

**Auto-Sleepers**  
MOTORHOMES OF EXCELLENCE

Combining over 50 years of British motorhome craftsmanship from the Cotswolds and technologically advanced vehicles

# Award-Winning Manufacturer

Auto-Sleepers have been building motorhomes of exceptional quality for over fifty years. Our motorhomes are hand built by experienced craftsmen combining practicality with internal and external design innovations. Never before have these qualities been better combined than in the latest Auto-Sleepers range. For those who aspire – arrive in style with an Auto-Sleeper.

## Power with economy

Auto-Sleepers' long standing relationship with Peugeot dates back to the 1980's when both the Talbot Express chassis and panel vans were the base vehicles of choice. Today, the Peugeot Boxer features driver and passenger airbags as standard for ultimate peace of mind. The Peugeot Boxer is characterised by its practicality, spaciousness, drivability and comfort and is packed with innovative features to make your touring more enjoyable.

The Volkswagen name is synonymous with campervans and has built up a loyal following over the years, from the early split screen models to the modern and much loved T5 version, the Transporter has evolved. The latest and most sophisticated T5 comes with a host of new features.

Mercedes-Benz was the first name in motoring over a century ago. Their commitment to high engineering standards and safety mean that outstanding driving characteristics and innovations give you total peace of mind, allowing you to enjoy your leisure time to the full. Auto-Sleepers' craftsmanship and Mercedes-Benz engineering - an unbeatable combination.

The class leading Auto-Sleepers Motorhome range have a high specification befitting their flagship status and are built on the latest Euro V compliant range of Diesel engines, combining power with performance yet being environmentally friendly with low emissions.

## Safety first and foremost

Being safe in your vehicle is paramount. All Auto-Sleepers models have obtained EC Whole Vehicle Type Approval. That is why the forward facing seating in Auto-Sleepers' conversions is tested to European seat belt anchorage standards. All models comply with British and European safety standards as independently verified by the National Caravan Council (NCC) and VCA.

# Specification

The Topaz provides all of the features that you would expect to find on a larger campervan, including a rear bathroom with sink, shower and toilet, all neatly packaged and put to practical use in this stylish 2 berth campervan. The Volkswagen based Topaz is a high top campervan conversion based on the long wheel base T5 chassis. The metallic paintwork, colour-coded bumpers and distinctive graphics provide a striking appearance to this all-in-one lifestyle solution.

## Choice Of Colours

Volkswagen van conversions are available in a choice of 6 colours.

## VW and Auto-Sleeper a perfect combination

The Auto-Sleeper Topaz is built on VW's T5 Long Wheel base chassis offering The Transporter's famous build quality and refined driving experience. The 2015 edition engine include:

- Lower CO<sub>2</sub> emissions & more efficiency offering a return of over 600 miles to a single tank of fuel
- Improved torque providing a greater level of performance
- Euro V, 4 cylinder engines are quieter, cleaner and more fuel-efficient

Auto-Sleepers' relationship with Volkswagen has also been a long standing one, together we have built an award winning reputation for applying British craftsmanship alongside German engineering to produce an industry leading model range, copied by all, bettered by none.

Manufactured in England

## DSG Automatic Gearbox

The optional DSG dual-clutch gearbox has two clutches with electronically controlled gear selection. DSG gives you:

- Fast, smooth gear changes
- Lively handling with unbroken acceleration
- Safer driving with the power to get you out of tricky situations
- Improved fuel economy, even compared to a manual gearbox

# Specification

The Peugeot Boxer incorporates a series of innovations, including a particle emissions filter, to reduce the CO<sub>2</sub> impact to the environment without reducing power or performance. HDi, the common rail injection system delivers lower emissions in line with current European legislation.

Standard safety features include ABS - Anti-lock Braking System, EBA - Emergency Braking Assistance, EBFD - Electronic Brake Force Distribution, disc brakes, passenger and driver's airbags, fuel supply safety cut off, driver's seat belt indicator and safety auto-reverse on drivers' door mirror.

## Choice Of Colours

Peugeot van conversions are available in a choice of 4 colours.

## Underfloor Mounted LPG Tank

For 2015 Auto-Sleepers have installed a 20 litre liquid capacity LPG gas tank across the entire range of Peugeot based Motorhomes, offering hassle free practicality with numerous benefits including -

- Readily available from 1000's of petrol stations throughout Great Britain and Europe.
- Convenience personified, refilling them is as easy as filling the fuel tank
- No heavy bottles to lift, carry or manhandle
- No middle of the night change overs required
- Economical to use at approximately half the cost of cylinders, cost per litre typically only 75p
- Interior space saving, the tank is externally mounted to the underside of the Motorhome
- Easy read LED tank gauge and an Auto-Stop feature to prevent any chance of overfilling
- Reliable and safety proven, extensively tested for peace of mind and fully approved under European whole vehicle type approval legislation.

## Athermic Windows

Auto-Sleepers' Peugeot van conversions feature factory bonded athermic windows, a stylish and practical solution that reflects heat in both directions, provides insulation for year round use, offers improved security and are tinted for maximum privacy.

AL-KO AIR-TOP SUSPENSION, ONCE EXPERIENCED, NEVER DRIVEN WITHOUT.

The AL-KO Air-Top system is fitted as a proven performance enhancing upgrade to Peugeots own twin leaf rear axle suspension.

The system increases roll and road holding stability and provides significantly improved driving comfort even under full load.

The dual circuit system is entirely maintenance free and can be used independently on each rear wheel to assist levelling out uneven loading whilst travelling and/or onsite when parking on uneven ground.

## Premium Pack Upgrades

# Peugeot Coachbuilds

Models

6

Min Berth

Max Berth

Peugeot is a popular choice amongst Auto-Sleeper customers and our relationship with them is long standing, harking back to when some of our first ever models were based on the Commer chassis, now part of Peugeot. Auto-Sleeper offers both low profile and highline Coachbuilt models with a choice of Short, Medium and Long wheel base chassis all of which feature car like drivability.

# Peerless Refinement

Our Peugeot Coachbuilds feature Grade III Classification for heating and thermal insulation.

BRAND NEW FOR 2015

Optional Fiat Ducato 130bhp Comfort-matic gearbox available on all Auto-Sleeper 2015 Peugeot models.

## Underfloor Mounted LPG Tank

For 2015 Auto-Sleepers have installed a 20 litre liquid capacity LPG gas tank across the entire range of Peugeot based motorhomes, offering hassle free practicality with numerous benefits including -

- Readily available from 1000's of petrol stations throughout Great Britain and Europe.
- Convenience personified, refilling them is as easy as filling the fuel tank
- No heavy bottles to lift, carry or manhandle
- No middle of the night change overs required
- Economical to use at approximately half the cost of cylinders, cost per litre typically only 75p
- Interior space saving, the tank is externally mounted to the underside of the motorhome
- Easy read LED tank gauge and an Auto-Stop feature to prevent any chance of overfilling
- Reliable and safety proven, extensively tested for peace of mind and fully approved under European whole vehicle type approval legislation.

- Fresh Water Tank - 91ltrs
- Waste Water Tank - 71ltrs

*\* Premium Pack <sup>#</sup>Optional*

# Specification

The Auto-Sleepers Mercedes range offers you a choice of powerful, economical and technically advanced four-cylinder CDI Euro V diesel engines. All CDI diesel engines include a manual transmission as standard. Automatic 7-speed transmission is an option for an even more relaxed drive.

## Leaner

- Reduced fuel consumption
- New generation ignition key with improved functionality

## Meaner

- Engine performance and torque enhancements
- 316CDI 163bhp engine

## Greener

- Improved CO<sup>2</sup> exhaust emissions to 214g/km (163bhp)
- Environmentally friendly diesel particulate filter exhaust systems

## Base Vehicle Specification

- Turbo diesel 163bhp Euro V engine
- Optional upgrade to V6 190bhp Euro V engine<sup>#</sup>
- Optional 7 speed fully automatic gearbox<sup>#</sup>
- Alloy wheels\*
- Cruise control\*
- Cab air conditioning\*
- Adaptive ESP with acceleration skid control
- ABS brakes with EBD

## Safety Features As Standard

ESP helps the driver stabilise the motorhome in crucial situations - when there is a risk of skidding, for example. The ESP computer compares your intended direction with its actual course. If there is a discrepancy between the driver's instructions and the vehicle's reactions, the system takes corrective action instantly, either by reducing the engine power or by selectively braking one or more wheels.

The anti-lock braking system that comes as standard with the Mercedes Sprinter chassis features the latest in advanced technology. When the speed sensors detect that a wheel is on the point of locking up, the brake pressure at the wheel is immediately reduced, keeping the motorhome steerable even during emergency braking.

ASR ensures smooth start-off and acceleration, without wheel spin. As soon as one of the drive wheels starts to spin, ASR intervenes to reduce the engine power, and also by gently applying the brake to that wheel, to prevent a loss of traction. The result is improved traction - and safety - especially on slippery surfaces.

Start-off Assist is fitted as standard to manual transmission models and means you don't have to juggle brake, clutch and handbrake when moving off on uphill or downhill slopes. Once the brake pedal has been released, the brake pressure is maintained for approximately two seconds, allowing you to move off without the vehicle rolling backwards.

Electronic brake force distribution (EBD) divides up the braking force between the front and rear wheels of the motorhome as required, optimising braking efficiency in all driving situations. In this way the system prevents "overbraking" of the rear wheels, which could cause the vehicle to fishtail. EBD also puts less stress on the front brakes, which reduces the risk of fading due to overheating.

Road and accident research has established even in an emergency, most drivers don't use the full power of the vehicle's brakes. This discovery led Mercedes-Benz to develop the Brake Assist system. By reacting to the speed at which the brake pedal is applied, Brake Assist can detect a situation where emergency braking is required. When that happens the system automatically increases braking power, aided by the anti-lock braking system (ABS) which prevents the wheels from locking up.

## Underfloor Mounted LPG Tank

For 2015 Auto-Sleepers have installed a 20 litre liquid capacity LPG gas tank across the entire range of Mercedes based motorhomes, offering hassle free practicality with numerous benefits including -

- Readily available from 1000's of petrol stations throughout Great Britain and Europe.
- Convenience personified, refilling them is as easy as filling the fuel tank
- No heavy bottles to lift, carry or manhandle
- No middle of the night change overs required
- Economical to use at approximately half the cost of cylinders, cost per litre typically only 75p
- Interior space saving, the tank is externally mounted to the underside of the Motorhome
- Easy read LED tank gauge and an Auto-Stop feature to prevent any chance of overfilling
- Reliable and safety proven, extensively tested for peace of mind and fully approved under European whole vehicle type approval legislation.

## Upgrades

### Premium Pack

- 7 Speed fully automatic gearbox
- Alloy wheels
- Cab air conditioning
- Cruise control
- Thule Omnistor canopy awning
- Colour reversing camera
- 30W solar panel

### Winter Pack

- Concertina cab blinds in lieu of cab curtains
- Fresh & waste water tank heater blanket
- Truma Combi heater upgrade
- Wheel arch insulation blankets

**TANKBLANKET™**

### Interior General

- Luxurious Amarti furniture with chrome fixtures and fittings
- Panoramic wind-up opening rooflight
- Privacy blinds & flyscreens to all opening windows
- Choice of five Belgium chenille fabrics providing luxurious interior soft furnishings
- High quality Reflex™ foam upholstery
- Colour co-ordinated habitation curtains with tiebacks and scatter cushions
- Removable interior carpets
- LED spotlights and roof lighting with a power saving of up to 70%
- Over locker LED mood lighting
- Seat tops on gas struts and drop down access door to under-seat storage space
- Swivel cab seats on all front lounge models
- Over-cab storage compartments
- Spacious wardrobe
- Range of high & low-level storage lockers.
- Cocktail cabinet with crystal wine glasses
- Freestanding table
- Foot-well entry step with as logo light
- Smoke and carbon monoxide alarms
- Fire extinguisher

### Exterior General

- Full GRP body including roof and rear panel
- Scratch and impact resistant GRP sidewalls available in platinum or white
- Skyview wind up opening rooflight\*\*
- Aluminium skirts
- Large external skirt locker (under-floor mounted)
- Dropdown access door to nearside seating
- 30W solar panel\*
- Optional upgrade to 80W solar panel
- Thule (omnistor) roof mounted canopy awning\*
- LED strip awning light
- Colour co-ordinated external TV socket
- Colour co-ordinated external gas BBQ point
- Colour co-ordinated external 230v mains socket
- Hartal exterior door with central locking
- 20 Litre liquid capacity LPG gas tank
- Double-glazed opening windows with concertina blinds & flyscreens
- Multi directional status tv aerial
- Electric slide-out entrance step with auto retract on engine start
- Rear mud-flaps
- Rear corner steadies

### Electrics and Plumbing

- LCD control panel
- Split charged 105 amp leisure battery
- Four 230v sockets
- Two 12v sockets
- Electric hook up lead
- Truma dual fuel combi blown air central heating and water heater
- Submersible water pump
- 71 Litre fresh water tank
- 53 Litre waste water tank
- Large bore waste pipework for efficient drainage
- Whale auto-fill & manual filler for fresh water tank

### Kitchen

- Spacious and fully equipped with large slide out additional work surface
- Dual fuel hob with 3 gas burners and an electric hot plate plus
- Separate oven and grill
- Dual level microwave oven
- 12v extractor fan with down-lighters
- Large refrigerator with freezer compartment

### Bathroom

- Combined shower and toilet compartment
- Swing wall showers with integrated washbasin
- Vanity cupboard with mirrors
- Separate shower cubicle (Winchcombe, Burford and Burford duo)
- Electric flush cassette toilet with separate header tank
- Chrome fixtures and fittings
- Storage cupboard
- Anti slip shower mat
- Ducted blown air outlet
- LED lighting
- Retractable clothesline (model specific)
- Roof vent with flyscreen

*\*Premium pack \*\*Low Profile roof only #Optional*

# Coachbuilt Personalisation

## Roof Options

Peugeot and Mercedes-Benz coachbuilt models are available with a choice of two roof options, available at no extra cost.

### Luton

The overcab luton offers additional sleeping accommodation for two people

### Low Profile

The lowline roof is available with either a large opening skyview rooflight or additional locker storage.

## Fabric Options

Every Auto-Sleeper comes with a choice of colourways from the latest range of handpicked Belgian 'Moonstone' fabrics, providing a luxurious finish for that added personal touch.

Moonstone  
Berry

Moonstone  
Blue

Moonstone  
Mocha

Moonstone  
Forest

Moonstone  
Caramel

## Seating Options

Selected Coachbuilt models\* are available with the option of two rear seating configurations. Choose from either twin benches, creating a spacious lounge or additional rear travelling seats\*\*, which allow for extra passengers to be transported in the rear safely.

Twin Bench Lounge

Additional Rear Travelling Seats

\* Excluding Broadway EL Duo \*\* Additional cost option

## Seat Belt Safety

Seat belts for the front cab seats in motorhomes have always been installed by the base vehicle manufacturer since the law required them to do so and wearing them is a legal requirement whenever the vehicle is being driven.

Seat belts in the rear of a motorhomes however is more complicated; where a designated travelling seat is available it must be used, however, where there isn't one it's not illegal to travel in the rear without wearing one at present, although this could well change in the future.

In the interests of everyone's safety and peace of mind, Auto-Sleepers always recommend when travelling in the rear of a motorhome, it should be in a designated travelling seat with the three point seat-belts in use.

Look out for the red seat-belt symbol next to the layout to indicate the availability of designated rear travel seats which have been tested and approved as fully compliant with european whole vehicle type approval for your total safety and peace of mind.

Situation	Front Seat	Rear Seat	Responsibility
Driver	Seat belt must be worn if fitted	-	Driver
Child under 3 years of age	Seat belt must be worn if fitted	Correct child restraint must be used	Driver
Child from 3rd birthday up to 135cm in height or 12th birthday, whichever they reach first.	Correct child restraint must be used	Correct child restraint must be used where seatbelts are fitted. Must use adult belt in rear seat if correct child restraint is not available.	Driver
Child 12 or 13 years of age or over 135cm in height	Seat belt must be worn if fitted	Seat belt must be worn if fitted	Driver
Adult passengers	Seat belt must be worn if fitted	Seat belt must be worn if fitted	Passenger

# Grade 3 Insulation

Auto-Sleepers have received a major boost for its new 2015 motorhome range with news their range of prestigious award winning van conversion models successfully achieved the Grade III classification for heating and thermal insulation. This means that every model from the Cotswold manufacturer excels in any environment to deliver luxurious year round touring comfort.

The classification was achieved after completing rigorous testing inside Truma's state of the art Cold Chamber facility in Derby. Here the vehicles were subjected to extreme temperatures of -15°C, which is extremely challenging for an all steel body to overcome as it absorbs the cold and fights the heating system.

In order to achieve Grade III status, the centre of the interior must achieve a minimum temperature of +20°C within a 4 hour period despite the freezing temperatures surrounding the vehicle throughout the test. Auto-Sleepers new tank heater blankets, which form part of the new winter pack, allow for free flowing water meaning Auto-Sleeper will excel in any environment for true motorhoming freedom.

## Tomorrows Paint Protection - Today

G-3 Glasscoat is a complex formula, ceramic hardened glass finish, that bonds to your motorhome's paint surface. It's ceramic technology ensures that the product also demonstrates some self cleaning properties. G-3 Glasscoat repels liquids and is extremely resilient to all kinds of damage. Damage caused by acid rain, pollution, solvents and road salt are no longer an issue. It possesses an exceptional ability to resist the effects of car washes, solvents, animal and vegetable deposits.

## No Maintenance Means Peace Of Mind

In our opinion, products requiring conservers, topups, polishing or general maintenance are inadequate and unsuitable for their purpose, and do not provide consumers with value for money.

G-3 Glasscoat is upto 4 times thicker than existing flouro polymer type protectors, and is 10 times more durable than most other products. This unsurpassable and consistent performance means that only G-3 Glasscoat comes with a standard 5 year guarantee. No conservers or polish wax maintenance are required.

## Advanced Technology

The Gen-3 Glasscoat protection system utilises technology so advanced NASA used it for their space program. It delivers exceptional potection in extreme temperatures and the very harshest of environments.

PROTECTION FROM	G-3 GLASSCOAT GENERATION 3
HOT WATER	★★★★★
COLD WATER / FROST	★★★★★
ACID / ACID RAIN	★★★★★
ANIMAL & VEGETABLE DEPOSITS	★★★★★
HYDROCARBONS	★★★★★
ENVIRONMENTALLY FRIENDLY	★★★★★
SOLVENTS	★★★★★

## Exceptional protection inside too

As well as providing market leading protection, for your paint, glass & alloy wheels, the G-3 Protection Collection comes complete with world class stain proofing, to ensure that your interior stays as good as new too.

For more information on having your Auto-Sleepers motorhome protected with Gen-3 Glasscoat contact Paintseal Direct on 01283 703777 or visit: [www.paintsealdirect.com/auto-sleepers](http://www.paintsealdirect.com/auto-sleepers)

Gen-3 Glasscoat from Paintseal Direct is the only protection recommended by Auto-Sleeper to provide the ultimate protection on your new Motorhome, ask for it by name to avoid imitations

# No ordinary company. No ordinary motorhomes.

Auto-Sleepers has over 53 years experience in meeting the needs of customers who are looking for the best in British-built motorhomes. Based at Willersey in the Cotswolds, we still take great pride in our hand craftsmanship and design expertise. Great time, care and effort go into the making of an Auto-Sleepers motorhomes and it shows. The furniture, fittings and fitments are all of the highest quality, modern and stylish coupled with quality and innovation, all hand built to offer many years of pleasure. And because our designers use and live with our motorhomes, they know from experience what works and how to make the best use of every cubic centimetre of interior space. That's why so many of our customers keep coming back to us.

## BRAND NEW FOR 2015

**Optional Fiat Ducato 130bhp Comfort-Matic Gearbox on all Auto-Sleeper 2015 Peugeot Models**

Comfort-Matic, the gearbox that ensures an easy, fuel-efficient drive and respects the environment.

The robotic gearbox works for you, offering the strength and precision of a manual gearbox, with the comfort and ease of an automatic gearbox.

The Comfort-Matic also comes with a number of special features designed specifically for motorhomes.

With the Comfort-matic installed all that is left to do is ...

## Enjoy!

## Owners' Club

The Auto-Sleepers Owners' Club was formed in 1989 and now has a membership exceeding 5,000. Closely allied with the Company, membership of the Club is open to all Auto-Sleepers owners. Benefits include a monthly newsletter and rallies throughout the year, both at home and abroad. Enquiry forms are available through the Company or by visiting the club website.

[www.asoc.uk.com](http://www.asoc.uk.com)

For full specification on the Comfort-Matic please visit: [https://www.fiatcamper.com/product/comfort\\_matic](https://www.fiatcamper.com/product/comfort_matic)

# Warranty

*“You can be confident about owning an Auto-Sleepers, because we are confident about the way we build them”*

## Auto-Sleepers Conversion Warranty

---

You can be confident about owning an Auto-Sleepers, because we are confident about the way in which we build them. The conversion work of every Auto-Sleepers is covered by our own two year warranty scheme. The cover is not restricted to mileage and protects all aspects of the conversion. Terms and conditions apply, please refer to your handbook for further information.

## Mercedes-Benz Warranty

---

The base of your motorhome is covered by Mercedes-Benz. You are covered by a 3 year, unlimited mileage warranty (terms and conditions apply, please refer to the chassis manufacturers handbook for details). Because your new Mercedes-Benz is one of the most advanced chassis on the market today, we go to great lengths to provide an equally superior warranty. For these reasons alone, Mercedes-Benz chassis warranties really do go further. Under our cover, your van is safe and secure. With over 100 dealers in the UK and 3,000 more in 29 countries around Europe, the benefits of MobilityGo are always close by.

MobilityGo covers you in two main areas; starting problems or mechanical breakdown out on the road.

If either of the above situations occur, MobilityGo entitles you to speedy roadside assistance, and if the problem cannot be quickly resolved, recovery to the nearest Mercedes-Benz dealer. From here - and depending upon your requirements - the dealer may offer you:

- Use of a taxi, or public transport up to the value of £55 inc. VAT
- Vehicle collection and delivery, within a 25 mile radius
- Provision of alternative transport, within 25 miles of the dealership
- A replacement vehicle for up to five days (Subject to availability)

## Peugeot Warranty

---

All motorhomes first registered in the UK and purchased from a UK Peugeot Approved Manufacturer benefit from a Peugeot 3 Year unlimited mileage warranty and an 8 year paint guarantee provided by the Peugeot Dealer Network in the UK. This additional warranty carries a mileage limit of 100,000 miles from first registration and is dependent upon the manufacturer's recommended servicing being carried out at the specified time or distance intervals. For full terms and conditions, please consult your Peugeot Dealer in the UK.

All new Peugeot motorhomes come with 12 months' Peugeot Assistance - breakdown assistance service. Peugeot Assistance includes European cover, homestart, roadside assistance, vehicle recovery and a free replacement car or hotel accommodation if required. For this service call 0800 294 0294

## Volkswagen 3 Year Whole Warranty

---

Consisting of a two year unlimited mileage manufacturer's warranty and one year Van Centre warranty. In the third year the warranty continues until a maximum of 100,000 miles. Third year is only available on vehicles purchased and registered in the UK through an approved Volkswagen "Specialist Converter", an approved Volkswagen motorhome dealer or a Volkswagen Van Centre. Warranty excludes non-durable parts such as brakes and clutch.

In the unlikely event of a breakdown, your vehicle is covered by a comprehensive roadside assistance package. Anyone driving the vehicle, with your permission, is also covered. The service operates 24 hours a day, 365 days a year. Three year UK roadside assistance provided by Volkswagen Emergency Assistance is subject to terms and conditions. Further details are available on request from your nearest Volkswagen Van Centre.

# Service

Open: Monday - Friday, 7:30am - 5pm

## Auto-Sleepers Aftercare & Service Centre

The Auto-Sleepers Service Centre caters specifically for the needs of the motorhome and caravan owner. Located on site at the Auto-Sleepers factory in Willersey, Worcestershire, we offer mechanical and conversion servicing, accident and insurance repairs, annual habitation checks, MOT testing, accessory fittings, modifications and refurbishments.

The Service Centre is manned by experienced, fully trained staff most of whom have completed many years service with the company. Although specialising in Auto-Sleepers models, work can be carried out on any type of vehicle or caravan irrespective of make but please note we are unable to undertake warranty work on other manufacturers vehicles.

Our most popular services offer two levels of mechanical servicing on motorhomes and the annual habitation checks. The Silver service for vehicles covering less than 10,000 miles per year and the Gold service for vehicles covering a higher mileage. Each option provides thorough inspection and maintenance of the vehicle including tyre and brake fluid checks, oil and filter changes and road testing (motorhomes). The habitation checks cover the rest of the motorhomes/caravan chassis, body, fixtures, fittings and includes full gas and electric system checks.

We offer modifications to customers' motorhome requirements, for example changing of seating configuration from dinette to bench seat and visa versa, additional water tanks, Side access hatches, additional work surfaces and bespoke tables and cabinets. In addition we can convert many 2 berth models to 4 berths or the reverse if required and we also offer upgrades to water and heating systems.

Service Department +44 (0) 1386 853511

## Auto-Sleepers Parts Department

The Auto-Sleepers Parts Department aims to provide parts for Auto-Sleepers old and new. When contacting this Department, customers should have to hand the Auto-Sleepers production number of their vehicle. We endeavour to provide parts for older vehicles, but are unable to guarantee to supply parts that are no longer manufactured by our suppliers.

Parts Department +44 (0) 1386 842630
