# INCLUSIVE TECHNOLOGY PACKAGE

## BY BÜTTNER ELEKTRONIK

## FRANKIA and BÜTTNER ELEKTRONIK

Two companies permanently striving to be „SIMPLY THE BEST“ and offer innovative technology - well thought-out and reliable even down to the details.

Because experienced motor home drivers know: anyone on the road has to be able to rely on their technology and individual components must be perfectly matched to each other.

„No compromises“ - that was the idea behind the Platinum Edition. With this claim in mind, everything you need for a carefree journey has been integrated into this model - for that wonderful feeling that you're always one step ahead of the future...

**The Platinum Edition - now including a comprehensive BÜTTNER ELEKTRONIK technology package.**

powered by

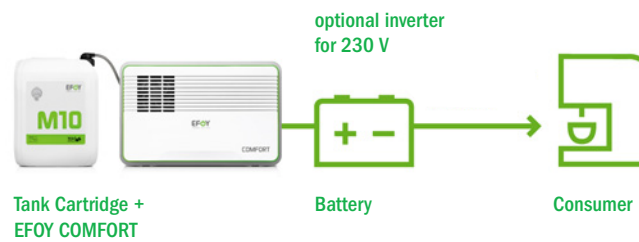

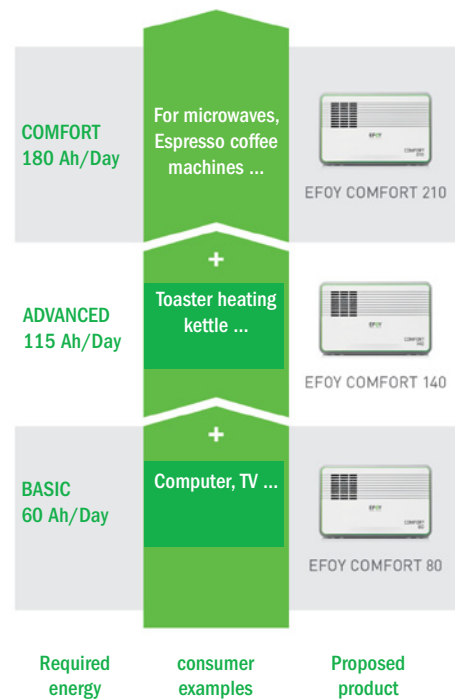

## INNOVATIVE TECHNOLOGY WITHOUT COMPROMISE

- + AGM power batteries**
  - Total capacity 330 Ah
  - High storage capacity for supply on the road
  - State-of-the-art technology
- + 45 A charge booster**
  - With IUoU charging characteristic
  - For the optimal charging of on-board batteries, even over short distances
- + High-performance solar panels**
  - 72 cells with 4x90 Wp, total power 360 Wp
  - High performance even in adverse weather conditions
- + 1,500 watt “K” sine wave inverter**
  - 230 volt appliances can be operated easily anywhere
  - Roof air conditioner also operates at 12 volts
  - Integrated mains priority circuit
- + CAC – automatic computer battery charger**
  - 20 A charging power from the power grid
  - For full charging of the high quality on-board AGM batteries
- + Battery computer**
  - Everything at a glance: „How much energy is consumed?“ „What else is in the battery?“ - and much more
  - Prepared for hybrid control (if an EFOY fuel cell is also installed)
- + Hybrid electronic control**
  - Perfectly prepared: if necessary, an EFOY fuel cell can easily be integrated. The electronics recognise the new power generators and take control of charging.

# FUEL CELL PREPARATION

## MAXIMISE YOUR COMFORT

## How EFOY COMFORT works:

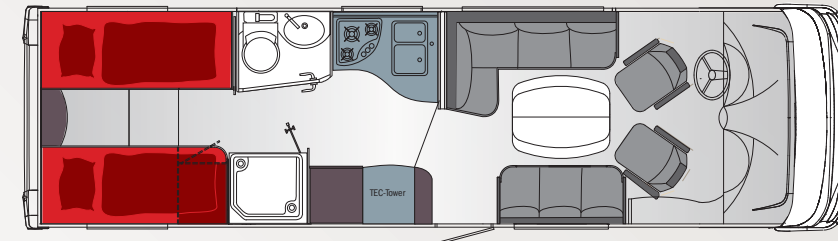

EFOY COMFORT permanently monitors the battery charge status. If it drops below 12.3 V, EFOY COMFORT switches on automatically and recharges the battery.

When the battery is full, EFOY COMFORT also switches automatically to standby mode.

- + For use all year round**  
Under a shady tree, in any weather, in any season. Even in freezing temperatures!
- + Extra quiet**  
With proper installation you won't even hear your EFOY COMFORT. Enjoy the silence!
- + Fully automatic and maintenance-free**  
All you have to do is occasionally change the fuel cartridge. No cleaning or other maintenance required!
- + Environmentally friendly**  
EFOY COMFORT works economically and without undesirable emissions.

**EFOY**  
ENERGY FOR YOU

# THE NEW SPRINTER

# MERCEDES CHASSIS FOR THE FRANKIA PLATINUM EDITION

## Welcome home. No matter where you are.

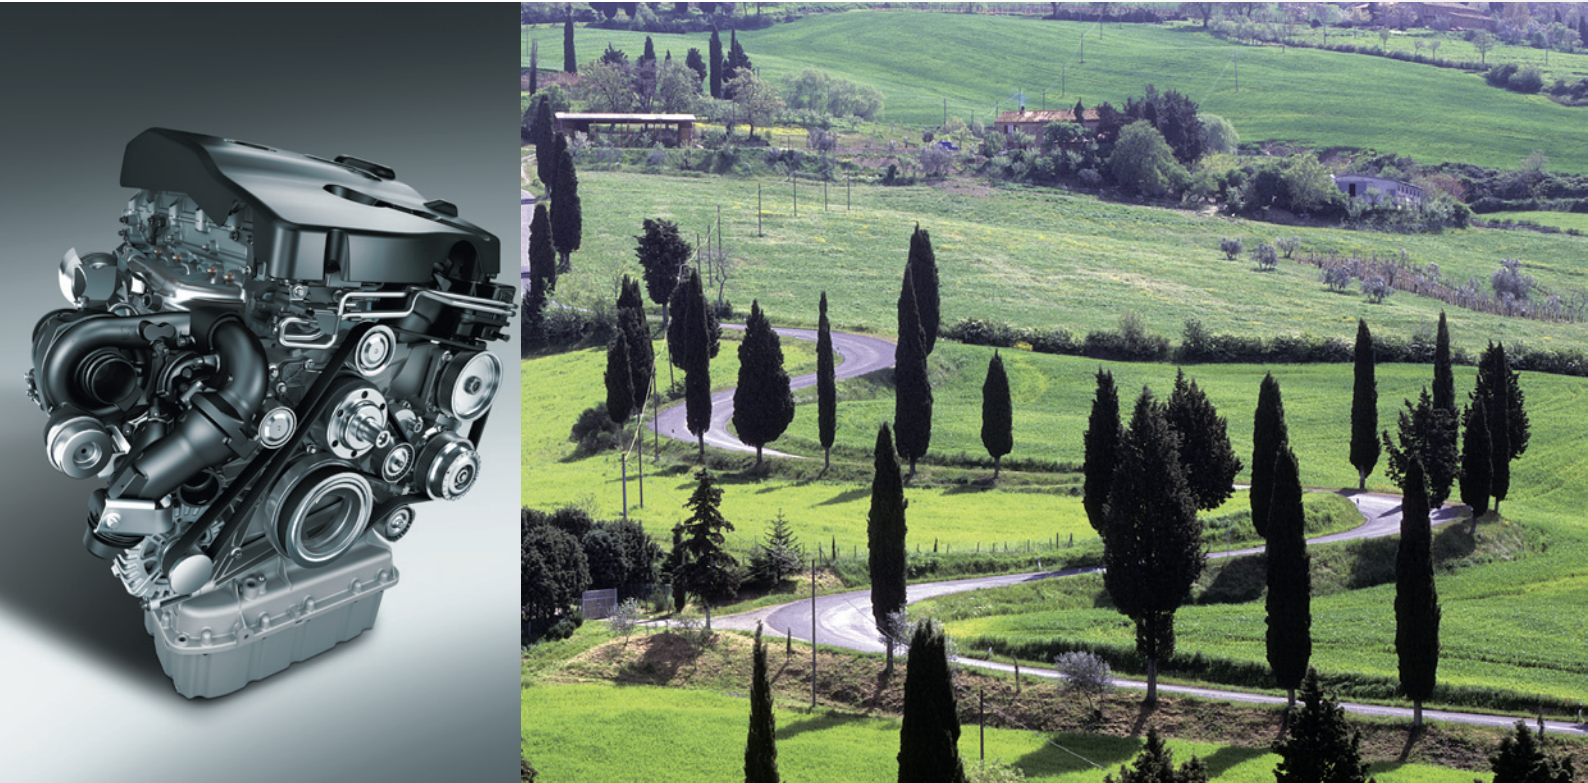

Choose exotic destinations with peace of mind: no matter where you're going or how long the journey, with a Sprinter motor home chassis by Mercedes-Benz you can be confident of your safety, even in critical or unusual driving situations. This means that, on each of your trips, you can focus your attention on the streets and locations outside your window.

Enjoy a pleasant environment, the best possible driving comfort and ease of use, lots of space, ergonomic equipment and many practical details. In terms of reliability, quality, safety, flexibility, sustainability and service, we are continuously developing the Mercedes-Benz motor home chassis.

With the 7G-TRONIC PLUS 7-speed automatic transmission and state-of-the-art engine, the latest generation of motor home chassis meets our high standards in all areas and once again presents itself as a pioneer.

## OUTSTANDING TECHNOLOGY

### For the best Sprinter of all time.

Excellent quality standards and a high resale value also contribute to the Sprinter's overall profitability, in addition to its advanced engine: With the progressive and sovereign V6 CDI OM642 diesel engine, the Sprinter sets new standards in terms of being fuel efficient and future-proof.

The new BlueTEC engine for the new Sprinter provides an economically and environmentally compelling solution: Thanks to the SCR diesel technology, the Sprinter complies with the Euro VI standard. This not only contributes to the cost-effectiveness of the vehicle, but also reduces exhaust emissions, such as nitrogen oxides, and overall consumption.

## ALPHATRONICS S-LINIE

alpha **play**

**LED**  
DISPLAY

**FULL-HD**

RECORDER  
Bluetooth

### Top of the range in mobile TVs.

alphatronics Triple Tuner (DVB-S2 , DVB-T, DVB-C) for high-resolution TV (HDTV), DVD player, USB port, HD recorder, and the highlight: the integrated Bluetooth module - characteristics of the new S-line, which guarantee great entertainment.

Experience a TV that already stands out with its design. Clean lines and high quality workmanship in a unique "glossy basalt" colour. The S-line is a real eye-catcher in the FRANKIA Platinum Edition.
