## Dear motorhome friends and customers,

Taking a trip with a FRANKIA motorhome means discovering new things and relaxing. Our high-quality motorhomes ensure that every journey will be an unforgettable experience for you.

In the production, construction, administration and sales departments, all of FRANKIA's employees are working to fulfil your dream of luxury. That's our maxim and what motivates us each day.

The intelligent FRANKIA modular system allows every wish to be fulfilled just as individually as you'd like. You can put together your own personal motorhome and we're even happy to create customisations for you. We'll build you a home from home.

We've been guaranteeing travel fun at the highest technical specs for more than 50 years. Our customer centre is looking forward to hearing your questions and suggestions.

That's what we stand for and what we've built our reputation on.

# FROM THE IDEA TO THE VEHICLE OF YOUR DREAMS

## MANUFACTURING THE MOTORHOME

In Marktschorgast in Upper Franconia in Bavaria, you'll still find this form of manufacturing business. In addition to computer controlled CNC machines for the greatest possible precision, the greatest spectrum of activity at FRANKIA is making things by hand.

Whether in the construction of furniture components, in motorhome construction or the in-house sewing department, hand-made is essential. Our employees' passion and skill with their hands go into creating every FRANKIA. Each of them trained specialists and they build every motorhome as if it were their own.

See the precision in pre-production and skilled handwork for yourself with a tour of the site, discover how a motorhome is created from many separate parts. The dates for tours of the works are available on our website [FRANKIA.de](http://FRANKIA.de) under "News".

*"Our most important resource is our employees' experience and passion."*

*Two key factors in the high quality of your FRANKIA motorhome."*

Günter Bisani, Head of Production since September 1989

# OVER 50 YEARS OF FRANKIA

## INNOVATION AND EXPERTISE

THE NEW FRANKIA – The start of a new era in motorhome construction. Try it for yourself!

from 2014

FRANKIA re-activates the A 50 Plus floor plan – the coachbuilt for couples travelling alone. We revise the interior design. New furniture fronts and materials, an atmospheric lighting design and the new modern kitchen look immediately catch your eye.

2012

Another year full of innovations, innovative technology and more comfort: with the relaunch of all its motorhomes, FRANKIA confirms its ambitions to keep responding to customer needs and wishes.

2009

In the 2008 model range, the new wash basin lift sets new standards.

2007

FRANKIA motorhomes are known for their double floor technology and for their large number of features. FRANKIA further focuses on the idea of the vario space and develops a motorhome which can be extended to the rear.

2003

The 2007 model range with its new chassis from Fiat and Mercedes and completely new interior and exterior design is received enthusiastically by the market.

In December 2005 a major fire in the carpentry workshop and side-wall production area destroyed production completely. With the help of a hired hall in Bayreuth, the first motorhome was again able to roll off the production line as early as February 2006. FRANKIA plans a new building in Marktschorgast.

2006

2005

FRANKIA invests EUR 400,000 in a new, 12 m long, 66 tonne continuous press for manufacturing sandwich elements for side wall production.

2010

FRANKIA brings its new customer service centre and new production hall into service.

2008

Pilote Group invests in high-end motorhome manufacturer RMB-Reisemobilbau GmbH in Wolfegg.

2001

Development of a lowerable TV compartment, which can be lowered to eye level when in use.

1998

FRANKIA Mistral motorhome for surfing enthusiasts, who can now stow their equipment in the vehicle because of FRANKIA's double floor technology.

1995

FRANKIA has been building motorhomes with double floors since 1994.

1994

Construction of the new works in Bernecker Strasse in Marktschorgast, which is still the company headquarters today.

1992

1990

In May 1990 Pilote took over as sole shareholder of FRANKIA.

1983

The company is renamed "FRANKIA Fahrzeugbau GmbH". It began mass-producing motorhomes.

1973

Construction of the first motorhome.

1970

Company renamed: FERIELA CARAVAN Wohnwagenbau.

1960

The company is founded in Marktschorgast by Gustav Gross.

## UNLIMITED POSSIBILITIES WITH THE FRANKIA MODULAR SYSTEM

### 1. Your chosen chassis

Do you like the Fiat chassis? Or do you prefer a Mercedes chassis? Depending on body type and vehicle length you can choose between Fiat, Mercedes or Iveco chassis for your FRANKIA motorhome.

### 2. Your chosen body type

A-Class or low profile motorhome? Or do you prefer coachbuilt? With FRANKIA, you can also choose the body type. Your favourite floor plan can be combined with almost any body type.

### 3. Your chosen body length

Will two, three or up to six people be travelling together? With FRANKIA you don't need to economise, you get the space you need or would simply like to have. FRANKIA offers different body lengths from a compact approx. 6.5 metres up to a luxurious 9 metres plus.

### 4. Your chosen floor plan

At FRANKIA we put great emphasis on individuality. That's why we offer different floor-plans with a wide range of seating area, bed, kitchen and storage space choices. But always with an intelligent, well thought out use of space.

### 5. Your chosen equipment

FRANKIA also sets new standards when it comes to equipment. Even small can be luxurious. You can also equip compact motorhomes with the same comfort and luxury usually only offered for large motorhomes.

## Your individual FRANKIA motorhome

Choose from a wide variety of options with the FRANKIA MODULAR SYSTEM!

Luxurious bathroom fittings

# THE WORLD OF MOTORHOMES

## BY FRANKIA

### ONE FLOOR PLAN – THREE BODY TYPES TO CHOOSE FROM

You decide: low-profile, A-class or a coachbuilt model.

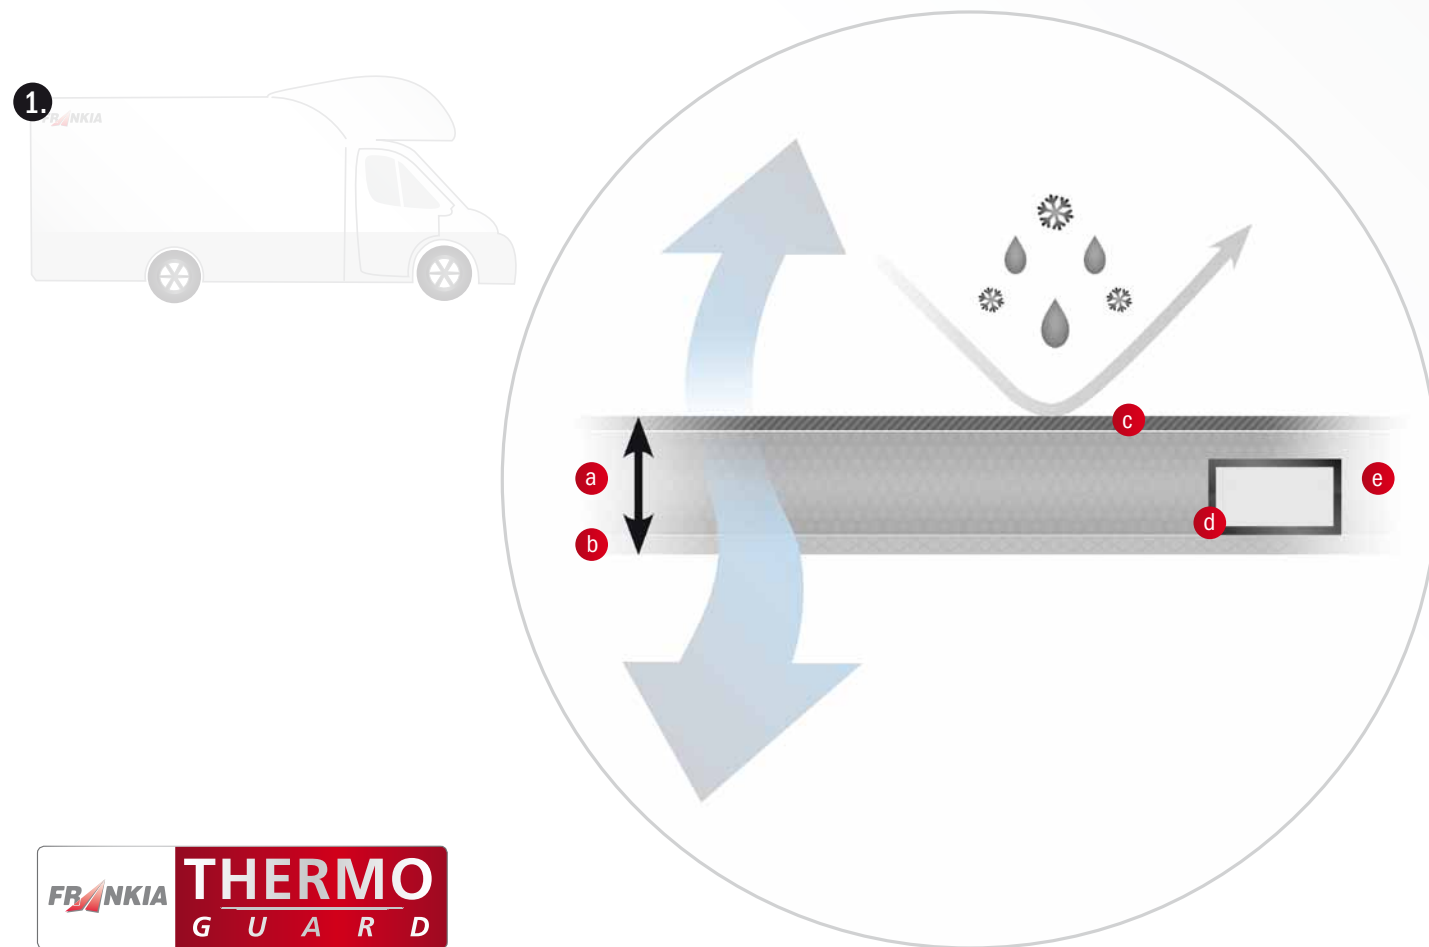

Flexibility is one of FRANKIA's greatest strengths. Almost any floor plan you choose can be built either as a coachbuilt, low-profile or A-class motorhome.

# GOOD REASONS

## FOR A FRANKIA MOTORHOME

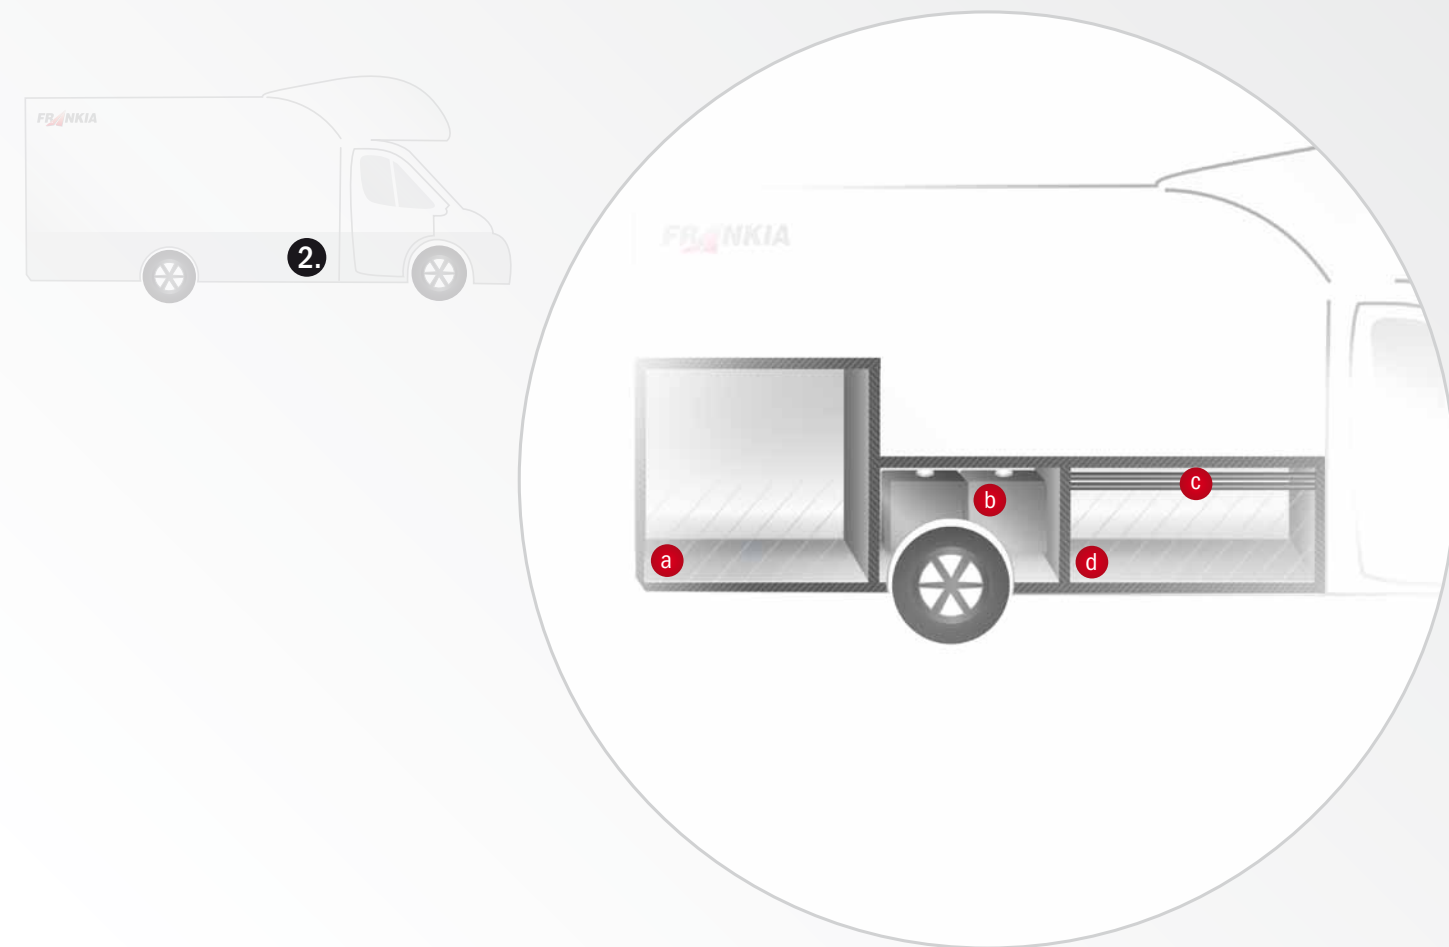

### 1. THERMO GUARD WALL STRUCTURE

- a** 34 mm wall thickness for maximum stability
- b** Interior cladding
- c** GRP cladding Weatherproof and hail proof
- d** Aluminium profile adapted to the Styrofoam for even better wall stability and to avoid thermal bridges
- e** Styrofoam insulation for an optimum indoor climate

GRP skin on walls, ceiling and floor with heated FRANKIA double floor.

### 2. DOUBLE FLOOR CONCEPT

- a** Heated garage
- b** Integrated freshwater and wastewater tanks for even more space in the living area
- c** Pipes protected against frost by heated double floor
- d** Plenty of storage space in the full-length double floor

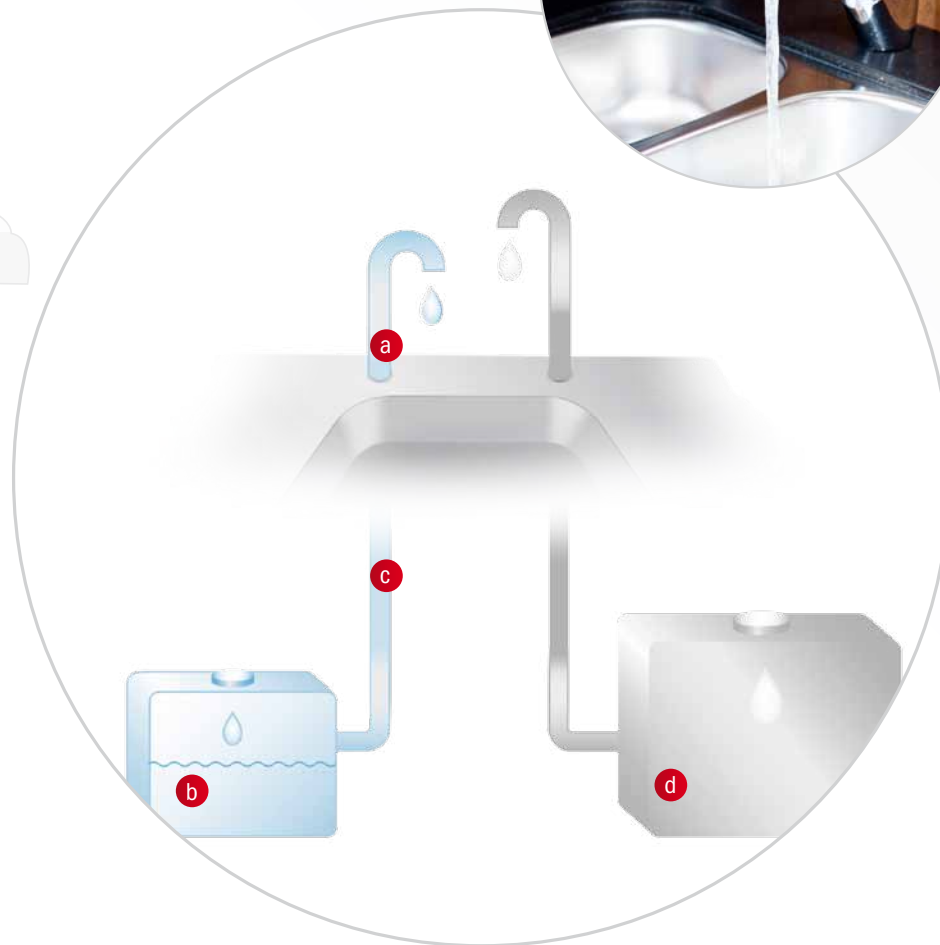

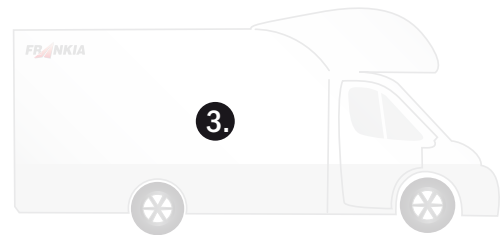

FRANKIA focuses on perfection and individuality in every detail. In order to be able to make optimum use of the storage spaces, FRANKIA designs a special double floor for every floor plan.

# GOOD REASONS

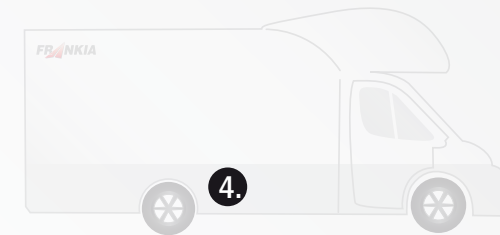

## FOR A FRANKIA MOTORHOME

### 3. FRESHWATER SYSTEM

**a** Hygienic, clear and pure drinking water from the freshwater tap **b** 20 l freshwater tank is integrated in the double floor. Easy and quick removal via an exterior flap for filling and cleaning ensures constant water freshness **c** Direct water pipe from the 20 l freshwater tank **d** Tap connected to a 150 l tank for normal household use

### 4. SUPPLY AND WASTE SYSTEMS

**a** Replacement toilet cassette for greater independence as standard from 680 | 6800 **b** Central services unit with fold-out cable reel

The ideal location of the water and wastewater tanks in the heated double floor means these are protected against frost (to -15° C).

# ENJOY EVERY NIGHT

Enjoying the day feeling well rested after a good night's sleep – that's what sleeping comfort means to us.

a

b

c

**a** Cold foam mattress **b** Fold-down bed **c** Generous sleeping area in a wide variety of forms

## THE VALUE-ADDED IN THE SLEEPING AREA

- + Electric fold-down bed
- + Cold foam mattresses
- + Comfortable length/width
- + Skylight over fold-down bed
- + Cold foam mattresses tested for harmful substances and certified safe

# FEEL LIKE YOU'RE AT HOME

Feeling at ease in a harmoniously coordinated environment, we at FRANKIA consistently deliver this for you.

a

b

**a** An appealing atmosphere for your comfort **b** Colour-coordinated contrasts

## THE VALUE-ADDED IN THE LIVING AREA

- + Harmoniously coordinated living areas
- + 4 materials, 8 microvelours (freely selectable)
- + Extensive selection of leathers
- + Colour-coordinated curtains
- + High-quality furniture finishes
- + Clear design vocabulary

# ROOM COMFORT

Space for you and everything you need for a long trip.

**a** Well thought out space **b** Plenty of storage space **c** Extra space in the double floor

## MORE ROOM – MORE SPACE

- + Uninterrupted view
- + Practical wall units
- + FRANKIA double floor concept
- + Seating for 4 people
- + Plenty of storage space
- + One or two part rear garage

# LIGHTING STYLE

Energy-saving LED technology to enable you to be self-sufficient for as long as possible. Sockets where you need them.

**a** Modern bus control **b** Atmospheric LED technology **c** Indirect mood lighting

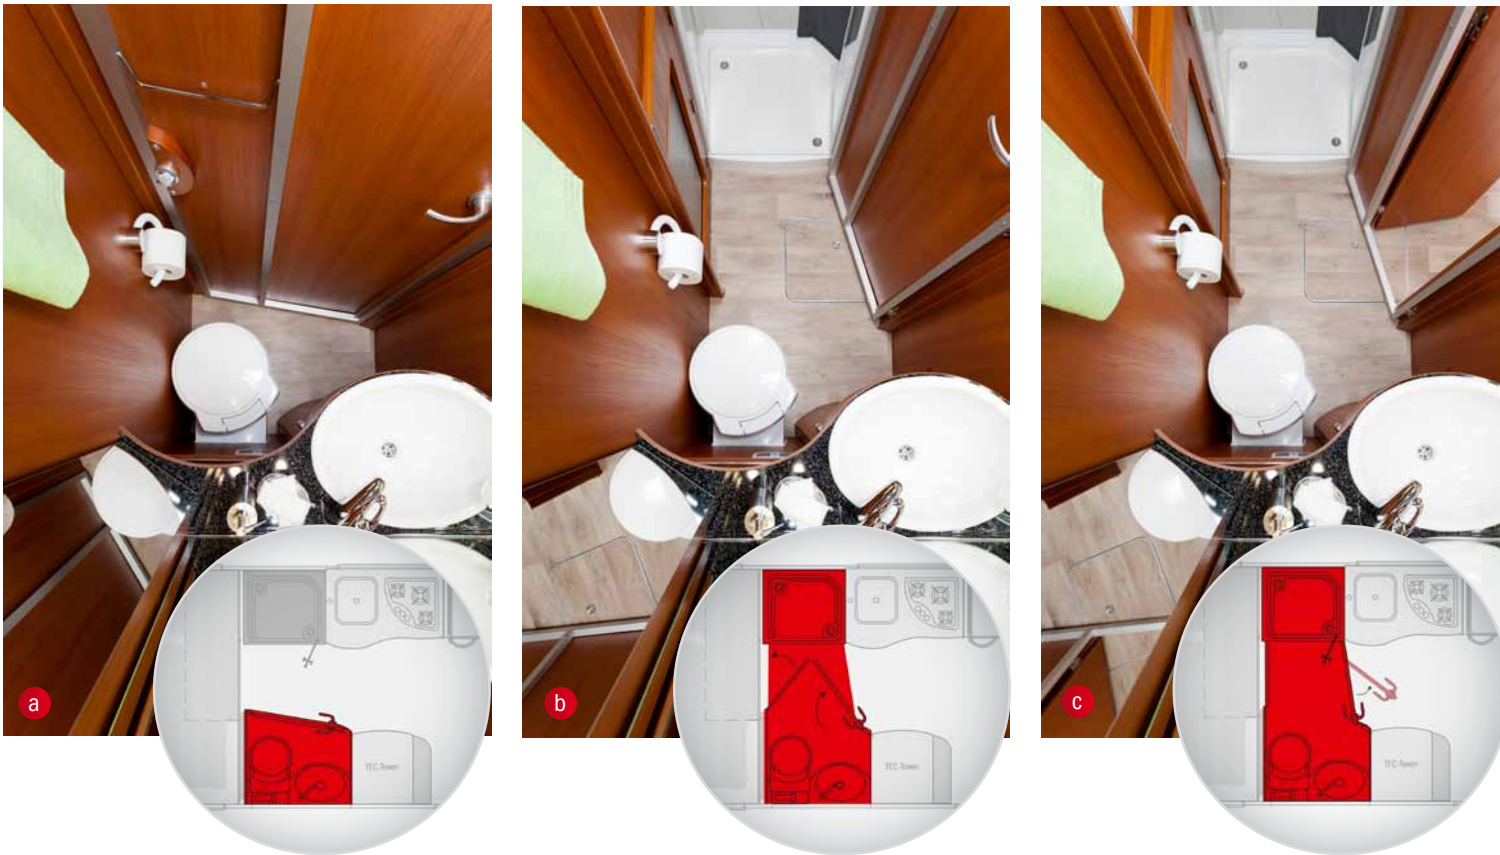

## BETTER LIGHTING – BETTER LIVING

- + LED lamps inside
- + Dimmable lights
- + Indirect, atmospheric lighting design
- + LED reading lights
- + Illuminated entry step (LED)
- + High-performance batteries up to 200/20 Ah

# THE VARIABLE BATHROOM DESIGN

Simply use the two handles to create a spacious bathroom. That's how you get a bathroom without your dream motorhome needing much extra length. And showering in your motorhome becomes a real joy.

**a** Separate washing and showering areas **b** Quick and easy to enlarge **c** A spacious wellness bathroom

## THE ADVANTAGES

- + Spacious bathroom
- + Real glass shower door
- + Design radiator with towel holder from Alde motorhome heating
- + High-quality chrome fittings, single handle mixer tap
- + Wooden bathroom furniture

# PLEASURE FOR ALL THE SENSES

With the new kitchen key concepts, you get more comfort. The FRANKIA kitchen area has a modern design and plenty of storage.

**a** a modern feel with plenty of storage **b** High quality gas stove **c** gas oven

## THE ADVANTAGES

- + Marble-effect kitchen from 790/7900
- + Stainless steel extractor hood as standard
- + Tec tower (depending on floor plan)
- + 3 burner hob
- + High-quality chrome fittings, single handle mixer tap
- + Self-closing drawers
- + Plenty of storage space

# FREEDOM

YOUR WAY

**FRANKIA**  
THE MOBILE HOME MANUFACTURER

## AS INDIVIDUAL AS YOU ...

... as unique as your wishes and dreams – that's how unique a FRANKIA motorhome is. It mixes character and individuality with elegance and time-less modernity.

# LOW-PROFILE MODELS

## LIMITLESS FREEDOM

The low-profile models are the all-rounders of the motorhome world. They combine exclusive interior design with automotive freedom in a unique way.

Whether a holiday or sightseeing tour, FRANKIA low-profile motorhomes are ready for anything. Wherever your thirst for adventure takes you.

With the FRANKIA low-profile motorhome, wherever you go you'll do it in style.

The following low-profile models are available:

740 | 7400

680 | 6800

640 | 6400

Dynamic and sporty road handling, combined with well thought out use of space. FRANKIA low-profile motorhomes are compact and manoeuvrable, but still superbly comfortable.

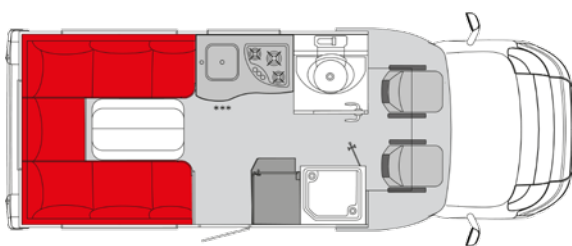

# T 640 FF2

## Model highlights:

- + Compact length with the customary FRANKIA comfort
- + Spacious rear round seating group
- + 3.5 t with 50 l of fresh water

# COACHBUILT

## SPORTY TRAVELLING COMPANION

Whether for short trips or long, for families or couples on their own, the coach-built models from FRANKIA are always the perfect travelling companion.

The ED floor plan with additional bunk beds is particularly suitable for families. This will leave nothing to get in the way of a perfect family holiday.

The A 50 Plus floor plan offers a comfortable large rear round seating group. And the large panoramic window over the Luton bed means you'll fall asleep under the stars.

The following coachbuilt models are available:

740

680

The exceptional shape, how comfortably it's equipped and, of course, the comfortable Luton bed all speak for a coachbuilt model from FRANKIA.

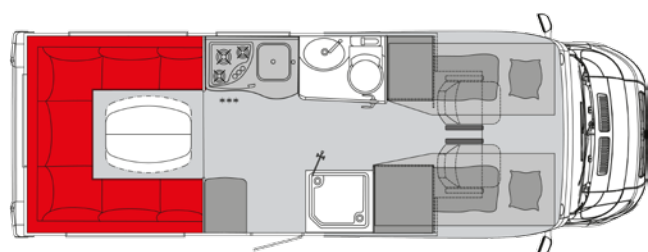

# A 680-50 PLUS

## Model highlights

- + Comfortable lengthwise berths in the Luton
- + Spacious garage
- + Large rear round seating group

Oatmeal

Palermo plain-patterned

Ravenna plain-striped

4 materials and 8 microvelours – your choice of finish.

Combine your upholstery the way you want it. Your only limit is your own imagination, you can combine the individual options with each other however you want or choose a single colour throughout (e.g. all the upholstery in ivory).

In addition, you can choose from more than 30 types of leather.  
At FRANKIA we're all about individuality.

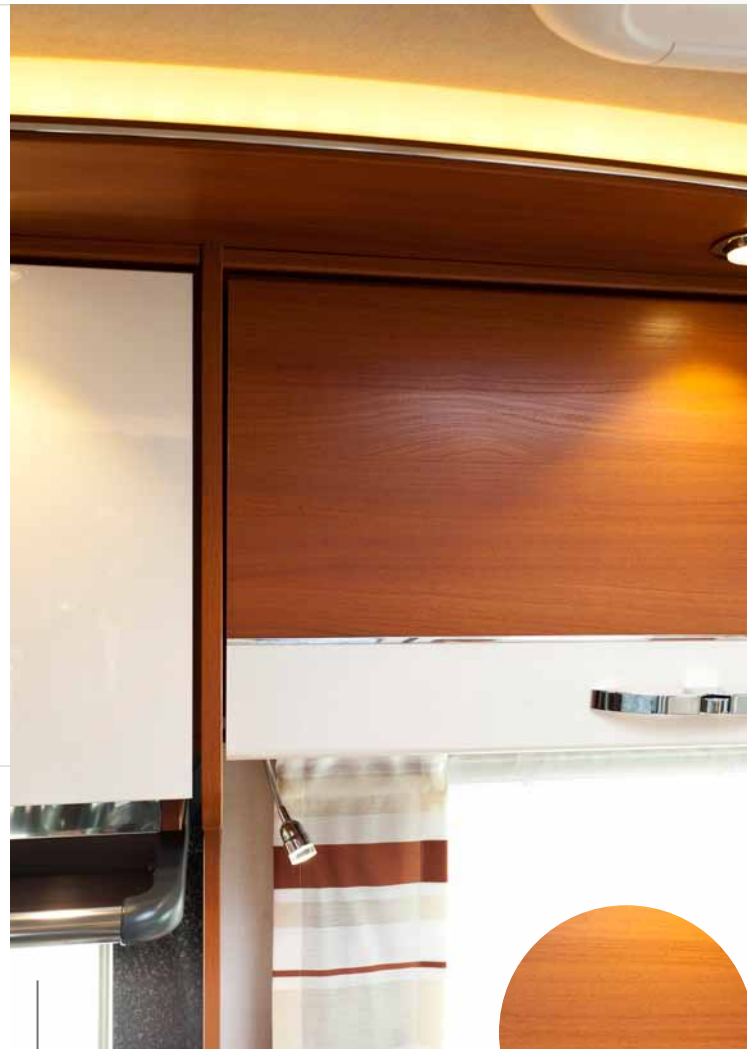

## HIGH-QUALITY FURNITURE FINISHES

Impressive furniture design in premium wood look with high-quality surface finish.

All FRANKIA motorhomes come with the modern dark "Latte" furniture finish as standard. The light "Cherry Classic" furniture finish is also available as an option.

Latte

Cherry Classic

## MODERN EXTERIOR DESIGN

You can choose the exterior design of your FRANKIA motorhome to your own taste. You get to choose from the traditional "standard white" or "arctic white", the sporty white-silver combination "grey line" or the elegant "silverline" design. Whichever you pick, you'll be getting an up-to-date design which suits you perfectly.

- ❼ Underfloor heating (option)
- ❽ Heat booster and fan (option)
- ❾ Heated seats
- ❿ Heat exchanger
- ⓫ Compact 3010

Truma Combi - The most compact motorhome heating in Europe has now got even better. Year in and year out, campers throughout Europe rely on the high dependability and comfort of Truma heating systems.

## TRUMA AIR HEATING

- ❶ Heating and hot water in a single unit
- ❷ The highest level of flexibility in any season and any weather
- ❸ Rapid availability of heat
- ❹ Maintenance free
- ❺ Energy efficient and environmentally friendly heating technology with the highest efficiency level of 98%

# AL-KO

Thanks to innovative lightweight construction technology, weight can be saved with the AL-KO AMC chassis without compromising the excellent stability of the frame. Good news for you, because what our engineers can save in weight, you can add in luggage and supplies!

## AL-KO

**1** Frame lowered, low centre of gravity, greater stability **2** Hot dip galvanised low frame with wide track for improved driving comfort **3** Mirror extension (low-profile, coachbuilt) for a better rear view **4** Pneumatic suspension on request (optionally front and/or back), high-performance disc braking system

# alphatronics

Greatness through detail.

alphatronics is the market leader in the field of mobile televisions. All TVs are manufactured at its site in Nuremberg.

## ALPHATRONICS

**LED TV** Experience the brilliant picture quality of an LED display. With a 47 cm (19") or 55 cm (22") screen and a contrast ratio of 1000:1, you'll see your favourite films with fresh eyes. The elegant exterior integrates seamlessly into the FRANKIA living environment.

# tenHaaft

Innovative Mobile Technology

ten Haaft has been developing and manufacturing mobile satellite systems for use in motorhomes for more than 25 years.

## OYSTER

**Oyster 85 HDTV** The press of a button is all it takes to enjoy the wide range of programmes on the Oyster 85 HDTV with the highest extra-class comfort. The user-friendly HD receiver will spoil you with brilliant pictures in high-definition (HD) quality – right into the furthest flung corner of Europe, the Canary Islands or even North Africa.
