REISEMOBILE AUS LEIDENSCHAFT

Credo, Carver, Charisma and Centurion Daily represent the broad luxury segment at Concorde.

Each of these series sets standards in terms of design, technology and comfort and serves a role model in its respective class across the industry. The expressive styling lends the vehicles an unmistakable appearance that clearly identifies them as Concorde.

They are all true to our motto "We are passionate about motorhomes" and are produced as handcrafted masterpieces by a dedicated staff with passion, enthusiasm and commitment on the basis of engineering expertise, design creativity and precision in production.

“WE ARE PASSIONATE  
ABOUT MOTORHOMES”  
FOR THE PAST 40 YEARS

Today's Concorde Reisemobile GmbH has its roots in the year 1981 and is one of the pioneers of German motorhome construction. Concorde has been based in Aschbach for 28 years and, thanks to a committed management team that has experience in the industry, has developed there into an attractive location with a highly modern motorhome production facility.

Each year, approximately 400 exclusive motorhomes are manufactured here using a precisely balanced combination of individual craftsmanship and high precision. Production takes place using a precisely balanced combination of individual craftsmanship and high precision and – in part computer-controlled technology.

Also referred to as "land yachts", these vehicles are absolute premium products full of innovation, precision and passion.

# LINER — PREMIUM LUXURY ACROSS THE ENTIRE LINE

Concorde Liners are in a class of their own. Exceptional high-end furnishings and maximum use of space are perfectly combined with one another here.

This class is paired with impressive mass. Based on the Mercedes Atego with 299 hp or the Mercedes Actros with 324 hp, this premium vehicle, with a gross vehicle weight of more than 12 tonnes, a length of up to 11.50 m and width of nearly 2.50 meters, moves majestically along roads and through the countryside.

# LIVING ENVIRONMENT AND KITCHEN STUDIO

Liners are characterized by stylistically confident furnishings and features. The finest materials and best workmanship as well as a model-dependent and individually selectable furnishings give personal and exclusive taste free rein. A special flooring in yacht-style look and with best ratings for walking comfort round out the tasteful ensemble.

The U-shaped kitchen impresses with typical, high-quality household kitchen appliances, very spacious cabinets and drawers as well as generous work surfaces. In addition to an optimally balanced functionality, attention is also given here to an exclusive design.

Learn about the large selection of furniture front panels and seating group variants with their leathers and fabrics.

# WELLNESS OASIS AND RELAXATION CENTRE

The bathroom with 5-star ambience. Tastefully furnished with spacious feeling. High-quality stainless-steel fittings and sink made of artificial stone convey an exclusive wellness atmosphere.

The bedroom as a centre of relaxation. In the generously dimensioned rear bedroom, the high-quality Concorde sleeping system with comfortable cold-foam mattress and stable spring base ensures maximum comfort. The substantial dimensions of the queen-size bed or twin-bed variant create a feeling of total relaxation. This is true for the optional pull-down bed as well.

LINER

CENTURION ATEGO

CENTURION ACTROS

# THE SERIES

Light creates atmosphere. Indirect lighting in the canopy illuminates the furniture and makes the wood shine, even at floor level thanks to the dimmable LED lighting in the skirting boards.

The multifunctional adjustable hot water heating system creates three different warm areas which can be heated separately from each other. By means of a thermostatic valve, the temperature of the living room, wellness area and sleeping space can be independently controlled. The two-circuit underfloor heating enables separate control of living room and bathroom.

# HIGHLIGHTS

The active dashboard surrounds the driver with ergonomic curves. The monitors positioned on either side of the steering wheel are easily visible and the function switches and levers are within optimum reach.

The emergency brake assistant and the lane departure warning system provided as standard ensure your safety. The radar system of the emergency brake assistant detects obstacles and intervenes if there is no driver activity. The camera of the lane departure warning system helps the driver stay in lane.

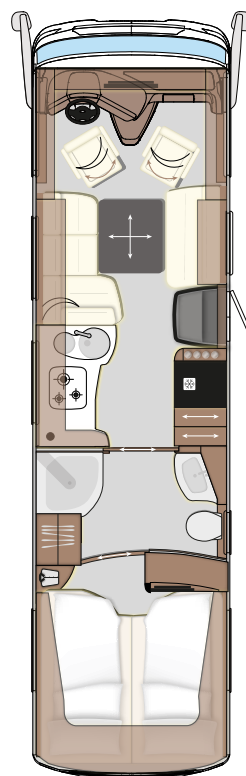

Here you can see all highlights of the Liner series.

# CENTURION ON MERCEDES-BENZ ATEGO

Depending on the model, these premium motorhomes can tip the scales at up to 15 tonnes. Thanks to the integrated garage and with a suitable second vehicle, a high level of flexibility and logistical freedom are retained.

Exclusive interior design and innovative functions with modern technology fully justify the term "mobile luxury".

LINER

CENTURION ATEGO

CENTURION ACTROS

# LIVING AREA COMFORT SEATING GROUP

The unbelievable living comfort with its luxurious materials and top craftsmanship defies description. You need to see, feel and experience the quality and atmosphere in person.

LINER

CENTURION ATEGO

CENTURION ACTROS

# WELLNESS IN A CLASS OF ITS OWN

Bathed in light, equipped with a large, pleasantly shaped washbasin, unique rain forest shower and ample storage and cabinet space, the bathroom leaves nothing to be desired.

The bed chamber deserves its name. Impressive furnishing design, elegant canopies with indirect air conditioning and lavish bed dimensions are truly dreamlike.

LINER

CENTURION ATEGO

CENTURION ACTROS

# THE SERIES

The multifunctional adjustable hot water heating system creates three different warm areas which can be heated separately from each other. By means of a thermostatic valve, the temperature of the living room, wellness area and sleeping space can be independently controlled. The two-circuit underfloor heating enables separate control of living room and bathroom.

With the Atego, the transmission protrudes slightly upwards above chassis. Thanks to the auxiliary frame, "floor one" floats above the chassis and does not collide with the transmission. This results in a flat "basement" in the double floor – a storage compartment in front of the entry door.

# HIGHLIGHTS

One big comfort feature is effective engine noise insulation. Silent blocks decouple the driver's cab platform from the chassis. The engine is equipped with a lateral damping package and a complex Concorde sound insulation membrane system (three mass spring system) located below the floor of the driver's cab – for whisper-quiet travel.

The draped bus flaps with PU insulation deserve special attention. Both the electric locks with sensitive unlocking function and the gas pressure absorber are in the protected area of the double floor.

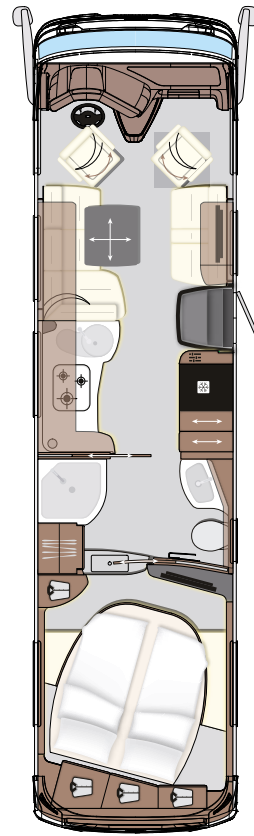

Here you can see all highlights of the Centurion Atego series.

# THE MOBILE DREAM CASTLE

The absolute high-end motorhome is called Centurion. These vehicles, as partially integrated or integrated version, combine everything that deserves the label of luxury and are the result of years of successful experience and development.

Comfort on the highest level, technology at the highest standards, innovation in all areas and unique design and styling merit the title: dream castle.

LINER

CENTURION ATEGO

CENTURION ACTROS

# LUXURY AND COMFORT – THE MOBILE LIVING EXPERIENCE

The living area with Havanna lounge and recliner chair, exclusive leather upholstery, practical table construction and multimedia equipment meets the highest standards.

Adjacent, and in the same style and of a similarly high standard, is the kitchen. Breathtaking styling, optimum space and comfort features similar to what you would find at home once again leave nothing to be desired.

LINER

CENTURION ATEGO

CENTURION ACTROS

# AN ELDORADO FOR WELL-BEING AND TRANQUILLITY

The ambience of the Centurion bathroom is nearly indescribable. Generous floor plan with unbelievable storage space, unique rainforest shower, comfortable toilet and a functional washbasin are perfectly presented visually by large mirror surfaces and LED spots, creating a distinctive spatial impression.

The sleeping area is a fairytale oasis of tranquillity. The ensemble of designer furniture, perfect room illumination and a queen-size bed with respectable outer dimensions as well as perfect relaxation quality thanks to optimum mattress selection deserve the label of dreamlike.

# THE SERIES

Concorde lift-up system not only a technical highlight. This rear garage door is raised hydraulically.

The hydraulic cylinders of the lift prop system are mounted on load-bearing outriggers which increase the span by approx. 90 cm and thus ensure a more stable stand.

# HIGHLIGHTS

The technical masterpiece expands the living area and kitchen at the touch of a button, creating a room divider and a „star-worthy“ workplace thanks to the extendable worktop. The Havana lounge with relax function is a novelty and brings unimagined relaxation and comfort to the motorhome.

An aluminium frame in the Centurion's double floor ensures an extremely stable "basement construction" by connecting the auxiliary frame with the living area floor, creating a solid box. This clever construction means that furniture and wall constructions remain firmly connected in the long run.

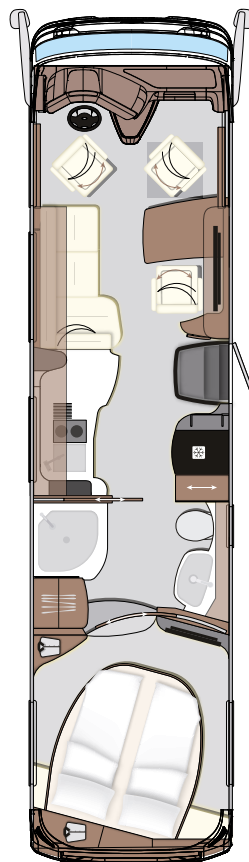

Here you can see all highlights of the Centurion Actros series.
