FRANKIA MOTORHOMES 2011

Real Workmanship – Made in Germany

Of course, you can rely on the latest technology being used in the motorhome production. But what really matters is perfect craftsmanship and the passion of the people who develop and build the motorhomes. This marriage between enthusiasm and perfection makes FRANKIA so unique. We are building every motorhome as if it was our own. This is also the reason why many innovations that have revolutionized the entire motorhome industry originate from the FRANKIA think tank. The FRANKIA team is always looking for innovations which will make a motorhome holiday even more comfortable

MADE IN GERMANY

Welcome to FRANKIA! Directly in front of the new customer service centre in Marktschorgast / Upper Franconia, the FRANKIA customers can find a motorhome parking space with supply and disposal facilities. In Marktschorgast the FRANKIA motorhomes are produced. Quality made in Germany. We place our emphasis on this with the best interest of our customers all over Europe in mind.

Individually designed layouts

Custom design in motorhome construction

FRANKIA motorhomes are no mass products. Because FRANKIA customers are the centre of our attention we realize your wishes and individual needs within the bounds of technical possibility (with surcharge). Let your personal taste decide. Where possible we realize layouts with your personal specifications. All FRANKIA motorhomes have comfortable serial equipment. Thanks to the large choice of special equipment you can give your motorhome an individual note. Because we want your motorhome to be tailor made to your personal needs.

Standard layout with GD beds

This layout has been changed according to the customer's wishes

and pleasant. Sometimes these are only small improvements, but often also revolutionary innovations. Like for example the heated double floor which has made the FRANKIA motorhomes winterproof for 15 years already. The variable washroom / shower room is another FRANKIA idea which makes travelling even more pleasant. Discover these special features and go on a journey with FRANKIA!

FRANKIA-patents*

Replacement Thetford toilet cassette

Due to the double toilet capacity you can travel independent of supply and disposal facilities longer.

Diagonal TV- pull out

If required the TV compartment can be lowered to a comfortable viewing height.

Table can be moved all the way to the driver's cab

Without much effort, the table can be moved to the driver's cab which gives you even more space in the living room

Central supply and disposal unit

Simple and practical: The fresh water and waste water tubes as well as the power supply are all situated in one compact locker.

*These are patents as well as partly utility patents.

MADE IN GERMANY

Convertible washroom

The revolution of motorhome bathrooms: By turning the washroom wall with one simple move of your hand, the separate toilet and shower become one large bathroom.

More on page 45

Lowering washbasin

Due to this development, the washbasin can be installed above the toilet, which saves space. Therefore completely new design possibilities can be realized also for shorter models.

More on page 44

Duo-beds in coachbuilt and A-Class models

These duo-beds with slatted frame are so large (2 x 2 m) that you can choose if you would like to sleep next to each other in driving direction or crosswise to it.

Backrest lift (for FF2/FF4)

The backrests of the cozy round seating group can simply be moved upward – and your bed is ready.

Chassis and layout?

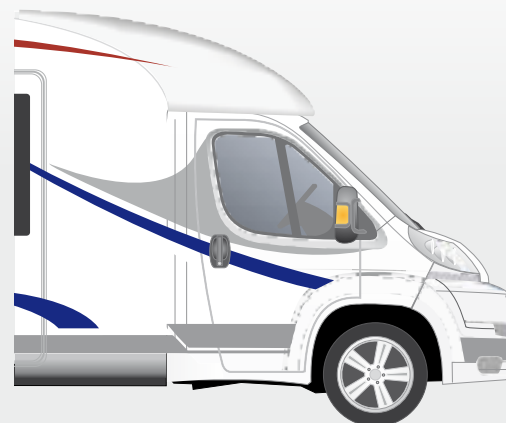

Feel free to combine!

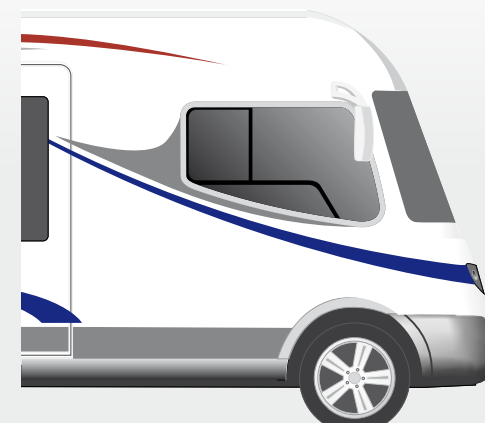

Your chosen layout ...

... Coachbuilt

... Low-profil

... A-class

FRANKIA shows absolute flexibility, even with the choice of chassis and motorhome type: Every chosen layout can be built as A-class, low-profile or coachbuilt model. And this is true for all motorhome lengths from CompactClass to LuxuryClass, on Fiat or Mercedes chassis (no coachbuilt models for Mercedes chassis).

Motorhomes **with Class**

compact class

TYPES **640 6400** →

With FRANKIA, compact does not mean small. But flexible and practical, however still with the right amount of comfort for pleasant holidays. The motorhomes of the CompactClass are ideal for people who travel frequently, also to the exciting cities of Europe and would also like to explore winding roads in the mountains. Special highlights of the CompactClass are the low-profile floor plans FF2 and FF4 with their sophisticated seating group technology.

holiday class

TYPES **680 6800** →

You can spend your holidays wherever your mood takes you with the FRANKIA HolidayClass. If you like extended holidays combined with city trips, the HolidayClass models are exactly what you need. Because they offer plenty of space and storage room, but remain flexible and manoeuvrable so that you can easily drive through narrow streets and cities.

comfort class

TYPES **740 7400** →

The FRANKIA ComfortClass promises comfort all along the line and lives up to it. The generous space with many standard extras will convince you at first sight. Independent of camp sites – with the fully equipped kitchen, spacious bath and comfortable beds, even families with children have enough space for carefree holidays.

exclusiv class

TYPES **790 7900** →

In a class all its own and brand new at FRANKIA: the ExclusivClass. The trend is moving towards higher value motorhomes. The excellent equipment and living comfort of the ExclusivClass are close to the LuxuryClass. With a length of 7.9 m the motorhomes of the ExclusivClass are about 50 cm shorter which can be an advantage on ferries and narrow streets.

Seven classes, three building types, four chassis and plenty of possible combinations. FRANKIA offers such a wide product range that really everyone will find a motorhome that matches his personal requirements.

luxury class

TYPES **840 8400** →

Luxury can be taken literally here. The motorhomes of the FRANKIA LuxuryClass meet the highest demands regarding technology, space and equipment. Roomy wardrobes, variable storage space, large, cozy beds and utmost comfort in bath room and living room make the LuxuryClass the perfect companion for long and extensive journeys.

premium class

TYPES **880 920** →

The FRANKIA PremiumClass gives you absolute freedom during your motorhome holiday. Needless to say that the living comfort and interior equipment are on the highest level. The special feature of this class is the IVECO chassis. With the high trailer weight of 3.5 t, you even have the possibility to transport a boat and the rear garage offers enough space for further racy accessories.

royal class

TYPES **8800 9800** →

The FRANKIA RoyalClass is ideal for the motorhome traveler with superior demands. The motorhomes of the RoyalClass are perfect for people who would like to travel in a mobile, luxurious holiday flat.

For more detailed information, please see the RoyalClass catalogue. Simply order a free copy!

INDIVIDUAL →

Motorhomes for individualists with highest demands. From layout to fabric selection, with RMB all motorhomes are designed individually as per the customers' requests.

For more detailed information, please see the RMB catalogue. Simply order a free copy!

Coachbuilt motorhomes are the classic vehicle for families. Especially the ED floor plan with bunk beds is very popular with families. Of course, there are also many other reasons to choose a coachbuilt model. Also when you are enjoying a holiday as two: the exceptional shape, the convenient passenger door and above all the comfortable luton bed with the star view window do not only inspire the romantic.

FRANKIA

Coachbuilt models are available in the following classes:

compact class

holiday class

comfort class

exclusiv class

luxury class

Coachbuilt

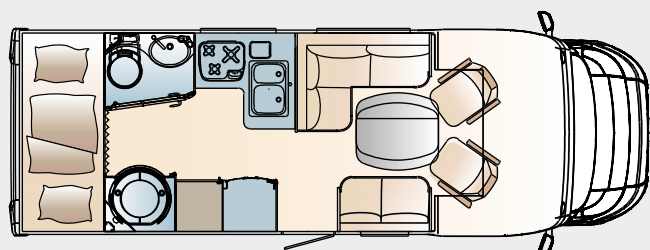

Perfect family flat

The A 680 ED from the HolidayClass is the ideal partner for motorhome holidays with a family. The bunk beds in the rear which can be separated visually are perfect for the children and the luton bed will provide peaceful sleep to the parents each night. Due to the intelligent layout, the living room is spacious enough for games and relaxation when the weather is bad. There even is a large bed (duo bed) like at home.

The classic A 680 ED

Coachbuilt models overview

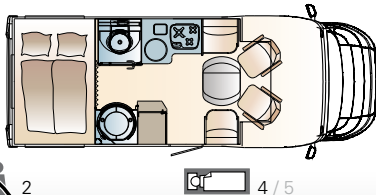

Typical for Frankia: The complete selection of layouts in any length up to LuxuryClass can also be chosen as coachbuilt model. Only limitation: All coachbuilt models are only available on Fiat chassis.

Key

The increasing popularity of the low-profile models speaks for itself. They are the all-rounders of motorhomes. Dynamic and sporty handling combined with well-thought-out use of space. The highlights of the low-profile layouts are the two unique FRANKIA models: FF2 and FF4.

FRANKIA

Low-profile models are available in the following classes:

compact class

holiday class

comfort class

exclusiv class

luxury class

low-profile

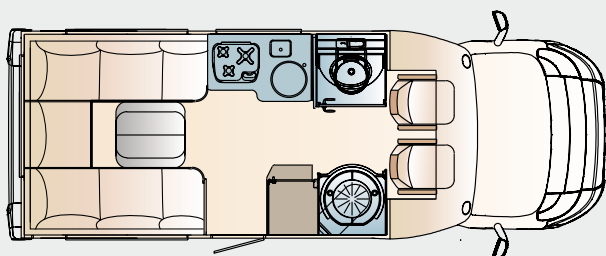

The motorhome for two

Thanks to its clever technology, the FF2 is the ideal companion for couples who would like a small motorhome which offers the comfort of a bigger motorhome. Special feature: The round seating group in the rear can easily be converted to two comfortable beds – simply pull up the backrests of the seating group. There is enough space in the large drawer under the bed to store your sheets.

The FF2 is a manageable, flexible car with only 3.5 t total weight but with a remarkable payload of approx. 500 kg.

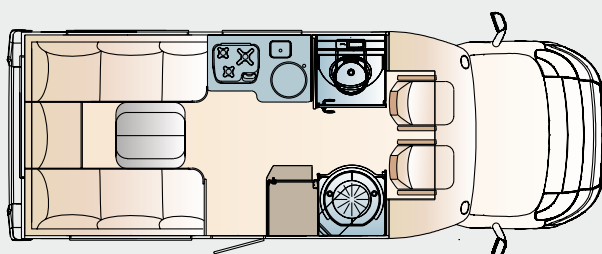

Perfect for **two**, but also ideal for **four**

The brand new FF4 layout is the further development of the FF2. With this model, a couple can enjoy the advantages of a small and manageable vehicle and still be flexible enough to have further passengers e.g. grand children. In addition to the two separate beds in the rear, the large electric drop-down bed can be lowered from the ceiling and offers plenty of sleeping comfort for two further passengers. Another highlight is the newly developed table which can be moved without runners and still provides a safe stand due to its special technology.

FF4

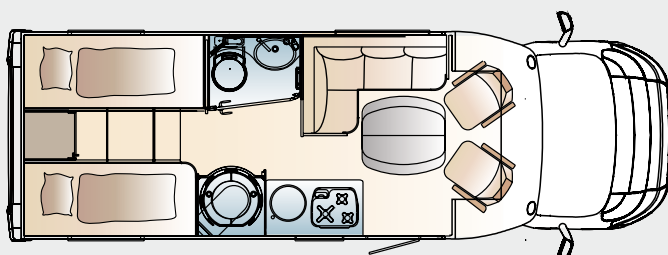

Lean measurements with inner values

The T 6800 GD is a classic low-profile motorhome for two persons. The two separate rear beds allow for undisturbed sleep, the cozy seating group invites you to relax, a perfectly planned kitchen and plenty of storage space round off this practical motorhome.

The classic T 6800 GD

Low-profile models overview

The increasing popularity of low-profile motorhomes is of course also reflected in the available selection of floor plans. Besides the floor plans available in all building types, therefore also as low-profile motorhome, FRANKIA offers two models FF2 and FF4 which have been especially developed as low-profile motorhome.

A-Class

I 790 GD

New and exclusive: **I 790 GD**

A new class for new demands: The I 790 GD from the ExclusivClass is the motorhome for four persons and with eight m length. Four seating places with safety belts, four comfortable beds, the accustomed spacious FRANKIA bath room and lots of storage space offer lots of space also for long journeys. Of course, you can also treat yourself to this exclusive motorhome if you would only like to travel as two ...

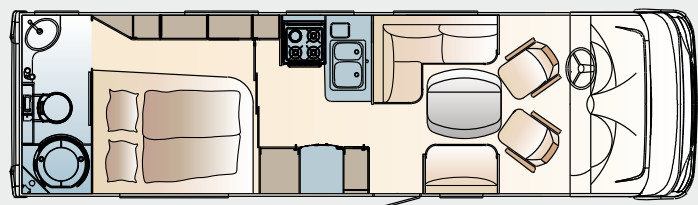

Everyone will envy you for this **Luxury**

How do you define a luxurious holiday? You can do whatever you like, you are completely independent. You stay at the most wonderful places, ideally of course in a motorhome of the FRANKIA LuxuryClass like the I 840 FD. This movable luxury flat can be separated visually into three areas: Bathroom, Sleeping room and kitchen/living area. From the very comfortable beds, to the large wardrobes and to the illuminated design glass cabinet, this A-Class motorhome is perfectly equipped.

I 840 FD

A-Class models overview

Since A-Class motorhomes are still the most popular building type, the widest selection is available of course. Hence at FRANKIA: for A-Class motorhomes you can choose any floor plan, in any length, on any chassis. And this at no extra cost.

FRANKIA PremiumClass

With these models you have the freedom of enjoying any mobile comfort during your holidays. The Iveco chassis gives you the possibility to have a rear garage for a small car (here shown I 920 QD-Car) as well as an extremely high trailer weight of 3.5 t allowing you to e.g. transport a boat. Or maybe you prefer to take a quad, scooter or other sports equipment on holiday with you?

I 920 QD-Car

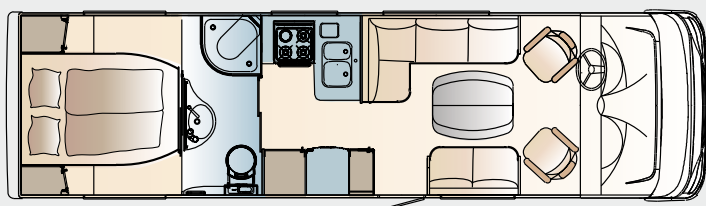

Your mobile dream with **wellness oasis**

Of course, the PremiumClass will also meet your requirements regarding the living comfort. At first glance the perfectly equipped kitchen and the high-quality design seating group will win you over. A real highlight awaits you in the rear of the PremiumClass: a queens bed positioned in the middle – TV in front of bed - and a unique wellness oasis like bath room. With the free standing wash room table the FRANKIA PremiumClass once again sets the trend.

I 880 QD

More **room** – More **relaxation**

With the VarioSpace model, you can turn the living room into a comfortable lounge simply by pushing a button. Within seconds, the couch becomes a cozy place for relaxation on which two people can put their legs up. In addition, the slide out makes the whole living area a lot more spacious. This technology is only available from FRANKIA.

A-Class models of PremiumClass overview

All motorhomes of PremiumClass are built on IvecoChassis.

Functional **design**

Combining beautiful and useful design ideas

This has been an important part of the FRANKIA philosophy for many years. Especially in motorhomes, small details and technical finesses make up the living comfort. By turning up the armrests on the side seating bench, nothing is in the way if you want to put up your legs. With a FRANKIA motorhome you can conclude a beautiful day in a pleasant atmosphere.

The right **seating group** for every need

L-shaped seating group with seat belt

L-shaped seating group without seat belt

Depending on your personal requirements, you have the choice between 2 and up to 6 seats with safety belt.
The oval table top harmonizes perfectly with all seating group variations.

Adjustable side seating bench with seat belt

Seating group couch with seat belt on driver side. Despite room for your feet, there is still a high storage space.

Variety of colours for the living area

Leon

Sahara

FRANKIA upholstery fabric, classic or modern, high-quality in each case: Find your favourite in our selection of two different upholstery designs. As an option FRANKIA offers a large variety of microfibre or exclusive leather upholstery.

Microfibre

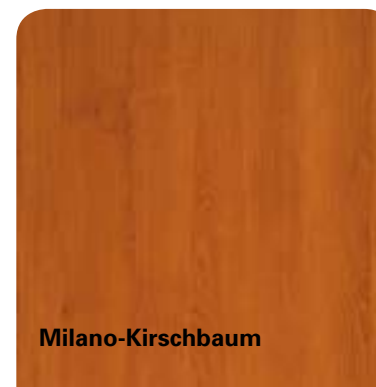

Leather

You can also choose your preferred furniture design: The standard for FF2 / FF4 as well as Compact and HolidayClass is furniture in Goldberg Ahorn. With ComfortClass, LuxuryClass and RoyalClass the furniture surface in Milano Kirschbaum creates a completely new rich ambiance. Of course, you can also choose this luxury design wood as an option for all other FRANKIA motorhomes.

Goldberg-Ahorn

Milano-Kirschbaum

The lowering washbasin

FRANKIA bathrooms point the way

A motorhome is only well equipped if it has a comfortable bathroom. High-quality steel fittings, a separate shower, large lighted mirrors – NEW with magnifying mirror – and a lot of storage space are a matter of course for FRANKIA. A new FRANKIA development is the lowering washbasin with which completely new design possibilities for layouts can be realized.

Illuminated mirror cabinet

The new shower cubicle

Refreshing ideas for the **mobile bathroom**

The variable bathroom, a FRANKIA innovation, is a revolution in motorhome bathroom design. You have a large bathroom and your motorhome does not have to be much longer. With a simple swing you have a spacious bathroom in seconds. With a swing back, the spacious living rooms is restored. Like this, showering in your motorhome becomes real fun and you are completely independent from other sanitary facilities.

Savour to the fullest

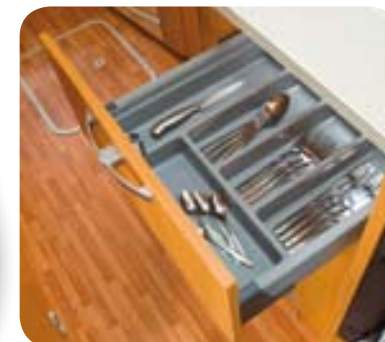

Cooking is more fun when you have everything at hand. This is why FRANKIA attaches great importance to intelligent and space-saving kitchen design. All FRANKIA kitchens come with 3-burner-hob, refrigerator, extractor hood with washable filter and double sink (depending on floor plan). The drawers for supplies and crockery are self-closing. Passionate cooks and families can choose as an option gas oven, 4-burner hob (of which one 230 V hot plate) or a 160 l refrigerator with freezer compartment (part of these are standard equipment for LuxuryClass).

**Clever detail:
sink cover is
also a chopping
board**

**Additional place of deposit in drawer
(only with L-kitchen)**

Large cutlery tray

Everything stays fresh and hygienic

Cupboard for supplies with large drawers

Intelligent **rear garages**

Rear garage
one part

Rear garage
(two parts) with
practical drawer
for supplies and
luggage.

The FRANKIA rear garages are a perfect combination of space and individual design possibilities. According to your needs, different loading ramp systems for bikes, motorbike, quad or with RoyalClass even for a car can be fitted.

Garage for quad

Rear garage with the optional motorbike fixation

RoyalClass garage for car

**White**

Impressive exterior design

**Grey-line****Silver-line**

Give an individual note to your FRANKIA motorhome with one of the different outside paints. Do you prefer the classic white, the sporty white-silver combination "Grey-line" or the elegant silver of "Silver-line" (Grey-line and Silver-line with surcharge)? In each case, you choose a current design which matches your taste and is perfect for your motorhome.

Heating concept

Truma air heating

Alde warm water heating

A good heating system in the motorhome is really important especially for travels in winter. With FRANKIA, you have the **choice between 2 heating systems**.

FRANKIA has been offering the **air heating TRUMA** for a few years already. This heating system enables a rapid warmth production and is operated with gas.

Alternatively, FRANKIA also offers the FRANKIA Polar heating (standard for ExclusivClass, LuxuryClass, PremiumClass and RoyalClass, option for the other classes). This **warm water heating** makes the heat distribution in the whole motorhome possible, from the cabin to the rear bed. As this system needs quite

Air heating:

energy: Gas / Diesel
Supplier: Truma

Warm water heating FRANKIA polar heating:

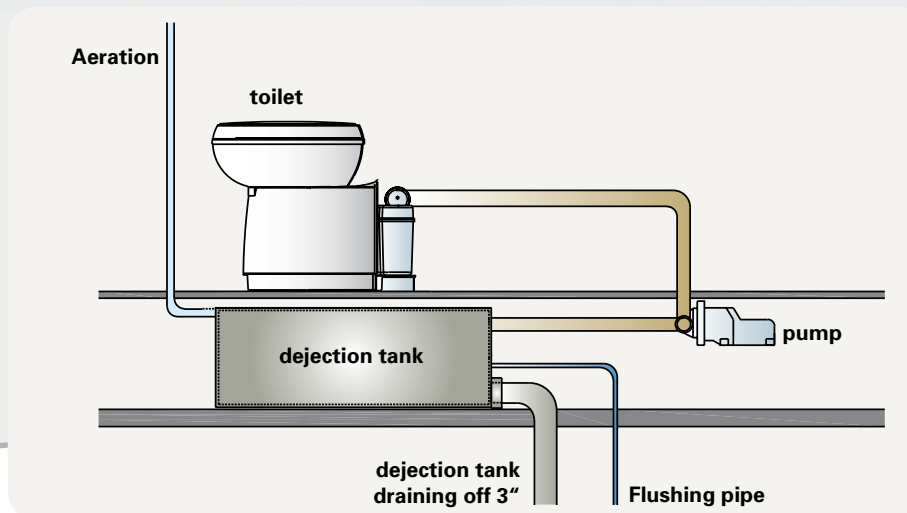

energy: Gas
Supplier: Alde

a long time to get cosy warmth, the FRANKIA Polar heating is supported by the auxiliary heating of the chassis as standard. The auxiliary heating compensates this delay in heating time because it quickly warms the whole interior space via the grilles in the driver's cab. This support is especially ideal in-between seasons (outside temperatures $>+ 15^{\circ}\text{C}$).

Supply and disposal

Two Thetford cassettes

Central services unit

FRANKIA delivers as standard for all motorhomes from the ComfortClass up a replacement Thetford cassette. Thanks to that, you have more freedom and self-sufficiency. (FRANKIA utility patent)

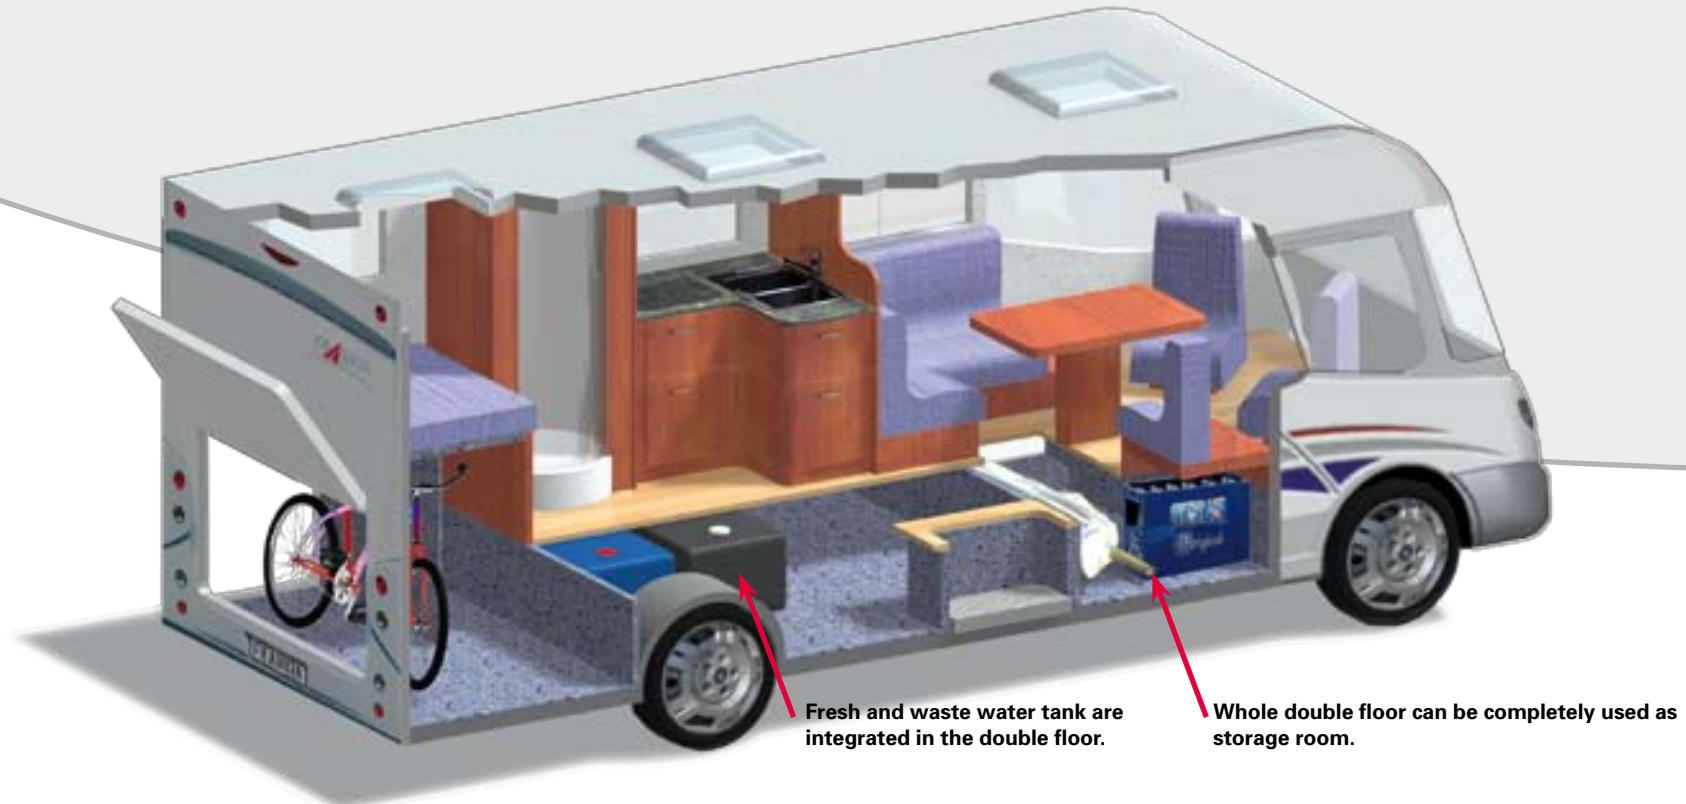

If you travel in countries in which it is not often possible to clean up your sewage, FRANKIA offer for the LuxuryClass, PremiumClass and RoyalClass a dejection tank 80 l (option). The advantage is that you have the traditional Thetford cassette and you use the dejection tank with the help of a pump only when you need it.

Thanks to the double floor concept of FRANKIA, the tank is situated in the double floor and remains frost free (down to -15°C).

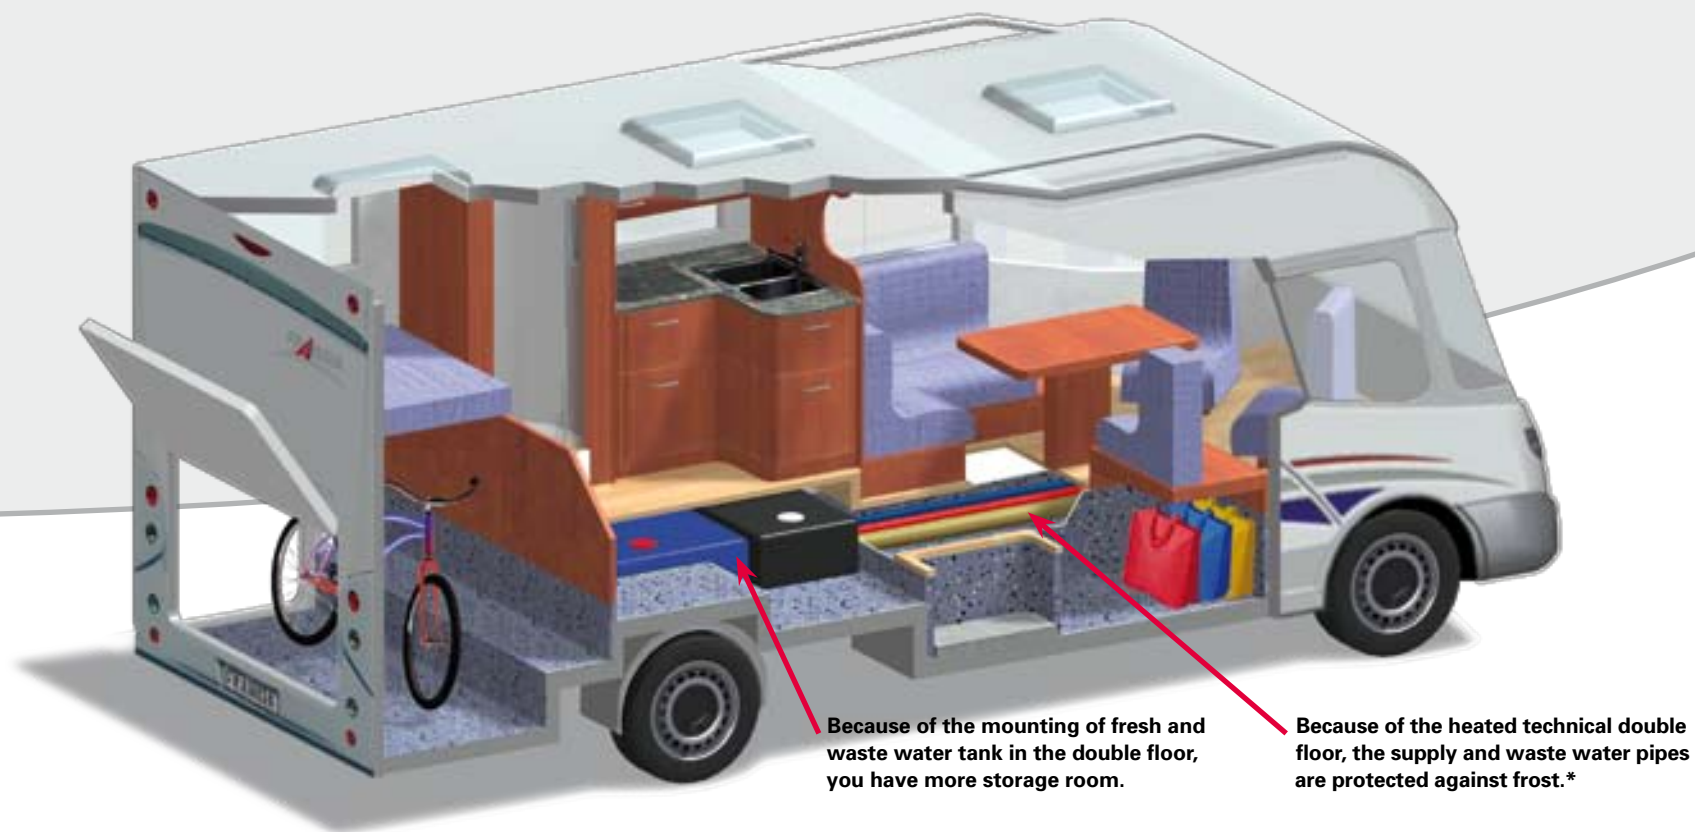

The original **double floor** concept

A plus of storage space and comfort

At last, the holidays start and you can find time for your hobbies. Thanks to the double floor in a FRANKIA motorhome you have all the storage space you need for your sports equipment. Golf or fishing equipment, skiing gear or snowboard, everything can be stored safely and theft-proof.

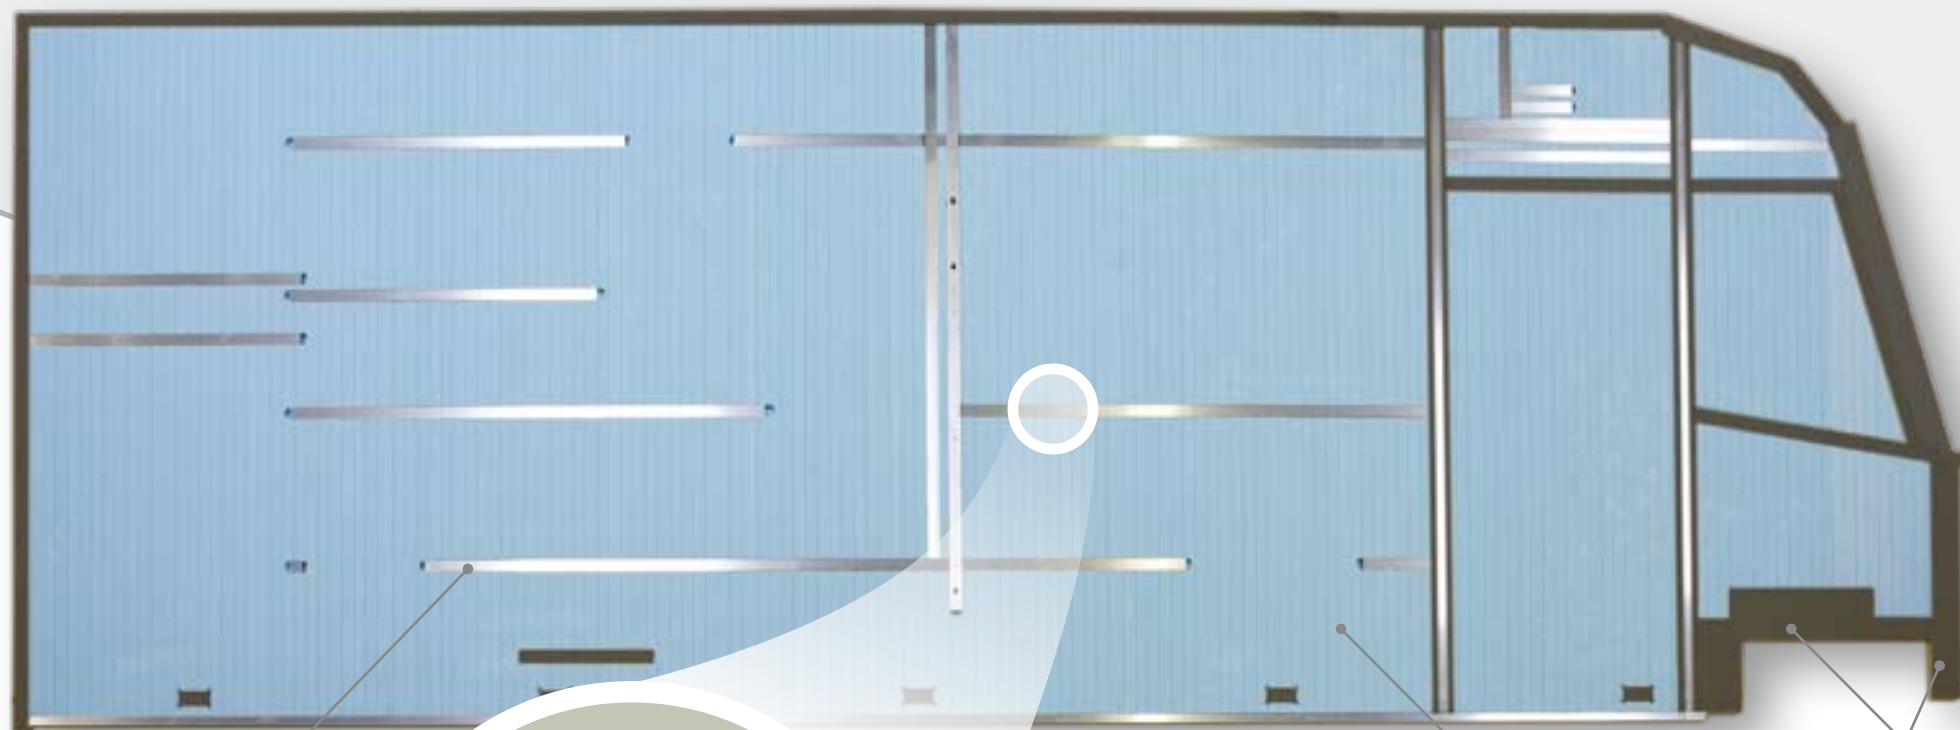

All FRANKIA motorhomes on Fiat chassis as well as the CompactClass and HolidayClass models on Mercedes chassis have a real FRANKIA double floor. Thanks to the ALKO low frame chassis, all these models have a continuous double floor usable as storage space. FRANKIA stands for perfection and individuality even in details: For optimal use of the storage spaces FRANKIA designs a special double floor for each layout.

All ComfortClass and LuxuryClass motorhomes on Mercedes chassis are built on a Mercedes high frame chassis with FRANKIA double floor. Thanks to a step in the rear area the fresh and waste water tanks are installed in the heated double floor. Side lowerings on both sides provide more storage space. The upper rear area gets a tail unit which is now a striking characteristic in the design of the big FRANKIA motorhomes on Mercedes chassis.

* Thanks to the FRANKIA double floor which is heated, all fresh and waste water pipes are frost-free (up to -15°C).

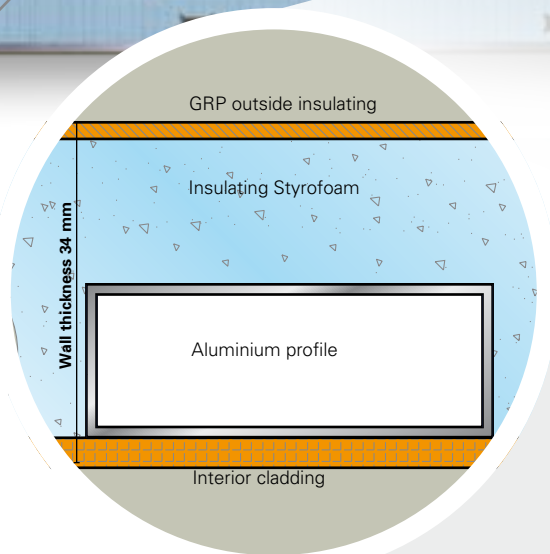

Well protected in any weather

Aluminium profile

Insulating Styrofoam

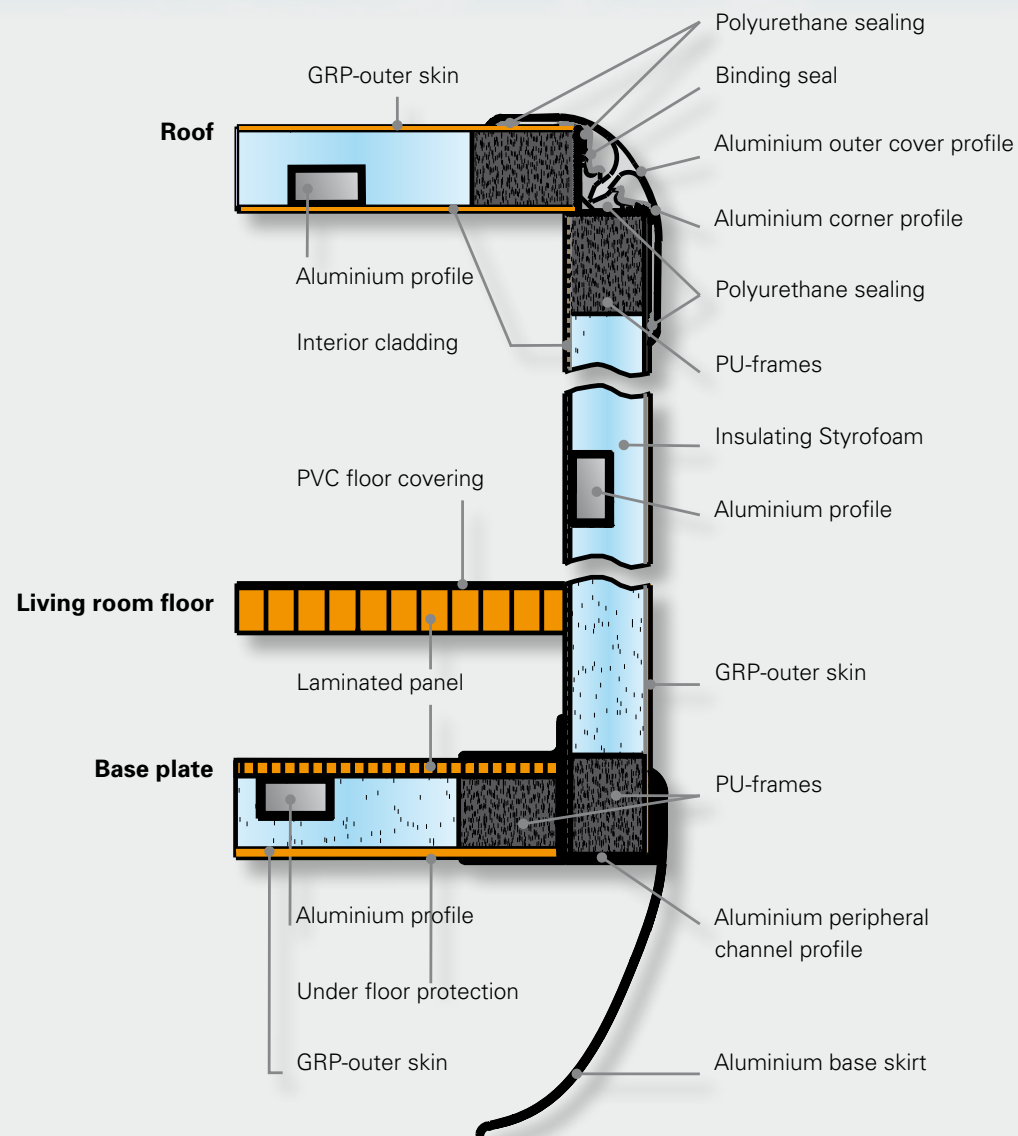

PU-rods

The construction is crucial!

The construction quality is one of the most important points when choosing your motorhome because it is essential for the living space climate and the stability of the motorhome. This is why FRANKIA expends special care to this point. With Frankia motorhomes, not only the roof and floor are out of GRP but also the outer walls.

The FRANKIA construction concept is based on the well-tried glass fibre (GRP) outer skin with high-strength aluminium profiles instead of wooden profiles. This, combined with cleverly-devised damp-resistant insulation made of Styrofoam, results in a structure which decrees optimal climate characteristics. The Styrofoam insulation is moulded around the aluminium profiles for a better stability of the walls and to avoid thermal bridges.

- Equipment list FRANKIA model 2011, the equipment can differ according to the chosen model and layout. The motorhomes are partly shown with special equipment which is available against surcharge. Your FRANKIA dealer will be happy to discuss these details with you. Changes concerning construction, equipment and errors are not excluded.

Standard equipment

Alko low frame chassis Fiat and Mercedes (6400/6800/7900 6t/8400 6 t)

GRP outer skin with double floor

Outside light

Heated and electrically adjustable outside mirrors (A-Class models)

Illuminated entrance with electric step

Electric windows (A-Class models)

Mesh wire door plissé for body door (option for FF2/FF4)

S7 aluminium window with tinted glass

Midi Heki (standard for low-profile models)

Mini-Heki

Standard equipment

Central services unit (option for FF2/FF4)

Topping-up hose

Replacement Thetford cassette
(option FF2/FF4)

External TV storage unit (depending on layout)

Fresh water tank

Waste water tank

Rear with 3rd brake light

Rear lights in modern design

Side sun blind (A-Class)

Black out blind for coachbuilt and low-profile
models (option FF2/FF4)

Black out blind for A-Class models

Rear stabilizers (option FF2/FF4)

Standard equipment

Comfort seats with 2 armrests and integrated safety belt, assorted upholstery (Fiat A-Class and PremiumClass)

Swivel seat with height and tilt adjustment (Mercedes A-Class)

Comfort seat with 2 armrests, assorted upholstery (Fiat coachbuilt and low-profile models)

Comfort seat with 2 armrests, assorted upholstery (Mercedes low-profile models)

Roomy wardrobe

Seating places for 4 persons (depending on floor plan)

Seating bench with adjustable armrest. You can easily stretch your feet out.

Carpet for driver's cab and living room (option for FF2/FF4/Compact/HolidayClass)

Standard equipment

Electrically adjustable drop-down bed, only possible for A-Class and FF4 (option for Compact/HolidayClass)

Shoe / service compartment at the entrance (depending on floor plan)

Indirect lighting with canopy

Tower rail on bathroom door (depending on floor plan)

Frankia polar heating (option for Compact/Holiday/ComfortClass) – not possible for FF2/FF4

Truma Combi 6 heating

Ceramic toilet (option for FF2/FF4)

Charger with digital display

Pressure regulator Secumotion for gas bottles

Wastebin on door

Marble effect kitchen worktop and washbasin (option for FF2/FF4/Compact/Holiday/ComfortClass)

Metal mixer tap in kitchen and washroom

Standard equipment

Fridge RM 8501 / 91 + 9 ltr (106 ltr when freezer compartment in removed) with light/AES (the photo shows the version with AES which is an option)

Fridge 160 ltr (130 + 30 ltr) (Option for Compact/HolidayClass depending on floor plan)

Rubber foam mattresses

Loudspeaker

Glass cabinet (standard for Luxury/PremiumClass, depending on floor plan)

Practical slide out wire shelves for kitchen utensils (depending on floor plan)

3-burner hob (standard for FF2/FF4/Compact/HolidayClass)

Kitchen console with grill, gas oven, 3-burner hob and 1 hot plate 230 V (option for Compact/HolidayClass, depending on floor plan)

Fume hood with washable filter

Special equipment

Root wood pattern
(option for FF2/FF4/Compact/HolidayClass)

TV cupboard with lowering mechanism

Central services unit (option for FF2/FF4)

Duo bed for coachbuilt models

Duo bed for A-Class models

Freezer Waeco CoolMatic CRF-50

Cupboards instead of drop-down front bed

Electrically adjustable drop-down bed (standard FF4/Comfort/Exclusiv/Luxury/PremiumClass)

Special equipment

Gas oven

Flatscreen TV

Navigation system with Radio and DVD

Dolby Surround

Kitchen console with grill, gas oven, 3-burner hob and 1 hot plate 230 V (standard Comfort/Exclusiv/Luxury/PremiumClass)

Combination of 160 l refrigerator with Dometic gas oven

Lights in storage space (standard for Comfort/Exclusiv/Luxury/PremiumClass)

Change-over switch for lamps of bed

Adjustable side seating bench with safety belt (only on right side / depending on floor plan)

Marble effect kitchen worktop and washbasin (standard for Exclusiv/Luxury/PremiumClass)

Special equipment

Rear view camera

Back-up help sensors

Roof rack and ladder

Truma Saphir Vario air-conditioner

Air conditioner B 2200

Ventilator with charcoal filter for Thetford toilet

Solar panel

Sinus inverter

Drawer for rear garage

Bike fixing

Motorbike carrier

Dejection tank 80 ltr

Special equipment

Insulation glass in cab (only possible for A-Class models)

Electric black out blind for A-Class models (standard for PremiumClass)

Generator

Insulation mat for A-Class models (also available for coachbuilt and low-profile models)

Awning

Electric rear stabilizers

ALKO air suspension

Aluminium rims for Fiat/ Mercedes 6400/ 6800/7900 6 t / 8400 6 t

Outside paint "Grey-Line" (standard for PremiumClass)

Outside paint "Silver-Line"

Mains water connection, outside shower and external gas socket

Sat Antenna
