opterećenju.

\*Broj ležajevih mesta može ovisiti o dodatnim opcijama

- Ford 130 KS: maksimalna vučna masa 1550 kg.
- Ford 170 KS: maksimalna vučna masa 1550 kg.
- Ford s automatskim mjenjačem bez obzira na snagu: najveća vučna masa 750 kg.

**MOLTO IMPORTANTE:** il peso dei carichi supplementari deve essere determinato in base al tipo di veicolo, in quanto può compiere un ruolo importante il numero di passeggeri. È conveniente

oltrepassare i carichi massimi ammissibili e, nel peggiore dei casi, un peso tecnicamente ammissibile di

**\*\* I pesi rimorchiabili hanno le seguenti limitazioni:**  
La quantità d'acqua nel serbatoio deve essere conforme al peso massimo autorizzato e al suo carico.

ATTENTION: the weight of some accessories may increase the payload and, eventually, the number of lifts. It is imperative to ensure that the maximum weight as well as the maximum allowed

axles are not exceeded when the vehicle is fully loaded.

**\*\* The towable weights are as follows:**

- Fiat 3500 kg: maximum towable weight
- Fiat > 3500 kg: maximum towable weight

UWAGA: waga niektórych akcesoriów ładowność, a ostatecznie liczbę pasażerów się, że nie przekroczysz maksymalnego dopuszczenia ciężaru.

Ilość wody w zbiorniku wody czystej musi mi

- Fiat 3500 kg: maksymalna waga przyczepy 2000 kg
- Fiat > 3500 kg: maksymalna waga przyczepy 1800 kg

**UPOZORNĚNÍ:** hmotnost některých doplňků užitečné zatížení a tím i počet cestujících. Ujistěte se, že se nepřekračuje maximální povolená hmotnost nápravu a maximální přípustná hmotnost, když je ob

vůz plně naložen.

**\*\* Tažné hmotnosti jsou následující:**

**MOLTO IMPORTANTE:** il peso di eventuali accessori supplementari deve essere detratto dal carico utile del veicolo, in quanto può comportare la riduzione del numero di passeggeri. È conveniente assicurarsi di non oltrepassare i carichi massimi ammissibili negli assi e il peso tecnicamente ammissibile del veicolo a pieno carico.

La quantità d'acqua nel serbatoio d'acqua chiara deve essere conforme al peso massimo autorizzato del veicolo e al suo carico.

\* Posti massimi per dormire con cuscino comfort optional.

\*\* I pesi rimorchiabili hanno le seguenti caratteristiche:

- Ford 130 CV: peso massimo remorcabile 1550 kg.
- Ford 170 CV: peso massimo remorcabile 1550 kg.
- Ford con cambio automatico indipendentemente dalla potenza: peso massimo rimorchiabile 750 kg.

**ATTENTION:** the weight of some accessories will reduce the payload and, eventually, the number of passengers. It is imperative to ensure that the maximum permitted weight as well as the maximum allowed weight on the axles are not exceeded when the vehicle is loaded.

The amount of water in the clean water tank must be according to the maximum authorized weight of the vehicle and its load.

\* Maximum berths with optional kit.

\*\* The towable weights are as follows:

- Ford 130 HP: maximum towable weight 1550 kg.
- Ford 170 HP: maximum towable weight 1550 kg.
- Ford with automatic transmission regardless of power: maximum towable weight 750 kg.

UWAGA: Niektórzy akcesoriów zmniejszy ładowność, a ostateczną liczbę pasażerów. Upewnij się, że nie przekroczysz maksymalnego dopuszczalnego ciężaru.

ilość wody w zbiorniku wody czystej musi mieścić się w maksymalnej dopuszczalnej masie pojazdu i ładunku.

**\*Maksymalna liczba miejsc do spania w opcjach.**

**\*\* Masa przyczepy:**

- Ford 130 HP: maksymalna waga przyczepy 1550 kg.
- Ford 170 HP: maksymalna waga przyczepy 1550 kg.
- Ford z automatyczną skrzynią biegów: maksymalna waga przyczepy 750 kg.

**POUČENÍ:** Maximální hmotnost některých doplnků snižuje účinné zatížení a tím i počet cestujících. Ujistěte se, že se nepřekračuje maximální povolená hmotnost na dopravu a maximální přípustná hmotnost, kdyže je vzhledem k výšce plněn zalozen.

Množství vody v nádrži čistou vodu musí být v souladu s maximální přípustnou hmotností vozidla jeho zatížením.

**\* Maximální počet míst v možnosti.**

**\*\* Tažné hmotnosti jsou následující:**

- Ford 130HP: maximální tažná hmotnost 1 550 kg
- Ford 170HP: maximální tažná hmotnost 1 550 kg
- Ford s automatickou převodovkou bez ohledu na výkon: maximální tažná hmotnost 750 kg.

**UPOZORENJE:** Nužno je osigurati da najveća dopuštena masa kao i najveća dopuštena masa na osivima ne budu prekoračene kada je vozilo opterećeno.

Količina vode u spremniku za čistu vodu mora odgovarati najvećoj dopuštenoj masi vozila i njegovom opterećenju.

**\*Broj ležajnih mjesta može ovisati o dodatnim opremanjima.**

**\*\* max. masa priključnog vozila:**

- Ford 130 R: maksimalna vučna masa 1550 kg.
- Ford 170 R: maksimalna vučna masa 1550 kg.
- Ford s automatskim mjenjačem bez obzira na snagu: najveća vučna masa 750 kg.

MOLTO IMPORTANTE: il peso di eventuali accessori supplementari deve essere detratto dal carico utile del veicolo, in quanto può comportare la riduzione del numero di passeggeri. È conveniente assicurarsi di non oltrepassare i carichi massimi ammissibili negli assi e il peso tecnicamente ammissibile del veicolo a pieno carico.

La quantità d'acqua nel serbatoio d'acqua chiara deve essere conforme al peso massimo autorizzato del veicolo e al suo carico.

\* Posti massimi per dormire con cuscino comfort optional.

\*\* I pesi rimorchiabili hanno le seguenti caratteristiche:  
• Fiat 3500 kg: peso massimo remolcable 2000 kg  
• Fiat > 3500 kg: peso massimo remolcable 1750 kg.

ATTENTION: the weight of some accessories will reduce the payload and, eventually, the number of passengers. It is imperative to ensure that the maximum permitted weight as well as the maximum allowed weight on the axles are not exceeded when the vehicle is loaded.

The amount of water in the clean water tank must be according to the maximum authorized weight of the vehicle and its load.

\* Maximum berths with optional kit.

\*\* The towable weights are as follows:

• Fiat 3500 kg: maximum towable weight 2000 kg  
• Fiat > 3500 kg: maximum towable weight 1750 kg,

UWAGA: waga niektórych akcesoriów zmniejszy ładowność, a ostatecznie liczbę pasażerów. Upewnij się, że nie przekroczysz maksymalnego dopuszczalnego ciężaru.

Ilość wody w zbiorniku wody czystej musi mieścić się w maksymalnej dopuszczalnej masie pojazdu i ładunku.

\*Maksymalna liczba miejsc do spania w opcjach.

\*\* Masa przyczepy :

• Fiat 3500 kg: maksymalna waga przyczepy 2000 kg  
• Fiat > 3500 kg: maksymalna waga przyczepy 1750 kg,

UPOZORNĚNÍ: hmotnost některých doplňků sniží užitečné zatížení a tím i počet cestujících. Ujistěte se, že se nepřekračuje maximální povolená hmotnost na nápravu a maximální přípustná hmotnost, když je obytný vůz plně naložen.

Množství vody v nádrži s čistou vodou musí být v souladu s maximální přípustnou hmotností vozidla a jeho zatížením.

\* Maximální počet míst s možností.

\*\* Tažné hmotnosti jsou následující:

• Fiat 3500 kg: maximální tažná hmotnost 2 000 kg  
• Fiat > 3500 kg: maximální tažná hmotnost 1 750 kg,

UPOZORENJE: Nužno je osigurati da najveća dopuštena masa kao i najveća dopuštena masa na osovinama ne budu prekoračene kada je vozilo opterećeno.

Količina vode u spremniku za čistu vodu mora odgovarati najvećoj dopuštenoj masi vozila i njegovom opterećenju.

\* Broj ležećih mjesta može ovisiti o dodatnim opcijama.

\*\* max. masa priključnog vozila

• Fiat 3500 kg: maksimalna vučna masa 2000 kg  
• Fiat > 3500 kg: maksimalna vučna masa 1750 kg,

**MOLTO IMPORTANTE:** il peso di eventuali accessori supplementari deve essere detratto dal carico utile del veicolo, in quanto può comportare la riduzione del numero di passeggeri. È conveniente assicurarsi di non oltrepassare i carichi massimi ammissibili negli assi e il peso tecnicamente ammissibile del veicolo a pieno carico.

**ATTENTION:** the weight of some accessories will reduce the payload and, eventually, the number of passengers. It is imperative to ensure that the maximum permitted weight as well as the maximum allowed weight on the axles are not exceeded when the vehicle is loaded.

The amount of water in the clean water tank must be according to the maximum authorized

La quantità d'acqua nel serbatoio d'acqua chiara deve essere conforme al peso massimo autorizzato del veicolo e al suo carico.

\* Posti massimi per dormire con cuscino comfort optional.

\*\* I pesi rimorchiabili hanno le seguenti caratteristiche:

- Fiat 3500 kg: peso massimo rimorcabile 2000 kg
- Fiat > 3500 kg: peso massimo rimorcabile 1750 kg.

**UWAGA:** waga niektórych akcesoriów zmniejszy ładowność, a ostatecznie liczbę pasażerów. Upewnij się, że nie przekroczysz maksymalnego dopuszczalnego ciężaru.

Ilość wody w zbiorniku wody czystej musi mieścić się w maksymalnej dopuszczalnej masie pojazdu i ładunku.

\*Maksymalna liczba miejsc do spania w opcjach.

**\*\* Masa przyczepy:**

- Fiat 3500 kg: maksymalna waga przyczepy 2000 kg
- Fiat > 3500 kg: maksymalna waga przyczepy 1750 kg

**UPOZORNĚNÍ:** hmotnost některých doplňků snižuje užitečné zatížení a tím i počet cestujících. Ujistěte se, že se nepřekračuje maximální povolená hmotnost na nápravu a maximální přípustná hmotnost, když je obytný vůz plně naložen.

Množství vody v nádrži s čistou vodou musí být v souladu s maximální přípustnou hmotností vozidla a jeho zatížením.

\*\* Tažné hmotnosti jsou následující:  
 Fiat 3500 kg; maximální tažná hmotnost 2 000 kg

**\*\* Tažné hmotnosti jsou následující:**

- Fiat 3500 kg: maximální tažná hmotnost 2 000 kg

- Fiat > 3500 kg: maximální tažná hmotnost 1 750 kg,

**UPOZORENJE:** Nužno je osigurati da najveća dopuštena masa kao i najveća dopuštena masa na osovinama ne budu prekoračene kada je vozilo opterećeno.

Količina vode u spremniku za čistu vodu mora odgovarati najvećoj dopuštenoj masi vozila i njegovom opterećenju.

\* Broj ležećih mjesta može ovisiti o dodatnim opcijama

\*\* max. masa priključnog vozila

- Fiat 3500 kg: maksimalna vučna masa 2000 kg
- Fiat > 3500 kg: maksimalna vučna masa 1750 kg,
